

WRITER INTIMATES NO CHANGE FOR HIM

Mr. L. H. Adams, of Blount's Creek, Desires the Re-nomination of the Present Sheriff, Register of Deeds and County Treasurer

To the Democratic Voters of Beaufort County: I wish I had the gift of pen, backed by a good education, to convey to every Democratic voter in Beaufort County my idea of what should be done in the coming primaries. Being a plain farmer, with very limited book-learning, my effort may be a failure. Nevertheless, I shall make the attempt.

I have read the different articles written by friends of the several candidates and published in both of the Washington papers, and fall utterly to see anything in any one of them that would change the mind of a single Democratic voter. No charge of incompetency, no neglect of duty, no dishonesty, no lack of politeness on the part of any of our County officials. Then doesn't it simply smother down to this—"The outa want to get in?"

Gilbert Rumley, our Register of Deeds, one of the very best, politest and most accommodating officers that ever lived, saves the folks in the country hundreds of dollars each year searching their titles free of charge, where the lawyers would get fees from five to twenty dollars a piece from us. How can we go against him? I can't see no reason why anyone should be against him except the lawyers, and these are not, because he is so accommodating.

Next comes our Sheriff, Geo. E. Hicks. Well, I admit he collects the taxes; but what did we put him there for? To do just what he is doing; to attend to the duties of the office and treat everybody the same, and that is what some are complaining at. He plays no favorites. Geo. Hicks has had hard luck since he left

STORE ROBBED.

Grocery on Market Street Entered Either Saturday or Sunday Night and Goods Stolen.

The grocery store of Mr. R. H. Hudson, located in the Rodman building on Market Street, was entered either Saturday or Sunday night. An entrance was made by breaking the glass in one of the rear windows. Mr. Hudson has missed about \$25 from the store and goods to the amount of \$100. There is no clue as to who the parties. The police are now at work on the case.

THE CLIMATE OF WASHINGTON.

The climate of Washington, North Carolina, is salubrious. With our latitude and proximity to immense bodies of water it cannot be otherwise.

Come with us in a journey around the world. Step aboard on our latitude 35 5-15 and travel due East across our country bordering on the great Pamlico Sound, and on across that great body of water and narrow strip of land into the Atlantic Ocean, striking through the Straits of Gibraltar, across northern Africa, then across the Mediterranean Sea; just South of Greece, on across the northern part of the Candia Islands again into the Mediterranean. Within these sections thousands of people from all over the world yearly visit to avoid the extreme heat or cold at their homes. Bear in mind, it is the latitude of Washington, North Carolina. We then travel through the center of the Turkish Empire's bright tobacco belt, famed for its quality through Afghanistan, across the northern part of Hindustan, across the northern part of Persia, and through the Providence of Tibet in China, across the great China tea-growing plains into the Yellow Sea, across the southern part of Korea into the Sea of Japan, through the Island of Japan, renowned for its delightful climate; then across the Pacific ocean, landing us in California, midway between Los Angeles and San Francisco across California into San Francisco and through its capital, San Francisco, on through the northern part of Texas—the Pan-handle—through the center of Oklahoma, into the northern part of Arkansas, through the southern part of Tennessee, into North Carolina, striking through the city of Asheville, and on, back into the delightful city of Washington, North Carolina.

During this trip you make inquiries to find the climate to be

greatly controlled by the location of large bodies of water. Wherever larger bodies of water are found, the summers are cooler, the winters milder. The further you leave the large body of water the more intense the heat of summer, or the more severe the cold in winter. Take for instance the blizzards in north Texas, Oklahoma and New Mexico which cause untold suffering, yet in summer the heat is so intense it sometimes scorches up the crops. Millions of inland dwellers throughout the United States, some in far more northern latitudes than ours, judge our summer by theirs. Theirs are intensely hot and they imagine ours, so far south, will roast them alive, while as a fact, the summer heat at Washington, North Carolina, held in check by our proximity to immense bodies of water, make our summers far more agreeable than theirs. When more people learn this they will hasten to settle among us. As to our mild winters, fields of strawberries often bloom in February, in fact, in the severe winter of 1910 fields of strawberries around Washington, North Carolina, were in bloom the fourth day of March and no freeze or frost damaged them later. Besides an ideal climate, our lands are extremely productive and grow a great variety of fruits and vegetables. Excepting tropical products, we profitably grow anything grown in the United States. Our healthfulness is far above the average throughout the United States. For any information whatever, write the Washington, North Carolina, Chamber of Commerce.

REPUBLICAN PRIMARIES.

The Republican primaries for the first, second, third and fourth Wards of Washington, North Carolina, are hereby called to meet jointly at the Courthouse, Tuesday night, July 26th, 1910, at 8:30 o'clock for the purpose of electing delegates to the County Convention to be held July 28th.

