BOTH ARE RETICENT WAR TO A FINISH

The Chinese Tongs Again on the Warpath.

POLICE TO PRESERVE ORDER

War Has Been Resumed For the Extermination of the Leaders of One Tong by Those of Another—Three Chinese Shot in New York and Four in Philadelphia.

New York, April 11.—A detail of more than 100 police—uniformed and in plain clothes—was sent into Chinatown today as the result of the firing up of the war of the Tongs.

Police learned today from a neutral Chinese who is a power in the quarter, that the fighting has been resumed, in a war for the extermination of the leaders of the Hip Sings and the Suey Sings, waged by the On Leongs.

It is now a matter of honor with the Hip Sings in Philadelphia and the Suey Sings here to equal the number of their dead by slaughtering On Leong members.

The latest dead are, in New York, Chung Fook, shot down at Pearl street and Park Row, and Ing Mon, killed in a gambling den at 15 Doyers street.

In Philadelphia as in New York, the On Leongs were the aggressors. One Chinese was shot dead there in a restaurant.

There was little time lost between his arrival and the beginning of the conference. For a few minutes both men chatted easily on unimportant topics.

FALLS ON AN AUTO WILL BEGIN FRIDAY

Aviator Meets With a Thrilling Accident.

SUSTAINS LIGHT INJURIES

He Loses Control of the Curtiss Biplane and Plunges With Terrific Force to the Earth—Autolists Fortunately Were Not Hurt—Accident Brings Meet to a Close.

Memphis, Tenn., April 10.—Losing control of a Curtiss biplane which he was operating at a height of 75 feet, J. C. Mars plunged downward with terrific speed into the infield of the aviation course here late today.

The accident brought to a close Memphis' first aviation meet in a thrilling manner. Thousands of people followed the aviator in his flight across the mile course.

Its flight was too quick for the occupants of the car to jump and they huddled on the floor of the tonneau.

A few minutes after the accident Mars explained it by saying that his airship was swung around in a gust of wind striking him at right angles and causing him to descend.

Mars' first public flight was made at the Memphis meet and yesterday he carried off the honors by his high flights, skill and daring.

Only short flights were attempted today by Curtiss and Mars, owing to the weather conditions.
