

WASHINGTON DAILY NEWS

Entered as second-class matter August 8, 1908, at the postoffice at Washington, D. C., under the act of March 3, 1879.

PUBLISHED EVERY AFTERNOON EXCEPT SUNDAY No. 114 East Main Street

SEAWATER PRINTING COMPANY, Publishers. J. L. MAYO, Editor and Manager. Telephone No. 130.

SUBSCRIPTION RATES: One Month, \$1.25; Four Months, \$4.00; Six Months, \$5.50; One Year, \$10.00.

Subscribers desiring the paper discontinued will please notify this office on date of expiration, otherwise it will be continued at regular subscription rates until notice to stop is received.

If you do not get The Daily News promptly telephone or write the manager, and the complaint will receive immediate attention. It is our desire to please you.

MONDAY, AUGUST 15.

Parties leaving town should not fail to let the News follow them daily with the news of Washington fresh and crisp. It will prove a valuable companion, reading to you like a letter from home.

All articles sent to The News for publication must be signed by the writer, otherwise they will not be published.

VICTORIES OF PEACE: THE RESULTS OF SANITARY SCIENCE.

It is estimated that the attempt of the French to dig the Panama canal cost them 50,000 lives, most of them destroyed by yellow fever and malaria. In 1887 the death rate in the Canal Zone amounted to the loss of 1 person out of 10, or 100 out of every 1,000, per annum.

Yellow fever is a conquered disease. From 1850 to 1900 the city of Havana alone averaged 750 deaths a year from this disease. Since the discovery of Lazzar and Carroll and the application of this discovery there has been an average of not over four deaths per year from this disease in Havana.

Malaria is another disease that has yielded to man just in proportion to the educational effort directed against it. In Italy, one of the most malarious countries in the world, with a very general educational campaign against malaria, there has been in the last eight years a 75 per cent. reduction in the malarial death rate.

A large number of cities and malarious provinces in other countries have, in varying degrees of effectiveness, adopted anti-malarial measures with results ranging from a 33 per cent. to an 80 per cent. reduction in their malarial death rate.

THE NORTH AND THE SOUTH.

The immense increase of population in the past decade as shown by the census statistics relating to Texas astonishes everybody except Texans. Under the present ratio Texas is certain to gain eight additional members to Congress, and some Texans claim they will gain 10. Nor is that all.

The general increase of population in the South evinces that the North is pouring into that section tens of thousands of its best people. This is especially true of Texas and Oklahoma. The government has just begun, and it is easy to imagine what it will be a decade in the future.

Some of the Northern Republican politicians seem to be agitated over the fact that the South as a result of the census figures, will gain considerable political power, and there are suggestions of a force bill or an appeal to the letter of the fourteenth amendment. This is the unloaded gun of the Republican party fired in the fifty-first Congress with disastrous results, and it is likely that it is yet unloaded precisely as it was 20 years ago.

...that are simply inimitable. All that is needed is capital, population, physical energy and business capacity to make that section all that the North is.

Mr. S. H. Sanderson, of Bath, was on our streets today.

Plenty of Them in Washington, and Good Reason for It.

Wouldn't any woman be happy. After years of backache suffering. Days of misery, nights of unrest. The distress of urinary troubles. She finds relief and cure?

No reason why any Washington reader should suffer in the face of evidence like this: Mrs. Charles J. Jackson, 222 Telfair st., Washington, N. C., says: "I suffered from kidney troubles for some time. The kidney secretions were so frequent in passage as to cause me great annoyance, and my back ached almost constantly. At occasional times I had such sharp, shooting pains through my loins I could hardly perform my household duties. I finally heard about Doan's Kidney Pills, and procuring a supply from the Washington Drug Co., I began their use. They strengthened my kidneys, regulated the passages of the secretions and entirely removed the pains in my back. I have not had any kidney trouble since using Doan's Kidney Pills. I can recommend them as being far superior to any other remedy I have ever tried."

Those Pies of Boyhood.

How delicious were the pies of boyhood. No pies now ever taste so good. What's changed? The pies? No. It's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is slow and on blame the food. What's needed? A complete toning up by Electric Bitters of all organs of digestion—Stomach, Liver, Kidneys, Bowels—Try them. They'll restore your boyhood appetite and appreciation of food and firmly saturate your body with new strength and vigor. 50c at all druggists.

...a fine of a change nature appeared in Wash. in 1908 according to the most intelligent opinion concerning it... it came from the sea near Norfolk. At several places near that place and all over the coast where it did much damage, burning hay, houses, barns, etc. It is common writing of it said: "The grass over which it moves kills all manner of cattle that feed upon it. But what is most remarkable is that any great noise, such as the beating of a drum or sounding a horn, effectually repels it from any house."

...a professional man of Baltimore... to his young nephew, who was laughing about the horse in a way which his father thought lacked the strenuous note. "My boy, why don't you go out and make for something to do? How you are sitting the time away, while I have to go downtown every day to my office to attend to my work."

DR. D. T. TAYLOR, Chief Surgeon.

SUPPORT THE CHAMBER OF COMMERCE and help advertise, and we will increase the population of our town and county, making better business. Join the Chamber of Commerce.

It is Important TO THE MERCHANT

That He Should Be A Good ADVERTISER

But it is also Very Important to His Patrons

THAT HE SHOULD BE

The buying public has a distinct interest in whether or not a merchant advertises.

For it's an economic truth that only the merchant who advertises can afford to offer actual values--to make concessions that are really competitive--to do business on the smallest possible per sale profit.

The buying public has come to know this, to know that the buyer has a direct interest in the question of whether the seller advertises. The buying public has come to know that the buyer pays the penalty of patronizing the non-progressive store, where a small volume of sales makes large per sale profits inevitable.

It has come, therefore, to be a matter of personal interest to a prospective buyer as to whether he or she is dealing with a progressive or with a non-progressive merchant. This personal interest is a purse-interest, no we didn't say "personal" interest; and therefore comes nearer home than the mere matter of pride in preferring to buy at a LIVE STORE.

Although that sort of pride somewhat generally held by the people of a city, is what makes the town worth living in--worth doing business in--worth believing in.