All white voters who are in favor of local self-government, a free ballot and a fair count are invited to be with us.

By order of the Precinct Executive Committee.

T. E. CUTLER, Ch'm. First Ward.

W. M. POWERS, Ch'm. Third Ward.

C. T. BUCKMAN, Ch'm. 4th Ward.

Washington, N. C., July 19, '10.

PRAYER MEETING.

There will be prayer meeting services in all the different churches of the city this evening at the usual hour, to which the general public is cordially invited.

A SAD DEATH

Mrs. M. T. McDonald Died at Her Residence This Morning.

Another one of Washington's honored citizens entered that narrow vale which divides two existences this morning, in the person of Mrs. Mary Tripp McDonald, wife of the late John T. McDonald, M. D. Since the announcement was made of the death of this good woman a pall of sadness has hung over the entire community. Thus one by one the landmarks are falling by the wayside. In the morning we grow up and flourish, but in the evening we are cut off and wither.

Mrs. McDonald returned from Baltimore, where she spent the winter, about one month ago. Since her return she has been confined to her home slightly indisposed. It was only during the past few days she became worse. When the end came she was surrounded by friends and loved ones—friends of her youth's bright morning-friends too, that shared with her life's sorrows and joys in her afternoon. She passed out as she had lived, true to her friends, true to her family, true to her God.

Mrs. McDonald was the daughter of the late Henry A. Ellison and Eliza Tripp Ellison. She first beheld God's handwork on October 10, 1844. Being in her sixtieth year when the angel of her Maker hovered at her portal and she was summoned for the battlements of Heaven. In 1885 she was happily wedded to Dr. John T. McDonald, of sacred memory. In the home she was the true helpmeet and did what she could towards making the fireside one of bliss and contentment. For those she loved no undertaking was too burdensome, no task hard or irksome; for others she lived. She was noted for her charity, both in church and State and how that she has fallen on sleep many a heart bleeds her going. Her record is on high and her witnesses are in Heaven.

Mrs. McDonald leaves two sisters surviving, Mrs. J. C. Thomas, of Mobile, Alabama, and Mrs. George H. Brown, of this city besides several nieces and nephews.

The funeral will take place tomorrow afternoon at 5 o'clock from St. Peter's Episcopal Church, conducted by the Rector, Rev. Nathaniel Harding. The interment will be in Oakdale cemetery.

WASHINGTON'S POPULATION.

Quite a number of our citizens, those who claim to be good at prophecy, are now busily engaged in guessing the correct number of inhabitants there are in Washington. Some say the city will show a population of 10,000; some dispute this and claim the city will only show about 8,000, but the most conservative citizens only claim 5,000. No one will know however until Uncle Sam takes it into his head to give the secret out. The Daily News believes some folks will be disappointed when the correct figures are known.

A CORRECTION

People of Richland Don't Desire a New County.

Mr. Editor: Having learned that some one is circulating a report in certain sections of this county, to the effect that the motive behind the candidacy of Mr. W. A. Thompson is in the interest of a new county movement, and believing in a square deal to all, we desire space to say that any such statement is without foundation and false and we believe in making him in sections of the county where he is not so well known. The people of this township do not want a new county as the improved transportation has eliminated the need. We take pleasure offering him to the people of this country and if elected, we know that every section and intercity of old Beaufort County will be protected and if any man or men think to the contrary, then they do not know Will Thompson as we have known him.

Practically his life has been spent in this community, was raised on a farm two miles south of Aurora, and is a leader among our younger business men, being considerably interested in farming, an officer of the Bank of Aurora, founder of the Aurora Hardware Co., Vice President of the Standard Lumber Co., and a young lawyer of ability who enjoys perhaps the largest practice, considering his time of practice, of any lawyer in the county and last, he is a sterling Democrat, and was born just 34 years ago while his father was in the General Assembly fighting the battles of the good citizens of Beaufort County.

GAS WORKS BURNED

Explosion and Fire Destroys the Zeppelin Airship Plant.

SEVERAL BADLY HURT

The Shock Was Terrible, Blowing Out the Walls of the Building and Hazing Nearby Cottages.—The Explosion Was Heard for Miles. Crowds Flock to the Scene.

Friedrichshafen, Germany, July 19.—The ill-fate that is following Count Zeppelin was exhibited again today when the gas works of his airship plant here blew up, injuring seven persons. The shock was terrific, blowing out the walls of the building, raising nearby cottages, and, it is feared, seriously damaging dirigibles in the hanger.

The explosion occurred about noon, the gasometer blowing up. A flame shot to a height of more than a hundred feet, setting fire to the debris. For a time the hanger on the lake appeared doomed.

