

CONTROL INDIANA

No Mention of Payne-Aldrich Tariff Law.

SEN. BEVERIDGE'S SPEECH

The Senator Sound the Keynote of the Insurgent Movement—Makes Speech Explaining His Position in Regard to the Tariff—The Insurgents Will Stand or Fall.

Indianapolis, Ind., April 5.—By side-tracking all mention of the State local option issue and eliminating all mention of the Payne-Aldrich tariff law—two points definitely decided upon by the resolutions committee at a nearly all-night session, the Republican state convention, which met at 10 o'clock this forenoon, sounded clearly and distinctly the keynote of the so-called "insurgent" movement, when United States Senator A. J. Beveridge, as temporary chairman of the convention, delivered what is looked upon by Indiana politicians as the most notable utterance of his political career and a declaration of principles on which Beveridge himself and the entire insurgent movement will stand or fall.

The appearance of the senator was the signal for a tremendous ovation from delegates and galleries. There were no preliminaries to the convention. Beveridge was the issue; Beveridge was the convention. What he was to say had been jealously guarded by his friends and the press. They knew in a general way, however, that he did not intend to take any backward step or offer any apology for his fight and vote in the senate upon the tariff and other issues.

The Republicans of Indiana are for a protective tariff which covers the difference in the cost of production here and abroad. Less than that is unjust to American laborers; more than that is unjust to American consumers. Injustice is the only foe that protection needs to fear. It was to reduce the Dingley tariff to meet changed conditions and secure justice that we undertook its revision. Every economic policy, every political system, almost every government has been destroyed because of excesses and injustice that creep into it. The way to keep sure a policy, a system or a government that in itself is good is to administer it with justice and wisdom. The only way to keep a party solid and growing is to keep it right and progressive.

The prizes were awarded to Johnnie Slyler and the other to three girls who tied. One of the rooms on the second floor was artistically ar-

MUCH DAMAGE

The Hall Storm Does Much Damage on South Creek—Potato Crop Insured Considerably.

From a correspondent the Daily News ascertains that the South Creek section was visited by one of the severest hail storms in years Sunday afternoon, last. The Irish potato vines are beaten almost to pieces. Corn was damaged but not near so much as the potatoes. The correspondent writes that the hail completely covered the ground. Some of the stones were as large as hen eggs. Ten window panes were broken at the store of H. C. Mayo & Co., and the hail burst through the kitchen roof at the home of Mr. George Flowers. Shingles were beaten off the houses. The crops in the South Creek section suffered greatly. The hail will prove quite a blow to the farmers in that locality.

MORE FAVORABLE.

Though the labor situation continues somewhat irregular in character, this week's developments, when weighed in the balance, show that it presents a more favorable aspect. This latter phase of affairs is furnished in the increased wages granted to perhaps 300,000 employes by such railroads as the Pennsylvania, the New York, New Haven & Hartford, the Baltimore & Ohio and Norfolk & Western, the leading increase being that of 5 per cent accorded by the Pennsylvania system to its employes, numbering upwards of 200,000, who receive less than \$300 per month. Negotiations are pending with other roads, and as all of them appear satisfied to settle on some basis, the prospects favor a speedy termination of the matters in issue. In fact, the only road that seems to be confronted with difficulties in this respect is the New York Central, which has offered to compromise on a basis that at first blush does not appear to measure up to the terms granted by either the New Haven or the Baltimore & Ohio. However, Mr. W. C. Brown, president of the New York Central, points out that with the greater facilities possessed by his road for moving trains, such as the four-tracks between Buffalo and Albany and extra running tracks elsewhere, the men can get in more mileage, the basis of compensation, in a day than on the Baltimore & Ohio and most other roads. Therefore the railroads have done very well for one week, and while there is some talk to the effect that the men benefited are not in every instance wholly satisfied with the terms granted, and that they will use the present settlements as levers for higher wages later on, the fact is that the railroads have placated their employes for the time being at least. Other industrial concerns have also granted higher compensation to their employes, and it is especially noteworthy that Lake Superior ore producers have advanced wages about 10 per cent, thus establishing the highest rate ever paid in the history of the industry.

THE GALEY TONIGHT.

The Galey offers some extra fine pictures for tonight. The Corsican Revenge, dramatic, in one of thrilling interest, and the Gunby's Sojourn in the Country, comic, is one that will bring the laughs. The feature picture of the evening is the Biograph, entitled, 'Taming a Husband,' and this picture alone is well worth the price of admission.

