SOUTHERN COTTON

Farmers are Marketing Their Cotton Freely

CROP DEPENDS ON FROST

MEMPHIS SAYS STAPLE IS COMING TO MATURITY IN REGULAR MANNER—SOME SECTIONS WILL REQUIRE LATE FROST FOR MATURITY.

Memphis, Tenn., Sept. 15.—The following summary of cotton crop conditions will be published by The Commercial Appeal tomorrow:

The cotton crop is coming to maturity in an irregular manner. In all parts of the South, save the most Southern cotton growing sections there are fields which are thrifty and growing and need a late frost to permit the maturity of a full yield.

In all sections also there are fields which have apparently come to full growth. In such as these the bolls are opening rapidly. It appears that on the whole the past two weeks have brought the crop toward maturity more rapidly than the farmers had anticipated.

As a result there are some complaints of shedding in the valley and the Atlantic states. In the latter, however, the shedding does not appear to have been so great as is usual for this season.

It is estimated that 50 per cent of the fruit on the stalk in the northern districts is mature and cannot be hurt by frost. In Southern Texas, Georgia and Louisiana, estimates on the matured cotton run 80 to 100 per cent.

In Oklahoma and Arkansas the crop appears taller than elsewhere. Some of the Oklahoma reports say that early complaints of damage by boll worm were overstated, although it is evident the promise is not quite as brilliant as at one time indicated.

VITAGRAPH FEATURE

At the Gaiety Tonight—An Entire Change of Music and Song

"Two good last night too! Want it? Everyone said the program was fine. The pictures were exceptionally good."

Tonight the Gaiety offers another exceptionally strong bill, which, without question, prove to be one of the best all-round programs shown here in some time.

The following pictures will be shown:

"Auntie at the Boat Race." (Vitagraph)—Here is a thrilling story based upon a Yale-Harvard boat race. It will interest because of the views of the race, reproducing the scenery so graphically that whoever has been there will recognize it instantly.

"The Marriage of Esther." This picture is historically correct in every detail. A true portrayal of the victory of those Israelites who did not return from captivity. No expense has been spared in presenting this beautiful work as is evidenced by the names of the artists who took the leading parts—names well known to every Paris theatre-goer.

Melle Gravier, of the Theatre de la Renaissance as Esther. M. Leonce Perret, of the Odeon Theatre, as Ahasuerus.

Mr. Legrand, of the Odeon Theatre as Mordecai.

"The Exiled Chief" (Kalem).—A pathetic picture representing peaceful Seminole Indians driven from their ancestral home in the Florida Everglades and forced to live in the barren wastes of Arkansas. The chief determines to return to the Everglades to die.

Don't forget the special attraction tomorrow night.

Out Again. The many friends of Mr. William Baugham are glad to see him out again after several days indisposition from fever.

HORRIBLE DISASTER

Five Men Thrown Into Teeth of Saw and Two Killed

ARE BADLY MANGLED

ONE MAN WAS BEHEADED, ANOTHER HAD HIS HEAD CRUSHED AND THE OTHER THREE WERE SERIOUSLY CUT AND MANGLED.

Emporia, Va., Sept. 19.—One man was beheaded, another had his head crushed into a shapeless mass of flesh and bone and three others were badly mangled at the saw mill of the Camp Manufacturing Company at Arrinsdale, near here today, when a negro workman pulled the lever of a swim lic carriage the wrong way and knocked five men into the mealstrom of whirling teeth.

The five workmen were standing upon the platform which is used for carrying timber into the path of the great circular saw.

Taken unawares by the action of the negro workman they were thrown into the very teeth of the saw.

As the men fell into the death-dealing instrument their screams warned the other employees and all haste was made to stop the machinery. However it was too late. In the excitement several made a dash for the throttle, knocking each other down.

Those who witnessed the catastrophe were paralyzed with fear. Bits of flesh and bone were hurled over them and the saw platform looked like a slaughter house.

The sharp edges of the saw teeth caught the clothing of the victims making it utterly impossible for them to hurl their bodies backward.

When the machinery was finally stopped it was feared that all five men had met death.

The decapitated body rolled from the platform presenting a grewsome spectacle.

The other four men, including the workman, whose head was crushed to a pulp, were hastily moved and medical aid was instantly summoned.

It was announced that at least one of the men would die and perhaps two of them.

Many a dark secret never comes to light.

AUDITOR STRICKEN

Dr. B. F. Dixon Became Suddenly Ill Yesterday

HIS CONDITION NOT SERIOUS

HAD AN ATTACK OF ANGINA PECTORIS ABOUT 10:30 YESTERDAY MORNING IN HIS OFFICE IN THE CAPITOL—CONDITION NOT SERIOUS.

Raleigh, Sept. 19.—This morning shortly after 10:30 o'clock Dr. B. F. Dixon, state auditor, was taken suddenly and seriously ill in his office in the state capitol, and for a time his condition was thought to be extremely ill. He suffered the greatest of agony in the left side of his chest and for more than an hour physicians worked to relieve the great pain.

About 12 o'clock the pain had been sufficiently denuded by the use of opiates to permit his removal to Rex Hospital, where a careful diagnosis was made this afternoon.

