PIGHT FOR DISMAL SWAMP CA WAL TO BE CONTINUED IN NOR-FOLK-THE GOVERNMENT EN GINEERS WILL GIVE ALL PAR FUSE A HEATING. .

the Atlante Deeper Waterway Astation will meet in Richmond in

which has caused much talk in Prov-ods as compared with special effort idence bols up at the public hearing by young men in the professions, and by the government engineers, going asking that this be not the case in over the fourte, to give each community a pearing on this subject. Hence

A movement was set on foot to the Norfolk hearing Tuesday.

on Tuesday will be final They in attendance.

In attendance.

The morning session leading up

The Dismal Swamp advocates hold that the opening of Albemarie and Chesapeake Canal as a free water way will ruin their property. Eliza-beth City and South Mills four the result of the partial amandement of this causal, for the selection of another route would remove them of the direct projected inland water

This is why the two Carolina towns are fighting so hard for the selection of the Dismai Swamp Canal

### SMASHING THE RECORD

Orleans, Sept. 2 .- A crowd of 15, 000 persons assembled today to wit-ness the departure of M. Bielovucci, the aviator, who reached her las night in a flight from Paris to Bor-denux, a total distance or 355 miles. Hundreds stayed up all night. Bleloyuccl was up early today ov-

erhauling the machine and after judging the weather conditions, de-clared that he hoped to continue the ment without delay.

might without delay.

"I am confident that I can make better speed than on the trip here, though I covered the 55 miles from the starting point at Isay in 70 mix-utes and made 66 miles an hour ut

WHAT DOES THE TEXTILE

Fat the A. and M. Colles OFFER A YOUNG MAN

The Textile Department offers a crough practical training to yours on who wish to make the mill bush

Such training as in given in their bughly practical. Why? Hecause the Textile Department is equipped with all the different machines used in a cotton mill, and because of these cotton mill, and because of these facilities offers to a young man the many best mean, of studying the the-ory of cotton manufacturing and at the same time providing therough

tal effort make these fabrics from their own sions, and designs and colorings and product such fabrics as strips and check ginghams, madras, vestings, anirt-waistings, white and colored grees goods, table napkins, table efoths.

> dent keeps a record in his pattern book of all the work done, and this makes a reference book of useful and reliable information, especially as the methods of bleaching and dyeing have been so arranged as to be ap-plicable to actual practival needs.

Sixth, The studies and work of tex tile students comprise not only those which bear directly on textile work but also those which go to make a well-rounded man, such as forge of engines and boilers, and a general education in English and Mathematcs, thereby emphasizing the develpment of the man,

Seventh. That the training given textile students is broad in its na-ture and thoroughly practical is evidenced by the different positions these are the following: Cotton Mill Superintendents, Overseers, Second Hands, Section Hands, Mill Purchas ing Agents, Overseers and Experts in dyeing, Chemists, Machinery Draftsmen, Salesmen, etc. Medals Won by the Textile Depart

ment.
For three years in succession the

Textile Department has been awarded the Students' Medal by the National Association of Cotton Masufacturerers. This association is com-America as an encouragement to textile work. Various rules have, how, ever, to be compiled with in order to compete for the medal. Two of these rules are as follows: (1) There must be a good equipment for instruction in Carding, Spinning. Warp preparation, Weaving, Designing, Dyeing. (2) The matruction must be of recognized standard.

The A. and M. textile school has been the only textile school in the South for the past three years to fill all the requirements necessary. The medal is given to the graduating tudent having the highest excellence

in his textile work. The Textile Department was also awarded a certificate and gold medal at the Jamestown Exposition for an

exhibit of Bleached and Dyed Yarus, and Plain and Fancy Fabrics. The Textile Department Teaching Staff. Four trained teachers, each an ex-

pert in his department devote their whole time to the teaching of textile

In other subjects, such as Physics, Matternatics, Chemistry, Drawing, Wood Work Forge Work, Machine-shop work, etc. copetent and expert Wood Work Forge Work, Machine and expert teachers are engaged.