The Stallings Trio will have a complete change of bill tonight in their vaudeville acts. They will put on one of the most laughable skits ever seen in the city, entitled 'The Baby Hospital.' They also change their musical program, both vocal and instrumental. Come out tonight and see a good show. Doors open promptly at 7:30 p. m. and the prices remain the same, 10c.

Mr. R. W. Lucas, of Belhaven, was a Washington visitor yesterday afternoon. He returned home on the 5:30 Norfolk and Southern train.

Arranged for the pleasure of the girls and boys, in this room the prize, which was a box of chocolate, was awarded to Miss Ida Shavender. The third room was set to entertain the ladies and gentlemen. The contest in this room was very amusing and the prize awarded to Mr. H. P. Jones. Votes were taken for the prettiest girl, Miss Lotta Bishop receiving the most. The proceeds were \$41.50.

SPELLING MATCH

A Most Unique and Interesting Program is Being Arranged For Next Friday Evening.

The Woman's Betterment Association is to give the men of the city another opportunity to measure words with the women at the public school auditorium next Friday evening in a spelling match. Hon. H. S. Ward is to be the teacher and unless nothing unforeseen happens things will be more than lively in that quarter on the date announced.

An admission fee of 10 cents will be charged, which will be donated to the work of the Woman's Betterment Association. The class will be composed of some of the city's best spellers and from all reports the Blue Back is sought after from every quarter. The Blue Back is to be used again, and the schoolmaster has already given his edict that only the simplest words will be given. It will pay the prospective spellers to study hard and be ready for the fight Friday night. A great time is anticipated. A full program will be announced through the columns of this paper later.

RIDES WITH KING

At the Time Ex-President Had Date With Pope.

IS CHIEF TOPIC IN ROME

Refusal of the Former President to Accept Vatican's Terms For an Audience Has Become the Chief Topic of Europe—An International Political Issue.

Rome, April 5.—Theodore Roosevelt, at the time he was to have been granted an audience with the Pope today, went driving with King Victor Emmanuel. The refusal of the former president to accept the terms upon which he might have visited the vatican is today the chief topic not only of Rome and Italy, but of Europe. The affair has assumed the importance of an international political issue. In every country where Catholics form a distinct political party the Roosevelt incident is being used as capital by their opponents.

At the same time it threatens to have a material effect on the journey of Mr. Roosevelt and his family.

Advices received here today bring the rumor that Emperor Francis Joseph of Austria-Hungary is so incensed that he has decided to refuse to meet the ex-president. It is even rumored that other Catholic rulers may take similar action, although that is hardly probable.

On the other hand advices received from France make it clear that, so far as the republic is concerned, Mr. Roosevelt has enhanced the heartiness of his reception by his refusal to comply with the demands of the vatican. The long-simmering struggle between the clericals and the radicals in France is about to come to a head in the approaching elections, and the foes of the church are already exploiting the Roosevelt incident and holding it before the public as an example of clerical intolerance.

In Rome itself the popularity of Mr. Roosevelt appears to increase as his breach with the vatican grows in significance and importance. When he awoke today he found crowds before his hotel. In his trips about the city he was watched, followed, and escorted at all times by throngs which taxed the ability of the police.

He was whirled to the Quirinal early in the day and after a short chat with the king they started on the drive. Although there was a touch of informality about the excursion, noticeable in the friendliness of Victor Emmanuel and Mr. Roosevelt, the cavalcade of escorting troops formed a gay spectacle and added a touch of pomp.

Besides the drive with the king Mr. Roosevelt's program for today gave him an opportunity for rest. A bicycling tour in the afternoon and a dinner given by the British ambassador formed the principal features.

Although the vatican incident here has had an effect in nearly every country of Europe, nowhere is that effect of greater seriousness than in Rome itself.

MAYOR'S COURT.

Fletcher Harris was before Mayor C. H. Sterling yesterday afternoon at the city hall on the charge of vagrancy. The judgment of the court was that he be confined in jail until the next train leaves, when he was taken to the station and told to get out.

FEDERAL COURT.

The next session of the United States Federal court for this district will convene in this city on Tuesday, April 19, with his honor, Judge H. C. Connor, presiding. This will be the first court in which District Attorney Sewell will be in charge of the docket for the government. There are several cases of importance to be tried at the coming term.

