SETTLEMENT

Still Contending For Peaceful Settlement of the Philadelphia Carmen's Strike.

Philadelphia, March 17.—With the arrival of State Senator James P. McNichol and William S. Vare, recorder of deeds of the county, the most potential leaders of the dominant political party in Philadelphia, it was expected, added force would today be given to the movement to bring about peace between the Philadelphia Rapid Transit Company and the striking employees.

Both branches of city councils were expected to meet late this afternoon and more resolutions urging arbitration and other peace methods were scheduled to be presented. It is believed that if Mayor Royburn had shown a desire to enter arbitration proceedings he would have been strongly backed up by the councils.

IN TURMOIL

The Insurgents are in Control—Attempt Made to Oust Cannon From Committee on Rules.

Washington, D. C., March 17.—By a vote of 147 to 122 the insurgent Republicans and Democrats at seven o'clock tonight defeated the motion of Representative Tawney, of Minnesota, to adjourn.

Dem-Insurgent Control Continues.

Washington, D. C., March 17.—At 11 o'clock Representative Dwight, Republican whip, announced that he was assured of sufficient Republican votes to carry a proposition to take a recess of the House until tomorrow.

The moment the vote was announced and the obituary text of endurance began, again, the Democrats renewed their cries of "rule," "rule!"

Mr. Underwood moved a call of the House. The call was ordered.

It was generally understood at 3 a. m. that the "regulars" were breaking the quorum deliberately and were going for the night.

WESTERN STRIKE

But Little Hope of Successful Mediation.

ARE AWAITING RESULTS

Both Sides Remain Firm That One Question Cannot Be Arbitrated—Jurisdictional Dispute Between Firemen and Engineers the Stumbling Block to Settlement.

Chicago, March 17.—That a strike of 30,000 men employed on the western railroads hangs by a thread and that the government mediators, Martin A. Knapp and Charles P. Neill, are confronted by the most difficult problem ever presented in wage disputes was made evident today before the conference of representatives of the Brotherhood of Locomotive Firemen and Engineers of the general association and of the two federal agents began.

"Our committee has small hope that any settlement will result from the efforts of the government mediators," said President Carter, of the firemen, "but we are willing to see."

"We cannot arbitrate with the firemen the question of rules to govern the engineers," said O. L. Dickerson, of the managers association.

The jurisdiction dispute developing between the firemen and engineers as a result of the former's demands on the railroads has been the stumbling block of the whole series of negotiations.

It was arranged that there should be two conferences, the first between the firemen and mediators and the second between the managers and federal agents to let the mediators get the situation sized up immediately without the bickering that might follow a general conference in the preliminary stages.

WATERWAY WORK

Inland Route From Atlantic to Mississippi.

Apalachicola, Fla., March 18.—The present rivers and harbors bill contains an appropriation for that part of the proposed Mississippi to Atlantic Inland Waterway between Apalachicola, Fla., and St. Andrews Bay, Fla.

The Mississippi to Atlantic Inland Waterway Association was organized only two years ago and proposed the construction by the government of an inland waterway from the Mississippi River to the Atlantic Ocean.

To secure an appropriation for the completion of the project calls for great unity of effort and cooperation on the part of the people of the Gulf States.

Further information relating to local branches of the association and literature may be had by applying to the secretary, Leland J. Henderson, Apalachicola, Fla.

APPROVES

Bishop Nelson, of the Episcopal Church, Approves of Tuberculosis, Sunday.

Approval of the movement for a national tuberculosis Sunday on April 24, recently inaugurated by the National Association for the Study and Prevention of Tuberculosis, is given in a statement by the Right Reverend Richard H. Nelson, Bishop of the Protestant Episcopal Church, issued today.

Bishop Nelson says: "I think well of the proposal that all the churches should unite on April 24 in presenting the truth concerning tuberculosis and stimulating public interest in the campaign for its prevention and cure."

The campaign has entered upon its second stage. Having labored with some success to point out the danger, we are now concerned with the cure, and this depends upon improvement in conditions of personal and social life.
