ears John A. and Samuel W. Wilkenson Conver a Foresta Between Pinetown and Belliaven Into te ichest of Farm Lands.

What they have accomplished in farming others may second plished in the way of development of the social and the fact that little formillier is ever accessary. One of the most remarkable growths of corn is been failed that yield, a great crop of sistings broofs the corn was planted and that now has both the certain alther alone would make an up-country farmer marvel at the results preduced.

Mr. John A. Wilkinson say, that they have made little, but other years and en difference, between this section and others is that the original method of clearing the land leaves it in better condition instead of infuring it as is the case of which is complished in the way of decaping the section and others is that the original method of clearing the land leaves it in better condition instead of injuring it as is the case of many other sections.

The Wilkinson want those who are growth there is on the land the section.

What they have accomplished in the way of development of the profits that couldry in the section of the country in the section of the profits that could be parted has been represented to whole clear in the profits that could be parted has been represented to whole clear in the profits that they would also part with for \$100 an acre, while and the whole clearing land to burning and rolling process is followed in the section of the country in the section and the the results are obtained and the section of the country in th

In distance in the section of this section.

That he achievement can be set to the best type, men who are auxious to best richer condition and get the appreciated by the outside world is almost impossible, but he hundred that have visited this section for the set in the same enthusiastic story when they leave.

Presupportation facilities are good.

Transportation facilities are good.

The will instead of the development of this section.

They want farmers of this demonstration to the soil. To attract them to this section the Wilkinsons have used during the three conditions and get them to this section the Wilkinsons have been hard at work on this demonstration, with lateral ditches about five hundred they are going to let ten they have used during the three continuous them to this section the Wilkinsons have been hard at work on this demonstration, with lateral ditches about five hundred they are going to let ten they have used during the three continuous them to this section the Wilkinsons have been hard at work on this demonstration, with lateral ditches about five hundred at work on this demonstration, with lateral ditches about five hundred at work on this demonstration, with lateral ditches about five hundred they are going to let ten they have used during the three continuous them to this section the Wilkinsons have been continuous them to this section to Wilkinsons the water, thiry-five mittes of them controlled already by the two dredges that they dread already by the two dredges that they have used during the three controlled already by the two dredges that they have used during the three controlled already by the two dredges that they have used during the three controlled already by the two dredges that they have used during the three controlled already by the two dredges that they have used during the three controlled already to the water, thiry-five mittes of them to dredges that they have during the three controlled already by the two dredges that they have used during the three controlled already childred States Department of the state of the State S abors in the sale of the balance of that the limbs will lay close. ## TO DELIVER RESPONSE

Raleigh, N. C. Augest 30 .- Major Raleigh, N. C. Augest 30.—Major B. F. Dixon, North Carolina State autitor, accepted today an invitation from General Julian S. Carr. com-manding the North Carolina Division United Confederate Veterans, for him to deliver the response to the ad-dress of welcome for the annual reunion to be held in Norfolk beginning September 6.

The address of welcome is to be on the part of teh State of Virginia and the city of Norfolk,

# A LARGE SHIPMENT

The J. H. Harris Plumbing and Supply Company have received the con-tract for furnishing the cement for the construction of the new courthouse in Greenville. The steamer Shiloh is now loading at the dock of the firm.

This is the largest order for coment, being 1,300 barels, ever re-ectived by a local flerm.

# AT THE GEM

There will be a big feature program presented at the Gem Theatre tonight, four reels, 4,000 feet of film, two western pictures one big Indian

The Colonel's Errand, by Kalem, is a thirlling story of Indian fighting on the frontier. It is a strong com-bination of pathos and adventure Melodrama it may be but teeming with human action.

The Bad Man's Last Deedcal western drama by the Essanay Stock Company, There is much de-velopment of character shown, and

typical western setting. Childish Escanaries, One of those pleasing listle consider dramas that always proves popular.

Micro-Cinematograph—This film.

suggests a whole range of valuable educational subjects.

The Bandit's Wife—A dramatic western picture full of interest from beginning to and.

Don't miss this rare treat tonight.

### EXTENDS THANKS. It is quite impossible for us to

thank personally, all of the numer-ous friends who were so sympathetic-cally and actively kind in the sad tragedy that so recently bereft our home. I wish to express inadequately though it may be, the profound appre ciation of me and mine,

Sincerely, MAJOR JOHN GAIETY TONIGHT.

Blind Boys Orchestra-Feature Pie

The Blind Boys' Orchestra, that has been playing in the Gaiety for the past week will play and sing all new stuff tonight, in addition to the regular program, consisting of 3 full reels. The first of which, Fred Waireels. The first of which, Fred Wal-ton the monarch of Silent Comedy. takes part in a mirthful comedy en-titled "The Hall Room Boys" This picture will certainly make you laugh.

The next "Perseverance Rewarded" is another comedy that in full of keen, rich satire or modern society and is one of the most humorous character pictures siver shown him

"Riding School in Relation: An alterational picture, showing the relationation state will also be shown that will prove equally as good.

Remember you always see the

best ones first at the Galety.
