TO RALEIGH

Carl Kelly Carried to Raleigh For Safe Keeping—Left on the Norfolk and Southern Train.

The prisoner Carl Kelly, indicted for the murder of Samuel Taylor, was taken to Raleigh yesterday afternoon by Sheriff George B. Hicks for safe keeping. There was reason to believe that it was not safe for Kelly to be kept in prison in this county and for this the sheriff decided to take the prisoner to another county. He was taken to the depot in a closed carriage and but very few knew that he had been spirited away until it had occurred. Kelly is now safely lodged in the jail at Raleigh.

COMMENTARY

Congressman Small Endorses Work of the Woman's Betterment Association.

Editor News: I have just read with much interest and pleasure the proceedings of the last meeting of the Woman's Betterment Association in Washington. Of all the associations in our town inaugurated for the public service, I know of none more necessary or capable of performing more efficient service. There are many questions which this association of women may undertake and which come peculiarly within woman's sphere. I may refer to the important subject of sanitation and public health, under which may be included a municipal system of sewerage, pure water, clean streets, a sanitary market, and clean public buildings and homes. Attractive and well regulated playgrounds for the children have constituted one of the early purposes of the association, and I have no doubt their plans will soon be realized.

Red Lip Salve. Cinderella—My lips are pale and purplish and not a good color. Would you recommend the use of a red lip salve? To render the lips artificially would detract from your looks rather more than pale and purplish lips. You can help matters very much by massaging the lips and applying camphor and vasoline in the manner just described. Rub the lips with the finger tip, which stimulates the circulation. Pallor of the lips indicates a lowering of the tone of the whole body, and shows that you need a tonic.