The report aroused the country for miles about, crowds flocking to the scene. Physicians were summoned and a field hospital was constructed with the aid of the officers of the plant whose emergency hospital equipment was taxed to the limit.

Besides the seven seriously hurt, fully a score of the employees were cut or sustained other unimportant injuries.

Coming on top of the recent wreck of the biggest dirigible constructed by the Count, after it had made an epoch-making flight, today's disaster appeared to unnerve him greatly. The plant was needed for the reconstruction of the wrecked ship. The loss is probably \$250,000.

HOME WEDDING.

One of Washington's Popular Young Ladies Married This Morning at Her Home.

Miss Leslie Elliott, daughter of Mr. and Mrs. George H. Elliott, was married this morning at 7 o'clock, at her home on East Main Street, to Mr. P. H. Harrington, of Fairmont, N. C. The ceremony was performed by Rev. Robert Hope, pastor of the Christian Church, in the presence of a few friends. Immediately after the nuptials the bride and groom left on the Atlantic Coast Line for Virginia Beach, where they will spend their honeymoon before going to their future home in Fairmont.

The bride wore a handsome champagne coat suit with hat to match. The bride is one of Washington's popular and attractive young ladies. Her many friends wish her every happiness. The groom is in the employ of the Beaufort County Lumber Company and has a bright and promising future. The Daily News extends best wishes.

A man is apt to have a dear wife—either to his heart or his pocketbook. When a man takes his wife to a pathetic part, he always tries to look helpless and unconcerned.—Chicago News.

AT THE GEM.

—3 REELS—

Another fine programme is promised the Gem patrons tonight.

One of the finest: A big Vitagraph story of a big policeman with a big heart, a member of the New York force, who performs a kind service and is liberally rewarded therefor. It is one of those stories that appeals directly to the heart, and develops and holds the interest of the audience from beginning to end, filled with dramatic situations, of which the players have taken full advantage. The film will excite interest in anyone who has a spark of humanity and sympathy left in him.

The Cowboy and the Squaw. A Western picture containing something of the spirit of the plains and showing a rattling good chase across country by the cowboys who are after a squaw that killed one white man to save another. The wild riding is interesting and scenic effects well worked out.

His Revenge is a melodrama which carries one through many interesting and thrilling vicissitudes. The photography and acting are in harmony with the subject.

A Push Cart Race. A bit of comedy which will create a storm of laughter. Remember Friday night a beautiful pounds brass jardaniel will be given away. Get your coupons nightly.

BUSINESS PURCHASED.

Mr. William R. Bright has purchased the meat business of his brother, Mr. H. R. Bright, at the City Market, and will continue same at the present stand.

WEEKLY DANCE.

The Country Club will give their weekly dance at the club tomorrow night.

INDISPOSED.

The Daily News regrets to chronicle the slight indisposition of Mrs. W. J. Rhodes at her home on West Second Street.

It is said that men who whistle seldom swear; it is the busy people who are compelled to listen that say unprintable things.

WANTS PLUM AGAIN

Speaker Cannon to be Candidate for His Old Office.

HE DEFIES INSURGENTS.

The Democrats Are Jubilant Over the Announcement of Uncle Joe—He Has Mapped Out the Hardest Political Task He Ever Attempted, Says the Wise Acres.

Washington, July 19.—Speaker Joseph G. Cannon has mapped out the hardest political task he ever attempted in his life, in declaring that he would be a candidate for the Speakership when the House again convenes, according to the political wires from Washington. His defiance of the insurgents and announcement of his future candidacy in his address at Emporia, Kas., has attracted widespread attention.

In view of the fact that even reactionary Republicans were begging Cannon to relinquish his hold on the chair before the close of the last session, according to the most accepted opinion here there can be nothing but opposition to his attempting to hold the speakership. President Taft's friends will oppose him, to strengthen the position of the President before the people. Theodore Roosevelt will undoubtedly throw his influence against the speaker. The insurgents left Washington with the avowed intention of planning a harder fight against him than any since they first took up the cudgels to oust him.

Cannon has his back to the wall and is fighting now out of obstinacy, if the radical viewpoint is correct. Even his friends take the latest announcement with bad grace.

There is only one faction that rejoices and that is the Democratic group here. Cannon's pronouncement to them look upon as campaign material and plans are already under way to make the most of it in the hot campaign expected this fall.

CORONATION OF KING GEORGE.

London, July 19.—King George today signed a proclamation fixing the coronation for an unspecified date in June, 1911. It has been announced semi-officially that the ceremony will occur on June 22 next.

MARRIAGE AT BELHAVEN.

