

THE LARGEST PAID SUBSCRIPTION OF ANY PAPER PUBLISHED IN EASTERN NORTH CAROLINA

## HOUSE SWAMPED

Many bills were introduced in the legislature yesterday.

Judge Swart, of Henderson, creating a Viable of Ten by offering a resolution thanking Governor Pothier, of Rhode Island for rejecting North Carolina's repudiated bonds, and the reading of the resolution brought forth applause from the Democratic members.

The resolution carried a plain reference in Martin Butler and disbanding the affairs of those who have tried to traffic in these bonds as "benefactors."

Mr. Battle introduced his bill providing for elections in any cities desiring to establish a commission form of government.

Judge Swart's bill to amend the constitution was read at his request. It is one of the most comprehensive bills offered for this purpose and embraces several articles which it proposes to change. It provides that the supreme court shall consist of five judges, and three others to be appointed by the governor who may be assigned to hold special terms of court in any counties of the state. It provides also for the creation of a board of pardons. It restricts the general assembly in the matter of granting charters and also keeps from its records a great mass of matter of purely local concern.

Judge Swart also offered a bill which is intended to make railroads live up to their "implied agreement" with the state in regard to passenger rates.

His bill would require all roads that refuse to accept mileage on its trains to reduce its fares to 2 cents a mile.

## ORGANIZE CHURCH TO REDUCE TARDIES

A Baptist church is to be organized at Chocowinity tomorrow night as a result of the good work accomplished in that community by Rev. H. H. Hoffman.

Two members were received there last night as a result of the excellent work of this young and energetic preacher.

Mr. Hoffman since his residence in this county has done a great work and the fruits of his labors is now beginning to be tangible. He is an untiring worker.

The Daily News takes this occasion to extend congratulations to him and the fraternal religious body he represents. More men of his calibre are needed everywhere.

## TO REDUCE TARDIES TO START MONDAY BAND

A special plea is made by the Head of the School and the Parents are Requested to Give the Matter Serious Thought. Children should be on Time.

Last Friday, January 6, the second day of school since the holidays, we had fifteen tardies. A copy of the following note was sent to the parents of each child, who was tardy:

January 9, 1911.

My Dear Mr. \_\_\_\_\_

We had fifteen tardies this morning. \_\_\_\_\_ gave us one of them. His reason, like all the others, was not satisfactory. Some said they got up too late, others, breakfast was late still others that the clock was too slow. Arrangements should be made not to allow anything but a genuine providential hindrance to cause tardies to be tardy.

Will you please see to it that \_\_\_\_\_ is here before 9 o'clock hereafter. If you will regulate your clock daily with the town clock there will be no trouble. Our clocks are kept with the town clock now as nearly as we can keep them. Unless you can secure the hearty support of yourself and our patrons in this matter, and there by reduce tardies, we shall be compelled to make some stringent rule in reference to tardies.

Please let me know if you will give us your earnest support in this matter.

With best wishes, I am  
Very Sincerely,  
N. C. NEWBOLD.

Two parents have replied. One as follows:

You may always count on my cordial support in helping to reduce tardies. I get up every morning before 7 o'clock to help a slow cook get breakfast early enough for the children to reach school in time.

With best wishes,  
Yours sincerely,  
(Signed) \_\_\_\_\_

The other thirteen have not been heard from at the present time. Monday we had four tardies, and today seven, twenty-five in three days. This, too, when the weather is fine and everything apparently is favorable.

Unless great improvement is made very speedily we shall be compelled to make some rule to protect those children who do come to school in time. It is very distressing to a teacher and the great majority of her pupils who take great pride in the record of their grade for punctuality and regularity in attendance, to have one or two pupils who are continually coming in after nine o'clock.

In justice let me say that some of the fifteen children mentioned above had not been tardy before during the year.

(Continued on Fourth Page.)

## TO START MONDAY BAND

The Pylon Chemical Company will be ready to begin operations on next Monday.

The mammoth plant is now practically completed, and the manufacture of guano starts on the date mentioned.

Two barges today are unloading material at the plant. This plant is one of the most complete in this section of North Carolina.

It would pay all of our citizens to pay a visit to the plant and see for themselves what an industry is promised for Washington and Beaufort county.

## KILLED AT FARM

Brinkley Allbrook Run Over by the Plymouth Passenger Train and Killed.

Mr. Brinkley Allbrook was run over by the passenger train of the Atlantic Coast Line running between Rocky Mount and Plymouth Monday evening. The accident happened about one mile from Farmale.

The unfortunate man's body was crushed almost beyond recognition. How the accident happened is not known. He was a man of many friends and his untimely end is to be deplored.

Shoppers Disturbed

The constant blowing of whistles in the city last night was a source of annoyance to the citizens. It seems that every boat arriving in the night time, as well as the local plants take occasion to test the capacity of their blowing when the citizens are endeavoring to sleep. This nuisance should be stopped.

