MR. PHILIP MURRAY, PRESIDENT, CONGRESS OF INDUSTRIAL ORGANIZATIONS, 1500 COMMONWEALTH BUILDING, PITTSBURGH 22, PENNSYLVANIA.

Dear Mr. Murray:

I am writing you because of the critical situation which faces Ford Motor Company today. We are threatened with a general strike next Monday which we are sure could be avoided by the use of patience and reason.

We believe in collective bargaining. We have, moreover, scrupulously followed the practice of negotiating across the bargaining table. It is our conviction that no good purpose can be served by turning the bargaining table into a public forum.

We find now, however, that we are no longer bargaining with the representatives of our employees. The negotiations have become a marionette show, with hands far distant from the bargaining table pulling the strings.

For this reason we feel we have no choice but to bring to your immediate attention a proposal which we have made to the Ford UAW-CIO, and one which the Union claims it is powerless to consider.

The Union is asking us to include in our new ag-reement a provision which would in effect nullify certain provisions of the Taft-Hartley law. This we cannot agree to do. We respect and obey the laws of the land and cannot be party to placing Unions above the

On the other hand, we are aware that irresponsible factions in Ford UAW-CIO could inspire incidents over which the Union leadership might have little or no control, and that the Union might in consequence suffer financial penalty for an act it could not prevent.

To eliminate this possibility, we have suggested a contract provision which would leave no question as to our good faith under such circumstances. We have, to specific, proposed that the Company will agree not institute suit against the Union for damages arising out of illegal strikes under the following "good faith" conditions:

1. If the Union has not inspired or authorized such an illegal strike, and

2. If the Union will agree promptly to denounce, publicly such an illegal strike, and

If the Union and its responsible officers and agents will agree to use prompt and honest effort to prevent or end any such illegal strike, and

If the Impartial Umpire, who, by agreement with the Union, decides other points of difference arising out of our contract and who has always had the complete confidence of both the Union and the Company, can be the final judge as to whether the Union has taken these reasonable steps in regard to illegal strikes.

In short, this provision merely asks that the leader-ship of the Union act in good faith and with reasonable diligence to avoid illegal strikes or the threat of such strikes. In turn, we are pledging the good faith of Ford Motor Company not to claim damages if, in the opinion of the Impartial Umpire, the Union meets these reasonable conditions.

Finally, I would like to point out that the strike which is threatened against this Company would not really be a strike against Ford Motor Company at all. It would be a strike against the Government and the laws of the land.

In this connection, may we say that we sharply stion the wisdom of a strike or a threat to strike question the wisdom of a strike or a threat to strike under these circumstances. Our customers, our employees, our management—none of whom is at fault—will suddenly suffer loss of cars and trucks, wage, and income, simply because Ford Motor Company has been chosen as the guinea pig in an effort by UAW-CIO to veto those parts of a Federal statute which it does not happen to like. In our opinion, it is things like this which cause people to lose confidence in labor leader-ship, which we will both have cause to regret.

We do not want a strike. We believe our employ-ees do not want a strike. To avert a strike we have made a proposal which we are sure you will find fair and reasonable in every respect. Since Ford UAW-CIO seems powerless to act in this matter, we are calling on

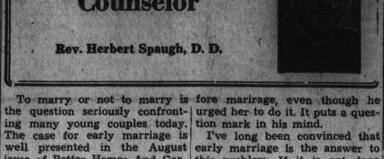

Please advise.

Very Sincerely,

HENRY FORD,II
