**Saved Child From Death.**  
"After our child had suffered from  
severe bronchial trouble for a year,"  
wrote C. T. Richardson, of Richar-  
son's Mills, Ala. "we feared it had  
consumption. It had a bad cough all  
the time. We tried many remedies  
without avail, and doctor's medicine  
seemed as useless. Finally we tried  
Dr. King's New Discovery, and are  
pleased to say that one bottle effect-  
ed a complete cure, and our child is  
again strong and healthy." For  
coughs, colds, hoarseness, laryngitis,  
asthma, croup and sore lungs, it is the  
most infallible remedy that's made.

**GLASS EYE EXPLODES;**  
**OWNER IN HOSPITAL.**  
Allentown, Pa., May 21.—With a  
report like a gun, Building Inspector  
Frank R. Miner's glass eye exploded  
this morning as he sat chatting with  
a friend. Miner fell to the floor and  
sank into unconsciousness.

A physician was called and Miner  
was rushed to the hospital, where to-  
day he was still unconscious and in  
a serious condition.  
It is feared that particles of the  
eye have penetrated his brain. He  
had worn the eye twelve years.

Local physicians say that this is  
the first accident of its kind in his-  
tory. They advance the theory that  
celluloid was substituted for glass in  
the eye and that the heat of the sun's  
rays, focussed on it by a mirror, un-  
felt by Miner, caused it to explode.

**CONGREGATION CAME  
OUT OF THE SKY**  
Topsfield, Mass., May 31.—The bal-  
loon as a means of conveyance to  
church was utilized Sunday by Chas.  
J. Glidden of Boston and J. J. Van  
Valkenburg of South Framingham in  
a journey from Lowell to this town,  
30 miles.

The aeronauts ascended at 3:30 a.  
m., and promised their friends to  
land near a church and attend Sun-  
day services. After floating before  
a west wind for an hour and a half,  
during which several photographs  
were taken of the rising sun, two  
church spires were noted below. The  
balloon was brought down and struck  
ground 300 feet from the Methodist  
Episcopal church of Topsfield.

The aeronauts waited until the  
hour of services and then joined the  
congregation.  
The pastor in his sermon referred  
to the fact that two of the congrega-  
tion had dropped from the skies.

**The Ladder  
of Progress**

What are all growing into the habit  
of referring to this era as "an age of  
mechanical invention," and nothing more  
We have the words with a pinet  
when we see these beautiful works of art  
written beautiful literature for the ben-  
efit of succeeding generations, will  
so thought of personal gain or imme-  
diate reward of fame.

Then we sigh and say again: "Yes  
this is an age of commonplace  
achievements. Art is dead, religion  
is dead, ideals destroyed. Man thinks  
only of physical comfort, personal ag-  
grandisement and mechanical pro-  
gress. We will leave nothing to the  
generations who succeed us, nothing  
to the centuries ahead but a history  
of material gain and noisy invention  
and automatic devices which de-  
stroyed man's ideals of patient toil  
for the sake of beauty and perfection."

And all this talk which one hears  
continually in Europe and more and  
more in America is rank nonsense.  
Progress climbs by many and various  
stairways.  
Some are hewn from marble, some  
are built of wood, some are iron lad-  
ders. But the climbing is continuous  
and uninterrupted.

Sometimes the stairways wind and  
seem to descend, but it is only to  
make a more direct ascent farther on.  
We are now on the ladder of iron  
and there is nothing beautiful in its  
workmanship, and its top seems to  
rest on nothing but empty air. Yet  
it is secure and safe, and is leading to  
farther heights than humanity has  
ever known before.

There have been always too great  
obstacles in the path of humanity.  
These obstacles are cruelty and  
drudgery, or perhaps it is better to  
reverse the words, since drudgery has  
perhaps led to much of the cruelty.  
As civilization advanced these ob-  
stacles grew, like monstrous snow-  
banks, gathering strength and dimen-  
sions as they were rolled along.

Civilization has led to the necessity  
for more and more drudgery for man  
and beast. Watch for an hour the  
traffic in any great city—think what  
it means. Think of the hot kitchens  
where cooks and scullery drudges toil  
through the beautiful Summer days to  
supply food to restaurants and hotels.

Think of the early morning labor-  
ers, who are up in the chill dawn of  
Winter to carry on the industries  
which give us our cream for the  
breakfast, coffee, our rolls and our  
newspapers and our warm fires for  
the morning comfort!

Think of the workers in the coal  
mines who supply our fuel, and of the  
stokers on the ships who bring us  
over seas in search of pleasure!  
Think of the truckman, and the cab-  
men, and the horses, and the engi-  
neers and firemen on the trains, and  
a thousand more toilers who are work-  
ing with might and main to keep this  
great mechanism of civilization run-  
ning!

