## AIRBORNE TRAINING BUILDING IS **NOW OCCUPIED**

Furniture Badly Needed To Complete Home, Says Hospital Head.

The first step in the Valdese General Hospital's \$150,000 expansion program has been finished as nurses, technicians and other single female employees of the hospital last week moved into the newly-completed nurses' home.

Seventeen women now live in the 15-room building, which was started last summer. Built of brick, concrete and steel, the building is of early American architectural style with an attractive front of square columns supporting a small porch. Only land-Jack W. Wood, Pvt, son of Mrs. scaping remains to be done to

Furnishings for the handsome new building is another matter. all furnished with the old furniture on hand, the building's rethere are no funds on hand with which to purchase additional furnishings and jokingly added that "apple crates are going to look rather sad in those nice rooms.'

Some of the bedrooms are built to accomodate two persons while others are designed for only one bedrooms is a bath. The building is fire-resistant with concrete floors, masonry walls and steel supporting columns. The concrete floors are covered with easilycleaned asphalt tile.

The basement of the two-story building houses a recreation room and a kitchenette, but regular meals will be served in the main hospital building as in the past.

Work on altering the bedroom, quarters of the clinic building is now underway since the female employees of the hospital have vaing carried on and Mr. Owens states that this second phase of the program should be finished in of the entire facility by National
