

CELEBRATION OF FOURTH OF JULY

Five Motor Boat Races—The Red Wing Will Race Against Time—The Day to Be Fittingly Observed.

Monday will witness the greatest display of motor boats ever seen on Pamlico river. The motorboat club of this city will have five races in classes A, B, C, D and E. There will be five boats in each class. The Kathleen, the oldest boat in the club, owned by Capt. C. M. Brown, Jr., will be one of the contestants. The Corn, one of the fastest boats in the harbor, owned by Capt. W. F. Harrell, will have worthy competitors. The Red Wing, owned by Capt. D. Hill, Jr., and the fastest boat in North Carolina, will race against time.

AT BEVERLY TO CLOSE STORES

President Roosevelt has been Capital Washington, June 29.—Arrangements for transferring the executive offices from Washington to Beverly were practically completed today. Several shipments of papers and furniture were made. A large quantity of office fixtures were left in storage at Beverly last fall. The President left for the summer capital late yesterday morning, reaching Beverly about 3 o'clock. A large part of the White House office force will go with him.

POLICE COURT

Carnival Men in Trouble Over Nevada Wholesale Agents. State vs. J. H. Hild, defendant in one of his associates. Grand jury and costs total \$7.15. State vs. T. O. Hester, carrying concealed weapon. Dismissed. Yesterday afternoon seven of the men connected with the carnival were notified to appear before the Mayor this morning at 10 o'clock to answer to the charge of being drunk and disorderly in the public places. They failed to show up at the appointed hour this morning, and the police were dispatched to the carnival grounds. They arrested seven men who are now residing in the city, awaiting trial at 10 o'clock this afternoon.

DEED YESTERDAY. James Gordon Carter, the thirteen months old child of Mr. and Mrs. D. M. Carter, passed away yesterday afternoon. He was taken very suddenly with congestion of the lungs and lived only two hours after being stricken. It was quite a shock to his family. James Gordon had just reached the age when childhood is the brightest and most cheerful. He had brightened this home for only a short time but his presence will be forever missed. He was the pride of the family as well as of friends. The funeral took place this afternoon at 4 o'clock. The services were held at the home by Rev. M. T. Pyle. The remains were interred in Oakdale cemetery. The following were pallbearers: Robert Fowle, David Fowle, Lindsay Warren and Henry Moore.

IT'S A MOHAIR SUIT

—and it is "Cravenetted"—that's why he's smiling—a little water will not hurt it. It's sort of foolish to get wet—wetting all through the hot months a worrying and fretting and blaming the sun for shining, because right at hand is the remedy: We have just received a shipment of "Cravenetted" Mohair Coats and Pants—the lightest, the coolest outer garment ever designed for man—as fine a selection as the county offers—beautiful shades and patterns—carefully tailored, shape conforming and waterproofed. Come in today—try on a suit. See for yourself it's lightness, coolness and comfort. You'll wonder how you've done without one these many years.

James E. Clark Co.
"THE HIGHEST ART CLOTHIERS"

DOGWOOD AND PERSIMMON

Used to Make Shuttles—750,000 Feet Used Annually in North Carolina.

Don John H. Small, House of Representatives, Washington, D. C. Dear Sir: Your letter of June 18, addressed to the Forester, has been referred to this office for reply. Available data on the production of shuttles in North Carolina include statistics on species, habitats, seasons, and picker sticks, though these articles are not all made in the same factories. Dogwood and persimmon are used almost exclusively in the manufacture of shuttles, because of the physical properties of the woods which, when made into shuttles, wear smooth and do not splinter. Dogwood is cut chiefly in Tennessee and North Carolina, while persimmon is cut largely in Arkansas, Louisiana and Alabama. Approximately 500,000 feet B. M. of dogwood, and 150,000 feet B. M. of persimmon are used annually in the factories in North Carolina. The average cost of a B. M. factory of dogwood averages \$14.75, and the average cost of persimmon \$20 a thousand feet. The raw material is purchased by the factory in the form of logs, bolts, billets and sawed squares.