Mr. J. W. Coburn and Miss Sallie Davis, both of Belhaven, were happily married in that town this morning. The bride is a daughter of Mrs. Nancy Davis and a most estimable and popular young lady. Mr. Coburn is employed by the Roper Lumber Company as machinist. The Daily News extends congratulations and best wishes.

A man is apt to have a dear wife—either to his heart or his pocketbook. When a man takes his wife to a pathetic part, he always tries to look helpless and unconcerned.—Chicago News.

JEWES ARE EXPELLED

Six Thousand Have Been Ordered to Leave Kief.

PHYSICAL FORCE USED

The Actual Number of Expulsions is 6,652—They Are Sent in Groups to Their Destination Escorted by Relays of Troops. All Occurred Within Past 60 Days.

Kief, July 19.—Six thousand Jews have been expelled from Kief and its suburbs in the last 60 days, according to an official statement.

Four hundred and ninety-seven were driven by force from Kief between July 4 and July 15, and in that same time 1,121 were warned to depart. The warning is known officially as the "first method," while physical force is termed the "second" method.

From Solomenka, in the same days, 165 were expelled and 151 from Dem-Jacka, both of which are suburbs. Of those driven from Kief 3,011 were expelled by force.

The actual number of expulsions is 6,652, but it is estimated that more than 600 are duplications, caused by the return of those sent away by "first method." The Jews are sent in groups to their destination, escorted by relays of troops.

Of the 17,317 applications for residence papers here made since the expulsion order was issued, 2,152 were found fraudulent according to the government.

We are still hearing words of praise for that beautiful picture, "After Many Years." It seems to have touched a responsive chord in the hearts of all who saw it last night.

Tonight at the Gaiety will be shown one of the best and most entertaining programs we have shown in Washington. Very few of the manufacturers have tried to depict the Japanese life in Moving Pictures, and it was the Vitagraph people who have at last succeeded in giving us a beautiful picture of the land of the Chrysanthemums with its wealth of beautiful scenery and quaint customs. The story of "The Love of Chrysanthemum" was taken from the famous book by John Luther Long and as a master piece.

"Away Out West" is another very fine picture, showing as it does, the life in our own far West. This picture is replete with life and ways of the Western people and is very fine, both in action and photography.

We also have other good ones tonight. Also illustrated song and then new music, making our program one of the best we have yet shown here.

Remember that you see all the new pictures first at the Gaiety.

The Gaiety promises another Blo-graph tomorrow.

People as a rule have only words of praise for the dead. Their words of censure are exhausted on the living.

COTTON PICKER

Will do the Work of Forty Hand Cotton Pickers.

IS THOROUGHLY TESTED

Only the Ripe Cotton is Picked and This is Accomplished Without Injury to the Green Cotton or Flowers.—The Successful Picker Has at Last Arrived.

Washington, July 19.—Patents were issued to Crawford Elliott, a book type writer, for a picker or harvester which

has perfected as the result of nearly seven years of constant effort. The basic patent granted covers forty different claims. The machine has been tested for two years in the cotton fields, and with it one man and a team of mules will do the work of forty hand pickers. Only the ripe cotton is picked, and this is done without injury to the green cotton or the flowers. The successful cotton picker has at last arrived and will enable the planters to greatly increase the present acreage under cultivation.

The principle of the machine is a double row of bristle brushes about one and one-half inches in diameter and fourteen inches long, spanning rapidly in such a manner that the revolving brushes are introduced into the plants close to the ground and drawn up in a vertical line through the plants, the brushes penetrating the bushes from both sides of the row. The ripe cotton adheres to the brushes while the rest of the plant is not in any way affected, the brushes traveling to a receptacle where they are stripped of the cotton and the operation is repeated.

It has been thoroughly tested and demonstrated that it will do the work at a quarter of the cost of hand labor, which means a saving of \$150,000,000 a year to the cotton growers.

FOR THE LEGISLATURE.

To the Democrats of Beaufort County.

Greetings: It is very gratifying to me to know that so many of my friends are anxious that I would stand for re-election to the Legislature of North Carolina. I extend to you my heartiest appreciation for the favors and honor already conferred and I now adopt the medium of the press through which to say to you that if my services in the General Assembly of North Carolina, Session 1909, meet your approval, and if you believe that fidelity and devotion to duty will be maintained and you desire that I should be one of your representatives in the coming 1911 session, then you may have the privilege of presenting my name for that purpose, before the several Democratic primaries to be held in our county, 5th and 6th of August. And in the meantime I desire to remain faithfully the same, J. F. LATHAM.

Jessama, N. C.

SPECIAL.

Regular 75c. umbrellas for 25c. On sale Saturday at The Variety Store.
