

Brief Review Of State, National And World News During The Past Week

U. N. NOW HAS MANY PROBLEMS AHEAD

Lake Success—A Staggering array of problems which ultimately may affect every citizen of the world is confronting statesmen of 55 nations at the second regular United Nations Assembly this week.

The headaches are there—Palestine, the Balkans, the veto, and plenty more.

The colorful Assembly Hall in Flushing Meadows of New York City is ready for the opening gavel at 11 a. m., e. d. t., Tuesday.

Top United Nations secretarial officials, from Secretary-General Trygve Lie throughout his cabinet, believe that the way in which the delegates face up to the problems and handle them will determine largely what force the United Nations will be in world affairs in years to come.

Lie and his associates realize it is a tough job. But they say they are confident the Assembly will meet the challenge.

Delegates wondered whether the most trouble would come from the Palestine problem or the Balkans situation which the Security Council failed to settle after long days of debate.

PAUL B. JOHNSON TO RUN FOR SENATE

Jackson, Miss.—Paul B. Johnson, Jr., the man who finished second in the race for Governor in Mississippi's Democratic primary August 4, will announce his candidacy for the Senate term of the late Theodore G. Bilbo.

Johnson was quoted by members of his headquarters staff as saying he had decided to make the race after holding a series of conferences throughout the State.

The youthful son of a former Mississippi Governor will become the sixth announced candidate for the seat made vacant by the death of Bilbo in New Orleans last month.

UNEMPLOYMENT IN N. C. IS AT LOW MARK

Raleigh — Unemployment is much less prevalent in North Carolina than in the nation as a whole, Henry E. Kendall, chairman of the Employment Security commission of North Carolina announced today after comparing state figures with those of a study of unemployment conditions throughout the country by Silas F. Campbell, director of Research and Statistics.

In North Carolina in May, 1946, only 2.5 per cent of the workers protected by the employment security law were unemployed, less than half of the nation-wide average of 5.2 per cent of insured workers who were idle. In California and some of the New England states the ratio ran as high as 9.6 per cent.

In September, 1946, the national average of unemployment was 3.5 per cent of all insured workers, as compared with 1.7 for North Carolina, still less than half of the national average.

ITALY REDUCED IS WITH NATIONS AGAIN

Paris—Democratic Italy, reduced in size and faced with a formidable reparations debt has rejoined the family of nations with formal ratification of the peace treaty with the Allies. Similar ceremonies will be held in Moscow's Kremlin, where the treaties with Hungary, Romania, Bulgaria and Finland will be deposited.

Although Italy will be paying off her \$380,000,000 reparations debt to Russia, Yugoslavia, Greece, Ethiopia and Albania for the next seven years, tomorrow's brief ceremony will mark the end of a national adventure which started with the Fascist march on Rome 25 years ago.

Tomorrow at 11 p. m., Italy returns to independent statehood, and thus ends the twilight period, which began Sept. 3, 1943, when Gen. Dwight D. Eisenhower and Marshall Pietro Badoglio signed the Italian armistice convention.

Text Of Marshall's Policy Gets Pres. Truman's Approval

Aboard Battleship Missouri — President Truman read and thoroughly approved a foreign policy speech which Secretary of State George C. Marshall made Sunday afternoon in New York at the opening of "United Nations week."

This was disclosed by Presidential Press Secretary Charles G. Ross as the massive Missouri plowed through white-topped seas east of Surinam on a northward course which is expected to cross the path of a giant hurricane some time next week.

The text of Marshall's speech was received by radio. The Secretary of State will deliver it at the Waldorf-Astoria Hotel in New York at the inauguration of United Nations week sponsored by the American Association for the United Nations.

Ross said the speech deals with U. S. foreign policy and that the President approved it thoroughly. The hurricane was about 1,300 miles ahead of the Missouri late Sunday.

The running swell and wet decks kept the President inside yesterday afternoon, but in the forenoon he accompanied Captain Robert L. Dennison on his weekly inspection of the ship's personnel.

As the President walked along

the ranks of white-clad officers and men he stopped occasionally to chat with crewmen. The old soldier in the Chief Executive's office was a World War I captain of artillery—emerged when he came to the marines.

In several cases he took a marine's rifle away from him and squinted critically down the barrel. He found no fault, however.

