

# Brief Review Of State, National And World News During The Past Week

## U. N. MAY LOCATE NEAR NEW YORK CITY

New York—On First Avenue they're measuring tall buildings against the sky—and where a few see shadows cast across their lives most residents of the area envision a shining new world capitol.

In general, those who live and work on the East River site offered to the United Nations as a permanent home by John D. Rockefeller gave that body as warm a welcome yesterday as it has received in its long hunt for quarters.

Known locally as "Turtle Bay" since the days of Washington Irving, the area now bounded by 42nd and 48th Streets and First Avenue and Franklin D. Roosevelt Drive contains some history—and some irony, if the United Nations settles there.

## GUAM WANTS TO BECOME PART OF UNITED STATES

Guam—The Congress of Guam decided to propose to the next U. S. Congress that Guam be organized as a territory and that all Guamanians become United States citizens.

Members said they were satisfied with the present navy administration of Vice-Adm. Charles A. Pownall, Governor of Guam

## United Nations Adopts Plan To End All Armament Soon

### TO SPEAK SUNDAY

Dr. J. McDowell Richards, president of Columbia Theological Seminary, Decatur, Ga., who will be the speaker on the Presbyterian Hour Sunday at 8:30 a. m. over stations WWNC, WSOC, WSJS and WPTF. His topic will be "The Meaning of Christmas."

### HEADACHE POWDER FORMULAS CHANGED

Washington—The Federal Trade Commission ended prosecution against the makers of "BC Headache Powders" and "Stanback Headache Powders" after both agreed to change their formulas.

F. T. C. had charged the B. C. Remedy Co., Durham, N. C., and the Stanback Co., Ltd., Salisbury, N. C., have used false advertising because they failed to reveal "harmful effects" of continued use in quantities greater than recommended.

Both manufacturers have eliminated the drugs acetanilid and potassium bromide, which formed the principal basis for the charges, F. T. C. said.

and commander of the Marianas, but wanted to act promptly for fear American interest in Guam might dwindle in the future.

Guam's attorney general, J. W. Davis of Chicago, had recommended that action be deferred two to five years.

## Senator Bailey Died On Sunday

Raleigh—Senator Josiah William Bailey, 73, Democrat of North Carolina, died at his home here Sunday of a cerebral hemorrhage. The senator, who had been in a coma since late yesterday, had suffered a serious heart illness about eight months ago, but was recovering.

Members of the family, who announced his death, reported that he complained of a headache yesterday afternoon, drank a cup of coffee, and went to sleep.

Later his son, James H. Pou Bailey, Raleigh attorney, called a physician at his father's request. He lapsed into a coma shortly afterwards.

Governor Cherry indicated today that he would not call a special election to name a successor for Senator Bailey's unexpired term. The Governor said that he probably would appoint Senator Bailey's successor later this week.

Potential nominees to Senator Bailey's post include former Governor J. M. Broughton, National Committeeman W. P. Horton, State Treasurer Charles M. Johnson, W. B. Umstead, who recently resigned as State Democratic Executive committee chairman, and Lt. Gov. L. Y. Ballentine.

Bailey was chairman of the Senate commerce committee and in his third term, which was to expire in 1948.

## YOUNGSTER IS CLAWED BY LEOPARD IN ZOO

New York — Three-year-old John Stearns was clawed by a leopard when he crawled under a guard rail at the Central Park Zoo. The leopard reached through the bars of its cage and gashed the left side of the boy's face.

His mother, Mrs. Anna Stearns, screamed and snatched her child from the leopard's reach. A Roosevelt hospital physician who attended the child said his condition was "good." He was taken home by his mother.

A U. S. cotton crop of 8,482,000 bales is estimated this year by agricultural economists. This is about one-third smaller than the ten-year average.

## Relieves Child's Cold As He Sleeps

This wonderful special penetrating-stimulating action—brought to you only by Vicks VapoRub—works for hours to relieve distress of colds while the child sleeps. Often by morning mists of the cold is gone. Try it tonight!

### A Grand American Tradition

The Cuppers had a grand old family reunion last week—for the first time since the war.

Big and little Cuppers came, by car and train, from as far west as Nebraska and as far east as Vermont. They crowded Dee and Jane's house, set up quarters in the barns, or stopped with neighbors—and a jollier gathering you couldn't have imagined!

I was asked to their final Saturday night supper, when they sang old songs, drank beer and cider, reminisced. Dark Cuppers and

## Your Tri-County Health Dept.

By Robert R. King, Jr. District Health Officer

The school health program occupies a large share of the attention of the District Health Department during the winter months. It is during this period that our children, who are one of the greatest assets and responsibilities of our civic life, are engaged in preparing themselves for more efficient and healthful life as adults.

By examining children of each school every year and by making special studies at the request of the teacher and principals many physical defects can be found and recorded so that in the spring and summer when the children are not in school clinics may be held for the correction of such defects as poor vision, deformed limbs, infected tonsils, decayed teeth and immunization against communicable diseases.

In addition to the work of the doctor and nurse a very important program of supervising sanitation is conducted by a sanitarian. His work includes the inspection of school lunchrooms, water sup-

plies and sanitary facilities, and in many cases the provision of such facilities is a direct result of suggestions and encouragement from an enthusiastic sanitary officer.

The program of adult education includes newspaper articles, public speeches and the correct attitude in private conversation on the part of each member of the department of public health.