The physicians state that the illness was due to angina pectoris.

Dr. Dixon came to his office as usual this morning and so far as is known was in good health. He walked down the street and returned in a short while. A few minutes later he walked out again and returned a few minutes later, walking slowly and carrying his hat in his hand.

As he walked in his office to ask Mr. Baxter Durham and Mr. Everett Baker to get a doctor he fell over on a lounge. In a few minutes several physicians were on hand.

Dr. Dixon was suffering great agony and his groans could be heard through the capitol corridors. Despite the fact that opiates were administered the pain continued for an hour before any relief was obtained.

About noon the patient's condition was such that he was able to be moved to Rex Hospital.

The physicians announced that he was improving that his condition was not considered very serious.

Orr Lodge.

There will be a regular communication of Orr Lodge No. 104, A. F. and A. M., at their hall this evening at 8 o'clock. All visiting brethren are cordially invited to be present.

DARED THE DANGER

Of the Whirlpool Rapids in Motor Boat

THE ENGINE BBEAKS DOWN

CAPTAIN KLAUS LARSEN SUCCESSFULLY MAKES TRIP, ESCAPING WITH AN INJURED LEG—LITTLE BOAT LOST TO SIGHT AT GREAT WAVE.

Niagara Falls, N. Y., Sept. 19.—Capt. Klaus Larsen, in his little motor boat, the Ferro, late today made a successful trip from the foot of the cataract through the whirlpool rapids to within a mile of Lewistown, a distance of four and one-half miles.

He started from the Maid of the Mist dock at 4:45 p. m., and ran on a rock near the American shore at 5:30.

Despite the battering of the rapids Larsen went through safely, but his boat was looking badly at the finish.

The "Ferro" swung under the cantilever bridge, the engine running at top speed, and was caught in the swift rapids. Larsen held to the middle of the channel and in less than three minutes had made the great pool.

In the trip through the rapids the little boat was lost to sight most of the time, but at Great Wave, it was shot 20 feet out of the water. The boat landed right and continued through the pool.

Larsen kept to the outer edge of the pool and passed out and down without accident. Just as he left the pool the engine stopped working and Larsen was at the mercy of the waters hardly less violent than those above.

The little boat swung around stern first and then turned completely over. Larsen coming up badly battered. It was here he injured his leg.

From now on Larsen was the plaything of the mighty river unable to hold the course, the boat swinging from one side to the other. After getting through the Devils hole, the Ferro swung towards the rocks on the American shore of the river, rolled over one boulder and went fast between two others. There Larsen stayed for five minutes forty feet from shore, working desperately to release the craft. Getting free

CEM THEATRE

Were you at the Gem last evening?

This question has been asked many times today. Those who did attend, and that included about every one who came down town, were entertained in a way never before in any show in Washington.

Zarelli and De Aman, grotesque flexible clowns, held the boards and to say these two gentlemen are genuine fun producers, is expressing it mild. Any one having a case of blues will find all their troubles vanished after seeing their act without a single word spoken, during the whole act, which is positively the greatest and most wonderful of its kind now touring the South.

You leave the Gem Theatre feeling that you have been well repaid for going and have promised yourself that you will go again tonight. Any one not caught laughing during the entire performance should have their friends take them to consult a physician, for there is something wrong or either you are a chronic gronch.

No act touring the state has had more success than these performers, and well they deserve it, for they are presenting the public a purely wholesome entertainment that will please the most exacting.

The management is to be congratulated on securing this splendid team.

Included in tonight's performance will be an exceptionally fine picture program:

A Boarding School Romance—A lively Vitagraph Story centering around love making at a boarding school.

On the Brink of the Precipice—Dramatic.

He Invites His Boss to Dinner.—A good comedy drama.

Remember the price of admission to this splendid show is only 5 and 10 cents.

Plans Further Discussed

Mr. J. L. Smith, the secretary of the executive committee of the Y. M. C. A. for the Carolinas, held a conference with the executive committee of the Young Men's Christian League and the pastors of the city at the reading rooms of the league last night and the plans for the erection of a Y. M. C. A. building in Washington were further discussed. They decided to again take the matter under advisement.

Walks Mutilated.

Last night pedestrians and horses tried their best to tear up the new concrete walks being placed on Second street.

Although the walks were nailed off so as to keep people and animals from walking on them it seemed this did no good judging from the appearance of the walks this morning.

Large Increase

Five hundred and fifty-nine pupils were enrolled at the Washington Public Schools yesterday, the opening day. This is an increase of forty over the opening day of last year.

The entire school got down to work this morning and every one is busy.

A great year is looked for as a result of this school.

Cartoon of Buggies.

The Washington Horse Exchange Company received on yesterday a cartoon of Flannagan buggies. They can now be seen at their place of business on West Second street.

House Guests.

Mrs. John H. Small has as her guest Miss Lottie Blow of Greenville; Miss Bess Boyd of Washington, D. C., and Miss Nora Angel of this city.

The hostess entertained a few friends at her home corner of Bridge and Main streets last evening in their honor. The occasion was much enjoyed.