Is Out Again.

The many friends of Mr. Stephen C. Bragaw one of Washington's leading members of the bar, will be pleased to learn that after a few days indisposition is out again and able to resume his professional duties.

## LITCHFIELD TRIO WILL STUDY CORN

Washington is fortunate in securing this number—promised to be one of the most successful entertainments of the present Lyceum Course.

The next attraction in the Lyceum Course for Washington will be the "Nell Litchfield Trio" at the Public School Auditorium on Wednesday evening, January 18. Two-hours of mirth, music and mimicry; two hours of refined fun.

The program will consist of humorous characters impersonations, musical selections, facial and character monologue, humorous and dramatic recitals; violin and ballad horn solos and the rural comedy playlet "Down at Brook Farm."

The advance notices of this trio from the press of the country is more than complimentary. One exchange says:

"Everybody is looking for a rare treat of fun and music in the entertainment to be given by the Nell Litchfield Trio."

The first part is made up of music, humorous recitals and impersonations. The latter half is taken up by the rural comedy playlet, "Down at Brook Farm," written by Mr. Litchfield and presented over three thousand times in America and England.

The Litchfields have recently returned from England where they were highly spoken of by the London and other papers. They have appeared in New York, Boston, Philadelphia, Chicago, San Francisco and all the large American cities and the papers all praise their work.

Washington is to be congratulated on securing this international attraction.

The mission of the Litchfield Trio is to make people healthful and happy by making them laugh. Their entertainments serve as a delightful leaven to the heavier and more philosophical numbers of the course.

Remember the date, Wednesday evening, January 18, at the school auditorium.

Cordially yours,  
C. R. HUDSON,  
State agent.

## THE FARMERS ARE INVITED TO COME AND BRING FROM TWENTY-FIVE TO ONE HUNDRED BARS OF CORN—YOU BE SHOWS THE GOOD AND THE BAD POINTS.

Raleigh, Jan. 10, '11.

Editor Daily News:

The corn crop is one of the most important in this section of the state. The average yield per acre for a number of years past has been very low. As a result, farmers have bought large quantities of corn, paying about a dollar per bushel for it, when, as has been shown by the Farmers' Co-operative Demonstration Work, they can easily grow all they need at a cost of about twenty-five cents per bushel, if they will use the best methods and plant the best seed.

In order to assist farmers in these matters we are going to have a seed meeting at Washington on Saturday January 14th.

We will spend the day studying corn and discussing things pertaining to corn growing. We invite you to come and bring from 25 to 100 ears of your best corn. We will go through it carefully to learn of its good and bad points. From the same selected number of seed farms started to supply a growing demand for good seed. Please invite your neighbors and urge the farmer boys in your community to come and bring corn.

Teachers of agriculture, seed growers and members of the Boys' Corn Club movement will be interested in the meeting.

Cordially yours,  
C. R. HUDSON,  
State agent.

## THE ELECTION OF OFFICERS

Tonight at the First Baptist Church, members were elected to the following offices at the First Baptist church this evening the annual election of officers will take place. All the members of this church are urged to be present and take part in the election.

Cotton Market

Seed cotton, 5.50.  
Lint Cotton, 14.25.  
Cotton seed, per ton, 30.00.

The Senate

Thorne of Nash: Requiring expert indentments or heads of state institutions to furnish a full and complete list of employees of each and salaries paid, provided by an act of the general assembly. Referred to committee on revision.

Hills Introduced.

Boydson of Rowan: As to the appointment of guardians.

Boydson of Rowan: Relating to the desertion and exposure of infants.

Baggett of Harnett: Regulating passenger rates in North Carolina and requiring railroads to allow mileage to be pulled from hooks on trains.

Barber of Johnston: To make concubinage between Caucasian and black races a felony. Referred to Judiciary.

Baggett of Harnett: To prevent stockholders and officers of corporations from dealing with each other Referred.

Hobgood of Guilford: Regulating the sale of lands under mortgage and deeds of trust, where the lands lie in two counties.

Stimon of Burke: Establishing the county of Avery out of portions of Mitchell, Watauga and Caldwell. Referred to committee on counties, cities and towns.

## LOOK-OUT FOR No. 1

Never lose sight of the fact that you have your own way to make in the world and that no one feels disposed to help a man who does not help himself.

It is very pleasant to be a "good fellow" and spend money freely, but you will find many more people willing to accept your generosity than willing to help you when you need money.

Don't forget your own interests. Own your home. I have four residences for sale at very reasonable prices, which will yield a good rate of interest on the investment, also rapidly enhance in value.