If a man's acquaintances don't know that he is in love it's a sign that he isn't.

Very much that all the invited guests found it impossible to be present.

The principal idea in arranging the luncheon was to bring all the city and county officers together to see a demonstration of the work that is being done by the Domestic Science department, viz., manual training and the kindergarten. After the last toast had been responded for Mr. C. M. Brown proposed that the guests present extend a vote of thanks to the management of the school for arranging the luncheon, and particularly to Miss McClees and the young ladies for preparing such a delightful feast. The motion was carried unanimously by a rising vote. All present pronounced the occasion one that was full of pleasure and profit.

CURIOSITY

A Chick With Four Legs Attracted Attention in the Daily News Office Yesterday.

Mrs. Julia Guthrie, of Chocowinity, wife of Mr. L. W. Guthrie, sent to the Daily News office yesterday a chick four days old, having four legs. All the limbs were perfectly formed and the chick from all appearances bids fair to become a grownup chicken. It was quite a curiosity, as nothing of this nature had been seen in these parts before.

UNIVERSITY NOTES.

Last week was a great week in the University year. It was Junior week. This occasion which was instituted several years ago surpassed in its signal success and general pleasure the festivities of all previous years. Into the week-end calendar were crowded such events as the Carolina-Amherst, Trinity and Lafayette baseball games, the Rensselaer Extravaganza, the Wake Forest-Carolina track meet, the University Glee Club and orchestra performance, the Pan Hellenic dance and the Junior promenade. The Carolina baseball team played brilliant ball. The manager of the Trinity college (Connecticut) team, which won 1 to 0 over the Nac's and which lost to Carolina 1 to 1, said that Carolina had the best college team that he had seen this season. The Senior Extravaganza participated in by 40 members of the Senior class, kept a packed house in an uproar. Carolina won the dual track meet with Wake Forest college by a score of 66 to 57. Joe Hagman of Carolina lowered the State record in the half-mile run in the remarkable time of 2:17. Captain Williams of Carolina made the high jump 5 ft. 6 in., leading his own record several inches. The Glee Club and orchestra responded to the inspiring presence of leaders of North Carolina's famous visiting daughters by giving a high-class, high-toned performance. Special features of this entertainment were the vocal solos of Joe Hartwell, Paul Capelle and John Rye, and the instrumental solos by D. L. Blalock and W. B. Ellis. The Junior Promenade brought the occasion to a magnificent close. Junior week has now taken its place of dignity and close along with University day and commencement.

Next week is also an eventful week. The Glee Club and orchestra take a six day tour as arranged by Manager J. G. Beard in Eastern Carolina. Carolina represented by C. E. McInch and F. N. Cox meets Georgia in debate Thursday night in Chapel Hill, and represented by W. R. Edmunds and H. E. Stacey meet Washington and Lee the same night in Greensboro. Friday and Saturday Carolina meets Virginia in the annual baseball contest for the Southern championship. All North Carolina will be present in body or in spirit at the great interstate fight to be held in Greensboro or Charlotte.

The following officers of the Y. M. C. A. were installed last week: Edgar W. Worthington, president; D. E. Bryn, vice president; R. T. Welch, treasurer, and H. C. Smith, secretary. All four of these young men are men of fine character and achievement in University life exemplifying the fact that the Y. M. C. A. is a representative University organization. Worthington, the president, is also a commencement debator, marshal and prospective president of the Phi Beta Kappa. The University Y. M. C. A. is now one of the three strongest in the South according to the opinion of W. D. Weatherford of the International committee.

PRAYERMEETING.

There will be prayermeeting services in all the different churches of the city this evening at the usual hour to which all are most cordially invited to attend. At the First Methodist church the second quarterly conference will be held immediately after the service. All the officials members are asked to be present.

EDUCATION

The Board of Education Employees the Superintendent for the Entire Year—Elections Ordered.

The Board of State Library regular monthly session at the courthouse last Monday. All the members were present. The following business was transacted:

The board received and approved a petition for District No. 11, Chocowinity township, at the Cross Roads, asking for an election for special school tax. The county commissioners have ordered an election to be held on Thursday, May 12.

The board has purchased the building known as the Carolina institute, Old Ford. The citizens of that district has obligated to place the building in first-class shape.

A petition was received from District No. 11, Richland township, asking for a special school tax election at Edward. The petition was granted and the county commissioners ordered an election to be held on May 9th.

