SOME OUT OF DATE THEORIES.

To Keep Up with Science not at All Easy for the Lay Mind.

To the lay mind it is very disconcerting to see the kaleidoscopic changes that are continually taking place in all branches of science. We have no sooner accepted the nebular hypothesis as one of the ultimate laws of nature than the geologist on the one hand and the mathematician on the other tell us that it will have to be abandoned.

One generation of naturalists delights us by teaching us to believe that every coral island is built from the bottom of the ocean by the accumulated remains of millions of generations of polyps and the next would have us believe that they are merely the caps of oceanic mountains.

For a century the very foundation on which chemistry was built was the doctrine that the mass, the total amount of things in the universe, was unchangeable, but now more chemists doubt it than believe it.

Sixty years ago Adam Smith was thought to have said all but the last word on economics, and his principle of laissez-faire was the holy of holies, but now laissez-faire has been abandoned and only a single one of his laws remains unchallenged.

So it is in all lines, theories of inheritance, of chemical affinity, of disease, of health, of life, of death—all come and go so rapidly that we can scarcely keep pace with the procession. When we look into any specialized phase of a subject the host of ever changing theories simply bewilders any but the extreme specialist.

The interesting part of it is that the man of science is the very one who is not worried by these shifting sands. He is too busy using the various theories to accomplish things. He seems to think no more of discarding one theory for another than he does of taking up a larger test tube or beaker or of adjusting a microscope to a different power.

Remarkable Results of the New Tissue Builder Bloodine. In Many Cases. Prove It Yourself by Buying a Bottle of Bloodine Now.

"By George, I never saw anything like the effects of that new treatment. Bloodine, for the building up of weight and lost nerve force. It acted more like a miracle than a medicine," said a well-known gentleman yesterday in speaking of the revolution that had taken place in his condition. "I began to think that there was nothing on earth that could make me fat. I tried tonics, digestives, heavy eating, diets, milk, beer and almost everything else you could think of, but without result."

Any man or woman who is thin can recover normal weight by the remarkable new treatment Bloodine. "I have been thin for years and began to think it was natural for me to be that way. Finally I read about the remarkable processes brought about by the use of Bloodine, so I decided to try it myself. Well, when I look at myself in the mirror now, I think it is somebody else. I have put on just forty pounds during the last forty days, and never felt stronger or more 'nervy' in my life."

Bloodine is a powerful inducer to nutrition. Increases cell-growth, makes perfect the assimilation of food, increases the number of blood-corpuses and as a necessary result builds up muscles, and solid healthy flesh, and rounds out the figure.

For women who can never appear stylish in anything they wear because of their thinness this remarkable treatment may prove a revelation. It is a beauty maker as well as a form builder and nerve strengthener. Bloodine costs 50 cents for the usual \$1.00 size bottles. Mail orders filled by the Bloodine Corporation, Boston, Mass.

More Useful.

The president of an ocean steamship company was taking a journey across the water. When the ship was in a dangerous channel he became engaged in conversation with the pilot, an elderly man, who had spent most of his life on the water. The president of the company remarked, "I suppose you know all about the dangerous places in this channel?"

"None," replied the pilot. "You don't!" exclaimed the president. "Then why are you in charge of the wheel?"

"Because I know where the bad places ain't."

Kissing the Book.

In England and all the English speaking countries the kissing of the book before the oath comes from the practice of touching a "hildams," or sacred object, as the old Roman touched the altar or Harold the casket of relics. The form, "So help me God," is inherited from ancient Teutonic-Scandinavian law, under which the old Northmen, touching the blood-daubed ring on the altar, swore, "So help me Frey, and Niord, and the Almighty God" (that is, Thor). The first and last of these are the two old English gods, whose names we keep up in Friday and Thursday.

Easy to Have Lovely Hair

Parisian Sage is the greatest dandruff cure and hair dressing in the world. It is not sticky or greasy, and is used by women of taste and refinement, who desire fascinating and luxuriant hair that will compet admirably.

Quality and Quantity

There is a wonderful machine in use near you. If you have not seen it at work in your own grocery or market, ask your neighbor if it is in his. You will soon hear about it.

Works well upon any kind of meat, such as bacon, dried beef, cooked pork loins, boiled tongue, sausages, etc.

By trading at a place where the American Slicing Machine is used, you may know that you are trading where the greatest quantities of such meats are sold and the stocks are fresh.

You will understand more fully the reasons for buying machine-sliced meats and for trading where the American Slicing Machine is in use, after once trying some of the meats sliced upon it.

It is guaranteed to banish dandruff, stop falling hair and itching scalp in two weeks or money back. The girl with the Auburn hair in every package. Large bottle only 50 cents, at drugstore everywhere, and at Brown's Drug Store. Mail orders filled by the American Mfg. Co., Buffalo, N. Y. Mrs. Wm. Stafford, Box 434, Chicago, Wis., writes on Nov. 1, 1909: "This last summer I had a great deal of trouble with my hair. It began to fall out, and I tried various remedies, but none helped me. I was beginning to become alarmed, for I was nearly bald. One morning I noticed 'Parisian Sage' advertised, so I bought a bottle. The effect on my hair was astonishing. The natural color was restored and I now have a fine head of hair. I recommend 'Parisian Sage' to everyone. It is wonderful!" Mrs. George Stork, 48 N. 5th St., La Fayette, Ind., on Nov. 1, 1909, writes: "I used your hair grower 'Parisian Sage,' and was pleased with it. It is a scalp cleaner and hair grower."
