WASHINGTON, N. C., APRIL 26.

Parties leaving town should not fail to let The News follow them daily with the news of Washington fresh and crisp. It will prove a valuable companion, reading to you like a letter from home.

All articles sent to The News for publication must be signed by the writer, otherwise they will not be published.

CIVIL SERVICE. POSTMASTERS.

If the report that Postmaster General Hitchcock is preparing to put all postmasters under the civil service rules be true, all who know that gentleman's character and record will find in the determination a confession that the administration sees and recognizes the fact of impending Democratic success.

As a logical proposition, civil service in the Postoffice Department has much to commend it. It cannot be doubted that much of the unnecessary expense under which the mail service is operated is due to the incompetence among postmasters and department employees selected without consideration for their fitness for the position.

The instrument has been put to several practical tests, the last time being at the band concert in Robinson gymnasium one night recently.

THE PANSY BED.

It should be shaded from the Noonday Sun—Rich Soil Needed. The essential conditions for success with the pansy are a cool, half shaded place and a rich, friable soil.

AT STATE PRISON.

While in Raleigh Tuesday it was our pleasure to be a party which spent a portion of the day with Superintendent J. J. Laughinghouse at the State prison.

MUST KNOW HIM.

When a man of the name appears and trained powers of observation which belong to Senator Lodge deliberately commits himself to the statement that a protective tariff has nothing to do with high prices for the commodities so ensnared against foreign competition, he must know

that he is making a draft on the credulity of the American people which cannot be honored. No one is better aware than this same Mr. Lodge that the only merit which Protection has in the eyes of its beneficiaries is that it gives them the power and the license of law to exact from domestic consumers higher prices for the products of their mills and factories than they could command if our ports were open to foreign producers.

POCAHONTAS IN HALL OF FAME

Indians Presented Petition to New York University Senate.

Much discussion has centered about the probable choice by the New York university senate of the name of Pocahontas in the Hall of Fame.

"We American Indians shall be pleased to know that the future rising generation shall be properly reminded of the parts our aboriginal ancestors took in the history of the American settlement. It is a more proper channel through which the juvenile American shall learn and read of real Americans than through prejudiced books and other sensational wild west literature which have been the cause of racial indigestion.

Pocahontas received ten votes five years ago for a place and by reason of this is in nomination for a place this year.

TO TEST PURITY OF AIR.

Device Invented by Two University Students to Be Used in Buildings.

Two senior mechanical engineers in the University of Kansas at Lawrence, Kan., have perfected an ingenious device determining the purity of air in buildings.

Walter Bohastengel and John D. Garver are the students who invented the tester. The device consists of a brass cylinder with an air tight, graduated piston and a test tube fitted to the cylinder by means of a valve.

ATTRACTIVE LILY BEDS.

Flowers Planted in Shady Place Need Little Attention.

No garden is complete without a bed of lilies of the valley. These fragrant flowers should be planted in a shady place and left there permanently.

and help advertise, and we will increase the population of our town and county, making better business. Join the Chamber of Commerce.

SUBMARINE WITH FINS.

New Vessel That Can Rise or Sink When Not Under Way. British naval authorities the other day examined a new submarine invented by H. Middleton which will sink or rise in the water at will without forward or backward motion.

PALACE FOR HER HORSES.

Mrs. Harriman Planning to Build Costly Stable to Shelter Fifty. Mrs. Mary W. Harriman, widow of E. H. Harriman, carrying out his ideas, is planning one of the most costly and magnificent stables ever erected in New York state.

SEE EUCLID IN SIDIS.

Theosophists Believe Harvard Prefigy Is the Mathematical Reborn. Boston theosophists have decided after much study and meditation that the soul of the mathematician Euclid is reincarnated in William J. Sidis, Harvard's prodigy.

COLLEGE TO EXHIBIT COW.

New York State to Show Farmers Type of Good Breeding. On the farm trials that the New York State College of Agriculture at Ithaca will send in the near future across the state via the Buffalo, Rochester and Pittsburgh railroad will be a lone cow from the dairy department.

WEDDING RING FOR HUBBY.

"An Ounce of Prevention," Says Leader of Pittsburgh Move. Under the leadership of Mrs. Edward Cavanaugh of the north side of Pittsburgh several women high in old Allegheny society, the real society of Greater Pittsburgh, formed a close corporation the other day for the purpose of insuring that their husbands wear a wedding ring for the purpose of keeping them from flirting.

Women's Beauty

Imperfect Digestion Causes Bad Complexion and Dull Eyes. The color in your cheeks won't fade, the brightness in your eyes won't vanish, if you keep your stomach in good condition.

Worse Than Bullets.

Bullets have often caused less suffering to soldiers than the eczema L. W. Harriman, Burlington, Mo., got in the army, and suffered with, forty years.

Last of Old Camel Camp

The recent burning of Camp Verde, to the west of San Antonio, Tex., removes one of the most interesting landmarks in the United States. Camp Verde was built by the federal government in 1857 to serve as a base for camel caravans, by means of which it was hoped to cross the desert into California.