The future of the business is undoubtedly assured and will probably increase in volume with the continuous addition to the number of spinning mills, particularly in the South. Of course there must exist always the possibility of improvements in spinning, but it does not appear probable that the shuttle method will be displaced. The demand for shuttle block and shuttles varies with the prosperity in the spinning industry though undoubtedly with good selling connections established before engaging in the business no serious interruptions to the demand should be encountered.

OPERATION PERFORMED

Mr. Ed Matthews Successfully Operated On For Appendicitis—Patient Doing Well.

On Tuesday Mr. Ed Matthews was taken to the Fowle Memorial Hospital, suffering from an attack of appendicitis. He was operated on by Dr. J. L. Nicholson and is doing well. The operation was a success, and unusual complications set in he will be out in a short time.

REFLECTIONS OF A BACHELOR

The Unruling of the Utes, a spectacular Indian war drama, depicting an uprising of the Utes and their attempt to drive the whites from their hunting grounds. Retreating to a block house the settlers with their women and children were rescued by a brilliant charge of Uncle Sam's cavalry who arrive just in the nick of time to wipe out the entire band of marauding Indians and save the defenders of the block house. Other pictures to be shown are: Wandering Willie's April Fool Day, a good comedy. The Troubadour, a romantic drama. Before and After, comedy. The Saraband Dance, Gemmont hand-colored dramatic film.

WASHINGTON WINS

Both Sides Did "Some Hitting" the Colonial Score of 16 to 13 Being the Result of Their Endeavors. All lovers of the old time fashion of playing baseball, the kind when there was lots of runs made by both sides, should have been at Fleming Park yesterday, and they would certainly have had their fondest wish gratified. The second game between Washington and New Bern was played yesterday and from the beginning until the final and it was one continuous war of attrition. It would be hard to say in whose favor the hit count up, but as Washington accumulated the most runs we will give it to them. Besides lots of hits there was an abundance of errors—by both sides.

STATEMENT DESIRED

The Street Commissioner says the report of his not furnishing cars to remove the dirt being excavated is not true. The News asks the Commissioner to furnish a detailed statement of the number of cars he has used each day since Monday, June 20. Back up your statement with facts and figures, the people want to know.

LARGE CABBAGE

Beaufort County Soil Will Grow Them Equal to Any Place. Master Marvin Hodges this morning presented the editor of the News with a cabbage which tipped the scales at 15 pounds. Can any one in Beaufort county beat it?

AIRSHIP WRECKED

Splendid Passenger Liner Could Not Survive Storm.

THE PASSENGERS IN AGONY. Thirty-three Passengers Aboard Escape After Exciting Experience With Storm—On Excursion When Caught by the Wind—Fell in Big Forest and Pierced by Tree Stems.

Düsseldorf, Germany, June 28.—Count Zeppelin's passenger airship Deutschland, the highest developed of all the famous aeronauf's models, flew tonight on top of the Teutoburg forest, pierced with pine tree stems, a mass of defoliated alk and twisted aluminum. The thirty-three passengers aboard after a wild contest with a storm, escaped unhurt, climbing down a rope ladder from the wreck at the pine tops. Herr Coleman, general manager of the airship company, Chief Engineer, and Captain Kasper, who personally had charge of the rescue of the passengers, were among the first to descend from the wreck at the pine tops. The morning air was very calm and the airship was in perfect condition. The airship was driven at full power, with which, under normal conditions, the ship was capable of attaining a speed of forty miles an hour. But the helmsman was unable to keep his course, and the great craft was swung about at the mercy of the winds.

Caught in Heavy Gale. It was dangerous to attempt a landing in an open field because of the storm the airship was likely to be blown to pieces. In the high wind one of the motors refused to work and the other two were not powerful enough to make any progress in the gale.