In the olden days slaves and serfs  
performed the drudgery of the world  
for kings and barons and rulers of all  
kinds. And they were beaten or im-  
prisoned if they failed in any duty.  
Times have improved a bit since  
then, but there are still cruelty and  
wretchedness on earth.

When machinery came into the  
world's work it was looked upon as  
a demon, taking the bread from poor  
men's mouths. There are still thou-  
sands of people who so regard it, but  
it is a mistaken point of view.  
Heralds of Freedom.

The mechanical inventions of this  
age, are the advance heralds of man's  
ultimate freedom from drudgery and  
of the elimination of cruelty from the  
world.  
The people who visited Paris  
twenty years ago tell me the change  
in the condition of the cab horses  
there is marvellous. And this change  
has come about greatly through auto-  
matic inventions. So long as the cab  
was the only means of getting about,  
the city companies made no effort to  
improve conditions. The horses were  
poorly fed and cruelly driven to meet  
the public demand for transportation.

After the coming of the underground  
and surface automatic lines there was  
a slight effort at improving the cab  
service, and since the advent of the  
blessing to the world, the taximeter  
automobile, a vast improvement has  
taken place in the appearance and  
treatment of the animals. It still  
needs betterment, but that betterment  
will come. In another decade all  
transportation in our large cities will  
undoubtedly be made by automatic  
machines.

**HAIR ADVICE**

**VALUABLE TO THE FEMALE  
TUBELY GRAY-HAIRED  
PEOPLE.**  
What a pity it is to observe so  
many people with thin and faded  
hair, and then realize that the most  
of these people might have a fine,  
healthy head of hair if they would  
but use the simple "Sage Tea" of  
our grandmothers combined with  
other ingredients for restoring and  
preserving the hair. No one, young  
or old, need have gray hair, weak,  
thin or falling hair, dandruff or any  
troubles of the sort if they would  
but use Wyeth's Sage and Sulphur  
Hair Remedy. On the contrary, it is  
possible to have healthy, vigorous  
hair, of perfect color, by a few ap-  
plications of this remarkable prepara-  
tion.

Wyeth's Sage and Sulphur Hair  
Remedy quickly removes dandruff,  
leaves the scalp clean and healthy,  
restores the growth of the hair and  
restores the natural color of hair  
which has become faded or gray. It  
is a clean wholesome dressing, which  
may be used at any time and with  
perfect safety. Don't neglect your  
hair. Start to-day with Wyeth's Sage  
and Sulphur.

This preparation is offered to the  
public at fifty cents a bottle and is  
recommended and sold by

**WAS GIVEN WELCOME  
IN RALEIGH**

(Continued from 1st page.)  
and that although men have been  
trying to find out for the last two  
years what some of the schedules  
really mean, they have been unsuccess-  
ful. Aldrich, he declared, retired  
from the senate with these secrets.  
There was a great wall of secretive-  
ness between the people and the  
justice of the sugar schedule, he de-  
clared. As illustration, the control  
of money powers, he said that he had  
not known a man elected president  
who was opposed in recent years by  
the great wealth corporations.

"The money interests are closing  
their cruel hands upon the heart-  
strings of the men whose existence  
depends upon their goodwill for labor."  
He declared the reason he was on  
the warpath was to separate money-  
ed interest from control of govern-  
ment.

He declared that there was an  
agreement between the republican  
party and the interests, and in some  
states this extended to the democrat-  
ic party, which fed for crumbs at the  
feet of the republicans, notably in  
Pennsylvania.

Governor Wilson believed that evil  
doers should be read out in the open  
and made to bear the sting, the hell  
of public scrutiny.

**Do Ghosts Haunt Swamps?**  
No, Never. Its foolish to fear a  
fancied evil, when there are real and  
deadly perils to guard against in  
swamps and marshes, boyons, and  
lowlands. These are the malaria  
germs that cause ague, chills and fe-  
ver, weakness, aches in the bones and  
muscles and may induce deadly ty-  
phoid. But Electric Bitters destroys  
and casts out these vicious germs  
from the blood. "Three bottles drove  
all the malaria from my system,"  
wrote Wm. Fretwell, of Lucama, N.  
C., "and I've had fine health ever  
since." Use this safe, sure remedy  
only 50c at Hardy's Drug Store.

**IT'S YOUR KIDNEYS.**  
Troubles: A Washington Citizen  
Shows How to Cure Them.  
Many people never suspect their  
kidneys. If suffering from a lame,  
weak or aching back they think that  
it is only a muscular weakness; when  
kidney trouble sets in they think  
it will soon correct itself. And so it  
is with all the other symptoms of  
kidney disorders. That is just where  
the danger lies. You must cure these  
troubles or they may lead to more  
serious ones. The best remedy to  
use is Doan's Kidney Pills. It cures  
all fits which are caused by weak or  
diseased kidneys. Washington peo-  
ple testify to permanent cures.
