WASHINGTON, N. C., FEB. 15.

LET THE NEWS FOLLOW. Parties leaving town should not fail to let The News follow them daily with the news of Washington fresh and crisp.

MUST BE SIGNED. All articles sent to The News for publication must be signed by the writer, otherwise they will not be published.

AGRICULTURAL FAIR.

Washington being the hub of this northeastern section, no town has a better back-country to draw from than this city, and as we are going to hold an agricultural fair, it is time that we were getting things lined up.

WOMEN AS EMPLOYERS.

Behind a trifling wage dispute which has resulted in the shutting down of a Pittsburg stogie factory managed by the late owner's daughter lies an economic and sociological question of considerable interest in view of woman's growing prominence as an employer.

THE GROCERY BILL AND THE TARIFF.

The Atlantic Journal states that at the Jersey Republican investigation of the high cost of living. An unconsciously humorous and tall-tale alarm is being expressed by Republican statesmen at Washington...

enter into the week's grocery bill and are responsible today in part at least for exorbitant food prices.

So far as any Republican investigation of the high cost of living goes, The Star may as well inform the Journal that the committee on the extravagance of livelihood will make its report just in time to get it in the Congressional Record as a Republican campaign document for use in the congressional elections next fall.

The "spirit of '78" is brought up to date by the Chicago music teacher who refuses to pay her personal tax unless she is allowed to vote.

Woman's advance is further evidenced by the issue of a license as pilot to Mme. de la Roche by the French Aero Club as a reward for her feat in flying twelve miles at Hellipolis.

The Chicago Tribune's poll of Republican and Independent newspapers of the Middle West shows that they stand nearly six to one against Mr. Cannon's re-election as Speaker and over four to one against the "Aldrich-Cannon tariff bill. Congress can draw its own conclusions.

The Hand Behind the Fashions. But for the inventive faculty of man in the matter of feminine clothing, how would fair woman exist or enjoy life? asks the Drapery Times.

Enormous Pay Roll of Railroads. The pay roll of American railroads amounts to a billion dollars a year.

Women Brick Workers. Prussia's brick yards employ nearly 20,000 women.

As a rule, great manipulators have high, thin voices and take a distrustful view of securities. Their vocal peculiarity must be left as an arbitrary fact; as to their berish slant of mind, it is easily accounted for.

A story is told of a ready-witted clergyman who was attending at the regular meeting of ministers in his denomination. One of the preachers, in a very excited manner, and with strong indignation in his tones, demanded:

"What, sir, would the Apostle Paul have said could he have seen the life of luxury led by our present race of prelates and church dignitaries, rolling about in their carriages and living in their palatial residences?"

"Well," replied the witty clergyman, "I should think that he would have remarked that things in the church are decidedly looking up."

There is no more wrong in coloring winter butter judiciously. Almost anyone would prefer to eat butter that pleases the eye as well as the palate.

Provide Green Food. Be ready for the dry spell when it comes in summer and have green food for your cows by planting a special patch for them now.

Guessing Unsatisfactory. The only way to accurately judge now is by weighing and testing her milk. Guess methods will prove most unsatisfactory.

Remember the name—Doan's—and take no other.

Maximum Grade. In American practice the maximum grade for important roads has been generally fixed at 5 per cent.

In some instances, Cardui gives instant relief; in others, it may take a little time. But in all cases of female trouble Cardui can be depended on to be of benefit, as it is a specific remedy for women and acts in a curative way on the womanly organs.

As a general tonic for women, to build up your strength, improve your appetite, bring back rosy cheeks and make you look and feel young and happy, nothing you can find will do so much for you as Cardui.

Your druggist has it.

Not Built to Endure. Even in our cities the highways are not built to endure. They are without solidity of foundation or of satisfactory surfacing and in constant need of repair.

Result of a Hundred Years. While Kentucky has 8,000 miles of stone road, it must be borne in mind that she has built only a hundred years building them, or, in other words, that she has built only about 80 miles per annum, whereas, if all the money you are spending annually on public roads were spent in building stone roads at a cost of \$3,000 per mile, you would now be building about 650 miles of stone road annually.

Live Issue in Iceland. Highway improvement is becoming a live issue in Iceland. It is claimed that with good roads more than 40,000 acres of land could be made profitable for agricultural purposes and that such roads would lead to the development of the rich veins of gold which are known to exist near Reykjavik, the chief seaport.

Where the Blame Belongs. Man is the artificer of his own happiness. Let him beware how he complains of the disposition of circumstances, for it is his own disposition he blames.—Thoreau.
