WEDNESDAY, AUGUST 3, 1910.

Parties leaving town should not fail to let the News follow them daily with the news of Washington fresh and crisp. It will prove a valuable companion, reading to you like a letter from home.

All articles sent to The News for publication must be signed by the writer, otherwise they will not be published.

WITH THE SHARP-SHOOTERS.

Representative Murdock is implacable. He has dug into Speaker Cannon's political past and finds hot weather enjoyment in telling of all the unpleasant things he found there.

As we understand it down here in Texas, Mr. Taft plays golf in the morning and goes yachting in the afternoon. And yet he is on record as having said he wanted only one presidential term.

Senator Aldrich wants to know "who are the people?" He has lived so long under the wings of protected interests that he can't see the people for the trusts.

It is all right to publish the fact that Theodore Roosevelt has gone back to work, but we hope that the Los Angeles correspondents are in error in announcing that his honeymoon is over.

Since the gold imports have failed to prevent the stock market from sinking, cork life-preservers, where there is so much water, might be better to help keep it afloat.

Although suffering from a sprained ankle, it is reported that Mr. Taft will continue his cruise. If he were to lose his legs it may be doubted if it would prevent the president from traveling.

The Boston Herald exaggerates when it says no one can ignore the charge of Senator Bristow that Senator Aldrich was financially interested in the rubber schedule.

After all the bobble skirt may be a good thing so long as women are the slaves of fashion they will not become the masters of men.

A STORY FOR MEN.

Mrs. Schoff's husband at a meeting of a mothers' club in Philadelphia, talked of the training of children.

"Just as smallpox and yellow fever are quite rare diseases," she said, "so will children be rare when proper attention is given to the cause of badness."

"Men," she went on, "will not take any part in correcting or training children, though when the children turn out well they are willing enough to take the credit."

"They remind me in this," said Mrs. Schoff, of a certain landlord. He called on a certain tenant one day and said:

"Jones, I'm going to raise you rent."

"What for?" Jones asked anxiously. "Have your taxes gone up?"

"No, not at all, landlord answered, but I see you've painted the house and put in a new range and bathtub. That, of course, ought to make it bring more rent."

A most important gathering will be the convention which is being arranged for to be held in Atlanta on October 6 under the auspices of the Southern Commercial Congress.

Governors of 16 States will be asked to appoint ten of the foremost business men of their States to attend the meeting.

The States included are Texas, Missouri, Oklahoma, Arkansas, Kentucky, Tennessee, Mississippi, Louisiana, Alabama, Florida, Georgia, North Carolina, South Carolina, Virginia, West Virginia and Maryland.

Before this meeting will be laid the plans already worked out by the officers of the Southern Commercial Congress, and the action to be taken by the body will be preliminary to the second annual Congress which will convene at Atlanta in the spring of 1911.