The airship drifted, swaying in the violent gusts, and sometimes landing to an angle of forty degrees, and all the while the passengers were at work repairing the damaged motor. When this was done all four screws were driven at full power, with which, under normal conditions, the ship was capable of attaining a speed of forty miles an hour. But the helmsman was unable to keep his course, and the great craft was swung about at the mercy of the winds.

FOR CLEAN SWEEP

Mr. Wolfenden Says Remove All Old County Officers. Others Existed to Recognition. Mr. Editor: I noticed in your Saturday issue Mr. E. M. Nixon had announced himself as a candidate for County Treasurer. This is a good move in the right direction. Mr. Nixon is a good man and will make a good officer. Besides I like his way of putting things. No man should remain in the higher offices of the county longer than two terms. When a man remains in office longer he begins to feel all important and becomes envious and would be dictatorial in his general manner. It seems to forget the other fellow is footing the bills, and if you can't come my way you must get down and stay out. Kinder bordering on trust and bossism. Another suggestion I like to make. It is a well known fact that the Democratic party in this county has become restless. They are not pleased with the management of our county affairs, both politically and financially. Our different offices are not distributed in a fair and just manner. It has always seemed right and just to me that each section of our county should come in for its full share of the high offices. Namely, give Washington at this time Treasurer and Clerk of Court. North side, Belhaven section, Register or Sheriff, south side, Richland township, either as they see fit, Register or Sheriff. Let the townships mentioned pick out some good men. (There are plenty of good men in each township—good and loyal men.) Then ask the other townships to stand with them. Its undemocratic to keep one man in office too long. Make a clean sweep of the present county officers and give us new men of executive and financial ability to be at the head of our county affairs. Respectfully, FRED WOLFENDEN.

COMPARES RECORDS

Both Says Graham Should Be Corporation Commissioner—The West Will Be Represented by H. C. Brown. Oxford, N. C., June 27, 1910. Mr. Editor:—Replying further to the criticisms of Judge Graham by friends of Mr. Lee who seem to base their candidate's claim entirely upon geographical lines, I think I have satisfied all reasonable men that the West would be well represented on the Corporation Commission in the person of Mr. H. C. Brown, of Surry county. Now as to capacity as a public servant, and especially as a Legislator, we would be glad for Mr. Lee's friends to explain his position on several public questions. First, I see from the files of the News and Observer, March 5 and 6, 1909, that the bill to establish inspection of oil in this State, and prevent imposition of adulterated oils, upon our people, was introduced by Hon. R. L. Doughton, of Alleghany, and strenuously opposed by Mr. W. T. Lee, of Haywood, both before the Committee and on the floor of the house. He said, among other things, it would be of no practical benefit, but would breed a horde of office holders, appointed by one man, who would unduly pry into the business of the merchants, would cripple or drive out all the independent companies and raise the price of oil to the consumer. The attorneys for the independent companies, Representative Lee, and Mr. J. H. Poir, attorney for the Standard Oil Company, all oppose the bill, but Judge Graham and fifty-nine other Democrats voted for the bill, while Mr. Lee and fourteen other Democrats and sixteen Republicans voted against it.

What has been the result? Only ten inspectors have been appointed, one from each congressional district, by the member of the Board of Agriculture from that district, the quality of oil has vastly improved, the price of oil has decreased 1-1/2 cents per gallon; the number of independent oil companies in the State has increased from four to fifteen; and the State has received in eleven months, since the law went into operation, \$22,500 over and above all expenses of executing the law, as will be shown by the books in the office of Hon. B. R. Lacy, State Treasurer. Judge Graham voted Aye, Mr. Lee voted No. This will give the people some idea of the point of view from which the two candidates view the responsibility of the corporations to the people and the right of the State to exercise supervision over them. More anon. H. D. BOOTH.

COOK CASE IN GERMAN COURT

Frankie, Who Was Associated With Cook, Is Now Asking for Damages.