After the inspection, the President visited the 56-bed sick bay and chatted briefly with Charles A. Scott, Egermont, Miss., seaman who was taken aboard the S. S. Del Sol, a southward bound freighter, earlier in the week.

During the afternoon, the Missouri passed the halfway mark between Rio de Janeiro and Norfolk, Va., having traveled slightly more than 2,500 nautical miles since Sunday afternoon.

Doughton Meets With Park Group; Discusses Parkway

Congressman R. L. Doughton met with the North Carolina National Park, Parkway, and Forests Development Commission in session in Boone this week, which discussed increased appropriations for the Great Smoky Mountain National Park in 1949.

The commission met with Representative R. L. Doughton of the Ninth District to present its views on further development of the Smoky Mountain vacation area into a number one park.

Rep. Doughton pledged his support to the commission's proposals.

Of immediate concern to persons in the Boone and Blowing Rock area were the discussions pertaining to the Blue Ridge Parkway, which has not been completed from Boone to Asheville.

Sam Weems of Roanoke, Va., superintendent of the parkway project, outlined the proposed program of work for this year. He said a link of approximately five miles is now being constructed between Boone and Blowing Rock, but that the need for a large bridge probably will delay the completion of the highway for some time. The bridge cannot be built at present, he said, because of the high prices of steel. Another section, between Bull Gap and Oteen, is expected to be contracted for this year, he said, and a repaving job will be done on that part already completed around Deep Gap.

The question of immediate extension of the parkway through the Moses H. Cone estate near Blowing Rock was left open by the commission.

Sunday night with Misses Beulah and Grace Fields.

Miss Ruth Loggins, of Pennsylvania, is spending sometime with her parents, Rev. and Mrs. J. H. Loggins.

Mrs. Tamsy Caudill spent a week with her brother, Andy Atwood of Wagoner, recently.

Sale Of Cattle Nets \$15,467.50

The dispersal sale of the Aberdeen Angus cattle, of the herd of the late Eugene Transou, held Friday at the Locust Grove Farm near Sparta, netted \$15,467.50.

The top animal was sold to Wade Hampton, of Sparta, for \$420.00. Those from Ashe county purchasing registered stock were Felding Miller, of Laurel Springs, price paid, \$230; G. W. Stringer, Wagoner, price paid, \$175.

Others from Ashe buying stock and prices paid are J. W. Gamzill, West Jefferson, \$255; second purchase, \$335; Roscoe Oliver, Silas Creek, \$140; and Van Miller, Laurel Springs, \$107.50.

SERVICES FOR SUNDAY ANNOUNCED

Rev. William C. Crummett, pastor of the Laurel Springs Methodist charge, has announced the following services for Sunday: Chestnut Hill at 11:00 a. m., and Nathan's Creek at 8:00 p. m. The public is cordially invited to attend these services.

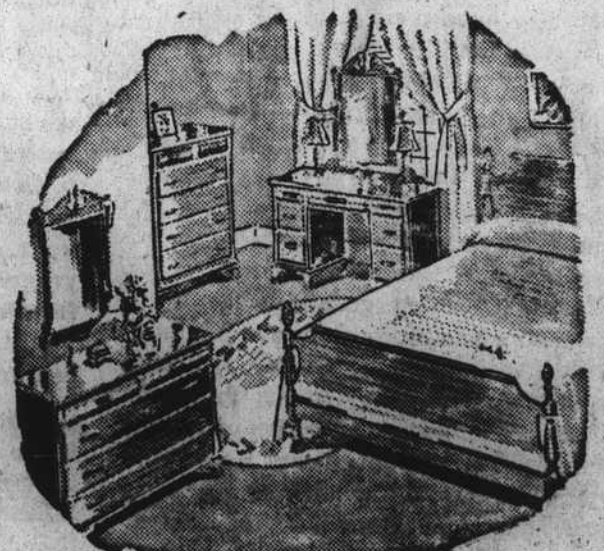

An abnormal appetite as shown by cows eating dirt or chewing wood or bones is evidence that the ration is deficient in mineral matter.

SPARTA, NORTH CAROLINA

WE'RE ALL IN THE SAME BOAT

Telephone companies the country over share many problems—one of them is the record number of daily long distance calls now being made. Along with this is the fact that most companies are operating with limited long distance facilities. This naturally slows long distance service sometimes, especially during peak hours. So, if you have a short wait occasionally, it simply means that lines are busy here, or along the route to the city you are calling.