A petition for a special school tax election in District No. 12, Richland township, Bonneton, was asked for. This election has been called for May 9.

The citizens of Royal Graded School district, No. 4, Richland township, who have been disputing over the location of the building reported that all differences had been settled and the location selected was satisfactory to all concerned. A new two-story building is to be erected with all the modern improvements and appointments.

Messrs. T. M. Peale and W. L. Godley have been added to the school committee for Royal school.

The present superintendent, Mr. W. L. Vaughan, was only employed by the board during the school term, but at the last meeting of the board decided to employ him all the time. His services have been so valuable to the schools that the board has decided to employ him for the entire year. Mr. Vaughan has proven the right man in the right place and the board has acted wisely in having him to give his entire time to the school work in Beaufort county.

TO END SECRET CAMPAIGN FUNDS.

A sort of sleeping sickness has infested with the progress of any Congressional campaign publicity this session at Washington. Senator Hargrove, chairman of the committee on privileges and elections, could not be induced to handle the matter, and only a sort of a last resort, Senator Bailey, a minority member, introduced a bill. Two weeks ago the House passed the McCall bill which would have ended a lingering death by secret interference, but Representative Gray, chairman of the House committee, will delay making the bill a law until he has had a chance to make publicity compulsory. A bill which would make the source of campaign funds a matter of public choice. Recent disclosures have only increased the suspicion of all campaign managers who practice secret methods of handling the funds. If the Republican Congress persists in passing the publicity bill before the coming session, the election of 1912 will be held on a level playing field, and the instrumental policy will be held up, and by whom? What hidden influences are responsible for this proposition?

The time has passed when the party will announce in the conventional manner of campaign accounts. It is declared that all receipts and expenditures be made public as a matter of public choice. THE GEM.

The pictures at the Gem last night were of a high-class and highly appreciated. The management wishes to announce that before films are shown to the public they are put on the screen to see that nothing but what is strictly moral and in keeping with the good reputation of the house be shown the public. No one need have a fear of seeing an objectionable picture as this is strictly guarded against. Tonight a very interesting program is offered. Raleigh & Roberts series, North Pole expedition, seal and walrus hunting in the Arctic region. This scenic picture taken in the far northland is of an educational quality and highly interesting. Home New York, comedy. Fedra, a thrilling dramatic film, powerful and absorbing, shows much dramatic work. As the story develops interest increases. Our house is always scrupulously clean, well ventilated and cool and fumigated each week. For health and happiness visit the Gem.

SHIP-SUBSIDY CASE

Hearing Has Begun Before the Committee.

MUCH INTEREST AROUSED

The First Witness Was John A. Penton, the Secretary of the League—Asked for Counsel and the Committee Took the Matter Under Consideration.

Washington, April 5.—The house investigation of the charges made by the merchant marine league that members of congress were being corrupted by a lobby to defeat ship subsidy legislation was begun today before the special committee recently appointed by Speaker Cannon. The committee includes Representatives Oicott of New York, Longworth of Ohio, Hawley of Oregon, Humphreys of Mississippi, and Garrett of Tennessee.

The first witness was John A. Penton, of Cleveland, O., secretary of the merchant marine league. He asked if he could employ counsel. This was discussed by the committee and it was decided to further discuss it in executive session.

Before Penton was examined Representative Kustermann, of Wisconsin, whose name has been used by the league, read a statement giving the names of newspapers and others who had attacked him because of his opposition to ship subsidy.

Representative Steenerson, of Minnesota, the author of the resolution which caused the investigation, submitted a large number of letters he had received from the merchant marine league officials in Cleveland. They were handed to the witness for identification. The witness said the letters were written in the office of the league, but he was not willing to say that he had dictated or signed them. However, he said, the league would assume responsibility for the letters.

He was asked for copies of the November number of the American Flag—the official publication of the league. Witness said that with the exception of a few that had been sent out all the copies had been destroyed. It was the league that was most severe in its attack on members of congress who oppose ship subsidy, and it was in this number that corruption was charged against representatives.

John B. Winkler, of McHenry, Md., secretary of the league, was asked why he had not been identified in the merchant marine league's official publication. He said he had been identified under the name of John B. Winkler, which had been changed to John B. Winkler, Jr. He said he had been identified in the November number of the American Flag as John B. Winkler, Jr., secretary of the league.
