

17-Cents-a-Day Buys Oliver Typewriter!

What! Actually buy outright the \$100 Oliver Typewriter for Seventeen-Cents-a-Day?

Yes, sir—that's the proposition on the new model Oliver No. 5, the Standard Visible Writer.

We not only let you—we urge you—to take advantage of our Seventeen-Cents-a-Day Business Plan.

This plan was devised for the benefit of the many thousands who are seeking machines or doing without them for lack of ready cash. In selling you an Oliver Typewriter we meet you more than half way. A small cash payment buys the machine. We willingly wait while you pay at the rate of Seventeen-Cents-a-Day. We don't want a cent of security. Just your promise to pay is enough.

THIRTEEN DOLLAR BOND FOR 17-CENTS-A-DAY!

Since we began selling typewriters on this broad-based plan our business has more than doubled. Tens upon tens of metal have been turned into thousands of typewriters and sent all over the world to supply the demand for Oliver at 17-Cents-a-Day! We have ample capital and confidence to sell typewriters on this plan. Our losses are infinitesimal. The public has justified our confidence in such an impressive manner that today we are just as glad to book orders on the "Penny Plan" as we are for all cash in advance.

SWIFTEST, STRONGEST, SIMPLEST \$100 TYPEWRITER.

The speed of the Oliver sets a pace that has never yet been exceeded. Its strength and endurance are such that it serves you efficiently for a lifetime. No other machine in the \$100 class compares with the simplicity for we do away with hundreds of parts used on other standard typewriters. The first-grade model of the Oliver Typewriter was built from an old man's boiler and the type of a country print-shop. The machine was a curious looking affair, but the principles embodied in its design were destined to revolutionize the typewriter world.

The OLIVER Typewriter

MODEL NO. 5 WITH WORLD'S APPLAUSE

This model has captivated the public by its wealth of exclusive features which save time and effort, add scores of new uses and give tremendous gains in efficiency. The new "coat of mail" protects important working parts from dust, gives added strength and stability. The Disappearing Indicator shows exact printing point and clicks when type strikes the paper. The Vertical and Horizontal Line-Ruling Device is a wonderful convenience.

The Automatic Tabulator and the Line-Ruler are Twin Devices. Each supplements and completes the other, in tabulating, favoring The Balance Shifting Mechanism.

Automatic Paper Fingers, and all kinds of statistical work. Paper Register, the Back Spacer and other innovations put the "tag" touch of perfection to this incomparable writing machine. At all times immensely valuable improvements, without additional cost, when you buy the Oliver Typewriter for Seventeen-Cents-a-Day.

HEALED IT OUT

And Found a Change in Food For Him Night.

A man does not count as wasted the time he spends in thinking over his business, but he seems loth to give the same sort of careful attention to himself and to his health. And yet his business would be worth little without good health to carry it. A business man tells how he got himself good by carefully thinking over his physical condition, investigating to find out what was needed, and then changing to the right food.

"For some years I had been both food and a great deal after meals. My food seemed to lay like lead in my stomach, producing heaviness and sickness and sometimes positive pain. Of course this rendered me more or less unfit for business, and I made up my mind that something would have to be done.

"Reflection led me to the conclusion that over-eating, filling the stomach with indigestible food, was responsible for many of the ills that human flesh endures, and that I was punishing my self in that way—that was what was making me so dull, heavy and uncomfortable, and unfit for business after meals. I concluded to try Grape-Nuts food to see what it could do for me.

"I have been using it for some months now, and am glad to say that I do not suffer any longer after meals—my food seems to assimilate easily and perfectly, and to do the work for which it was intended.

"I have regained my normal weight, and find that business is a pleasure once more—can take more interest in it, and my mind is clearer and more alert."

Washington vs New Bern and Kinston.

(Continued from 1st page)

tests were held in the Kinston school auditorium at 8 p. m. Saturday. The following declared:

"Spartacus to the Gladiators"—Gordon Rhodes, Kinston, 1912.

"Patrick Henry's Liberty Address"—Charles Meekins, Washington, 1911.

"The Soul of the Violin"—Lucille Dixon, Kinston, 1912.

"Hagar"—Carlotta Nicholson, Washington, 1912.

There were five judges. After stating that no one of the judges could name a single defect nor offer any criticism whatever in the declaration "Hagar" by Carlotta Nicholson and further stating the difficulty the judges had in reaching a decision on their spokesman said their decision was that by a very bad margin, Kinston had won.

In the spelling contest we were represented by the same students mentioned above in the New Bern contest. The result of this contest was Kinston misspelled 13 words and Washington 24.

All the contests in Kinston were very exciting and very much enjoyed by both sides.

One of the most cherished memories of the trip was the remark made by a number of Kinston people upon the splendid behavior of all the Washington party. We sincerely thank all the New Bern and Kinston people for the many courtesies and kindnesses shown us. These contests will go good. The students in all three of the cities will be stimulated and put on their mettle for future contests of mind and muscle.

After extending a cordial invitation, and lodging a dignified challenge with each city we returned to Washington on the midnight train Saturday morning leaving about 2:30 a. m.

We trust the challenge to both New Bern and Kinston will be accepted and that soon we can have Washington to witness these three-contesters in our home city.

A Fierce Night Alarm

is the hourly, startling cough of a child, suddenly attacked by croup. Often it awoke Lewis Chamblin of Manchester, O., (R. F. D. No. 2) for their four children were greatly subject to croup. "Sometimes in severe attacks," he writes "we were afraid they would die, but since we proved what a certain remedy, Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Virginia Triumphant

FADS AND FASHIONS

In the spring large black and white checks will be well in the fore.

On evening gowns large pocket bags are of real lace combined with velvet for children's wear.

Irish point and Cluny laces combine best with the cotton voiles prepared for children's wear.

On some of the loveliest evening gowns a cord outlines the high waist. This is of gold, silver, copper, or of silk with tasseled ends.

Borders are one of the chief characteristics of many of the new cotton materials, a number of which are striped and spotted.

For girls, plaids will not be as much favored as stripes and checks with material trimming.

Some of the latest girdles are very wide, six to eight inches in front and three inches less in the back.

Black velvet sashes are considered very stylish, caught with a diamond buckle, using very lightweight velvet.

The newest Dutch collar clones in the back and has a five-inch jabot over the front from the neck edge.

White hats are worn for three years as a sign of mourning, by every grown male in Corea after the death of a member of the royal family.

Silk, challies and cottons show a tendency to have supplementary border of a solid tone. An idea of the most novel effects may be gained by mentioning a new tulle of white with a scattered pattern of dull red roses and soft green foliage. The border was in Greek Key effect and beneath there appeared a band of solid black.

Tucks and frills, shirtings and elaborate embroideries and laces will figure in the pretty profusion that women find so adorable; but, wifely it all there will continue a very strict observance of "la ligne," as the French say, and after all, the line is everything.
