"We had just left Leavensworth, and I was in the forward end of the observation car when the robber bearded the train," said Conductor May today.

Mr. Johnson, a civil engineer of Leavensworth, was sitting in the observation end of the car and saw the robber climb onto the rear platform and over the guard rail. He thought for a moment that the man had made a run for the train after it had started.

As the robber entered the door,

had made a run for the train after it had started.

As the robber entered the door, Mr. Johnson noticed he had a blue bundana handkerchief tied around the lower part of his fake. He told Mr. Johnson to throw up his hands and when he did not suit the action to the word fast enough he struck him on the head with his revolver, almost felling him.

The distance in which the robber operated is \$7 miles. There were no stops, and from the manner in which the robbery was accomplished it is believed the bandit had studied the ground thoroughly and was also familiar with trains and equipment.

packages being taken from the lock borns.

George Gorham, a colored boy, be tween fifteen and sixteen years of ago, was caught in the art by postmaster, Mr. Hugh Paul. For sometime complaints have been made as to the loss of packages addressed to parties and placed in their boxes but not ontil last Saturday night was the asspected party caught. Mr. Paul placed decoy packages in the boxes, making them as attractive as possible and them served himself in the office to await the coming of the thief. Between slevem and twelve o'clock the negro appeared in the lobby and at once began to try the different combinations and succeeded in opening soveral boxes. As he was about to leave with his plunder the proliminary hearing was had before the mayor yesterday morning and he was bound over to the next term of Federal court. Falling to give the bond he is now in jail.