Berlin, June 29.—The charges concerning the disposition of Arctic trophies left by him at Etah, which Dr. Frederick A. Cook made against Commander Robert E. Peary during the heights of the controversy over their claims of the discovery of the North pole, were today aired in a German court when the suit instituted against Peary by Rudolph Frank, who was associated with Cook, is now asking for damages.

WHITE MAN ARRESTED FOR MURDER OF A NEGRO

Memphis, June 29.—K. C. Medlin, alias John D. Davis, white, was arrested here this evening charged with the murder of Henry Crossland, a negro, near McCall, S. C., last April. Chief Loney discovered the identity of Medlin from letters the man had dropped in the street addressed to John D. Davis. They were from a woman begging him not to return to McCall. Medlin confessed the killing but claims self-defense.

A Rare Opportunity Now Knocking at Your Door

There is a rare opportunity knocking at your door. The people of Washington had the opportunity to hear such a brilliant speaker as he has for them at this time. They now have some of the finest and best instruments on display that have been able to turn out by the Victor victrola. The Victor victrola, the greatest singer in the world, was exclusively for the Victor, and as an illustration as to what the Victor is doing in the way of high-class music, they paid \$100,000 last year in royalties on 19 of his records, \$25,000 to any nothing of paying him in addition to this for making the original records.

The Victor victrola having the most extensive song instrument made, the fact is so perfect that it is often taken for the human voice, they have the following records: Famous artists to sing for them exclusively: Abbott, Albani, Ancona, Arral, Backhaus, Battistini, Blass, Bonisagna, Calvo, Campanari, Caruso, Eames, Farrar, Gilbert, Homer, Journett, Melba, Patti, Schumann-Heink, Scotti, Sembrich, Vanhoose, Vanroy and Evans Williams.

4TH OF JULY NOTICE TO THE PUBLIC

The ordinance forbidding the shooting of guns, cannon crackers, roman candles and other explosives, will be enforced. C. H. STERLING, Mayor.

Decision Circulated in Nicaragua to Get U. S. to Step in.

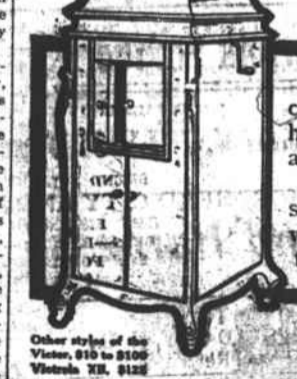

MADRIZ IS IN CONTROL. Representative Receives a Message Stating That the Revolutionists Are Not Victorious—Safety of Americans Guaranteed.

Washington, June 29.—Interest in the Nicaraguan situation came to the fore again today when United States Consul McCall, at Managua, told the State Department that a petition with seven hundred signatures had been presented to General Estrada, asking that the United States intervene. The suggestion that the United States intervene is taken as a counter move to effect the undesirable impression likely to result from the refusal of General Estrada to accept the proposal of the Carazo court of justice to have the warfare ended by mediation. Senator Cordon, representative of the Madriz government in this city, today received two dispatches from Managua, one denying many of the reported victories of the Estrada forces and the other telling of the anti-American manifestations and the determination of this government to keep them from resulting in harm to Americans in Nicaragua. The first telegram when translated read: "It is false that the revolutionists are in control. Chontales, Acosagua, San Baldo in our power. Revolutionists near Acosagua, in a very reduced number and with few supplies. Will soon be defeated in same way that a revolutionary band which appeared at Managua was destroyed at Managua with death of the chief, Polanco. The entire country, including the Atlantic coast, has submitted to the government authority with the exception of Bluefields and Rama." The second read: "The government has given orders to stop the anti-American manifestations and has made more vigorous the bureau of the press in this particular. The government guarantees complete safety to all American citizens. You will all to mind the names of Fowler, Cannon and Pittman."