N. R. ROBINSON,  
3422 14th St., Washington, D. C.

## IT COSTS NOTHING

Mr. J. K. Hoyt Advertises Another Unique Advertising Scheme

Anyone entering the store of Mr. J. K. Hoyt's store Thursday, Friday or Saturday will receive a coupon and the one holding the lucky number will be entitled to a \$15 suit of clothes or coat suit free.

This is a novel scheme and no doubt many will avail themselves of this opportunity. It makes no difference whether you trade or not. Every one stands an equal show in this popular emporium.

## DANCE

Orchestra will be at the armory from 8:45 to 11 o'clock tomorrow night, (Thursday) Gentlemen dancing 50 cents. Ladies free.

## THE ELECTRIC IRON LASTS A LIFE TIME

and can be used in the house or on the porch—Tuesday or any other day or every day—for any kind of household ironing or pressing work. Always ready.

Heat quickly and stay hot even on heavy wet ironing. The heat can be regulated to suit the work—from laces to table cloths. The air jacket heat insulation of the cover prevents the heating of the hand, and the handle is always cool.

The Electric Iron saves time, fuel, energy—the most economical iron to use—the leading labor-saving device for home workers. Is perfectly clean—"floats" over the work and gives the smooth or glossy finish that pleases. And it lasts a lifetime.

We are offering this iron on a free trial basis. Tell the manager of the Electric Light plant today that you wish to try the Electric "Eatron." (Hundreds of thousands have been bought this way) and receive our handsome, nickel-plated six-pound electric flatiron with a "pull off" attaching plug, 8 feet of approved asbestos conductor cord and socket attaching plug. A non-heating three-deck stand is sent free with each iron.

Washington Electric Plant.

# THE BIG \$40,000 COST SALE

Begins Wednesday Morning at 9 A. M.

## BOWERS - - LEWIS COMPANY

Don't Fail To Be On Hand.

### THE SOUTH AND THE GENUINE

By W. D. Roberts, Assistant Industrial Agent, Carolina, Clinchfield and Ohio Ry.

The real meaning of industrial, as well as political, economy is that which teaches nations to desire and labor for the things that lead to life and life, in its fullness or littleness, is what we actually mean by wealth. You do not think of one who has but little correspondence with the world of human beings or cognition of the material universe as either a wise or a wealthy person. You cannot think a country is wealthy or its people happy as they should be when three-fourths of its area adopted to the use of human kind, to the production of those things which en-

large and perpetuate life is merely a waste portion of the planet. This, though, in the exact situation in the South, and in a large measure it involves the wisdom and happiness of her people, or the lack of it. If the fullness of life is wealth—material and intellectual, and if its littleness is poverty, then the main business of the southern people and railroads for the present is that of bringing in, and not driving or carrying out wealth—the wealth of human beings.

The people and railroads of the west and Canada realize the value of this wealth, and the South, from its little store, has yielded to them many millions.

Will it continue to do so? Of course the western states and Cana-

da need the people we have sent them, but we can hardly be expected to relinquish them without a struggle. And yet that is what we have been doing. Railroads, manufacturers, merchants, and even newspapers have practically consented to the sailing with a large section of the real wealth of the South each year. But whatever has been the negligence in the past, there is one clear call now—a united effort to regain what we have lost and add to our stock.

Newspaper articles, congress and schemes are not going to do the work. It must be a South-wide combination of all interests—people and the railroads—in a joint campaign for people to take up the millions of unused acres and unused opportunities in

the Southern States.

Let the people urge their friends and trainmen to come "back home" and bring others with them; and let the railroads coordinate their efforts in nation-wide advertising as do the western and Canadian railroads. The following letter received by us in of interest in this connection:

"Seattle, Wash, Dec. 24, 1910.

"I have been reading your press matter on the "Back Home Movement" started by the Clinchfield railroad, and wish to say that together with your plan of inducing the railroads there to co-operate in advertising the South, good results are sure to follow. I have been on the coast 5 years, observing the conditions very closely, and am sure you that the effects of "hoasting" and

advertising by the railroads and other interests have been wonderful. People come here by the thousands and find but little after they get here, especially the farming class. I lived in the South all my life before I came here, and know that there are more opportunities to make an honorable living there than here. Farmers are coming here from all over the North and East, seeking good climate and cheap lands. All the South has to do is to let them know what it has, and a large portion of them will certainly go there."

Some men try to make an arc light display with a can of kerosene.

Sometimes a mortgage on a house is too heavy for the foundation.

### THE GEM THEATRE

LOOKING FOR AMUSEMENT?

The best place to spend the odd hour in the evening is at this UP-TO-DATE MOVIE PICTURE SHOW

A TIN-TYPE ROMANCE—A Redund Comedy and Love in which the Vitagraph Dog "Jéan" acts as the Embassador of Cupid and Straightens out a Misunderstanding with the aid of two tin-types.
