TO THE COTTON GROWERS OF THE SOUTH

I feel it proper and advisable in me as the one who should be best informed as to probable results to be expected under the "Rock Hill Plan" movement for reduction of cotton acreage, to sound a final warning to everyone who has signed the "Rock Hill Plan" pledge to adhere strictly to it not only as a matter of personal honor, but for the sake of his own direct gain and protection.

With equal emphasis I would urge all in their own interest, who have not been reached by Rock Hill plan canvassers, or who have declined to sign the pledge, to cut the acreage and cut it deep. My opinion of the judgment of the man who will increase his acreage this year is not flattering.

Planting time is about on throughout the belt, and the Rock Hill plan is being closed up in several states with an unusually late spring prevailing generally over the belt. The movement of fertilizer has gotten a tardy start, but has put on a mighty rail recently.

Those who look to a late spring the noise of fertilizer reduction, or to the other fellow doing the reducing—to any combination of these—to protect them against low prices—are apt to be the ones to suffer.

The only safe course in the present crisis is to cut the acreage and cut it deep. The spring of 1897 is said to be the latest on record. The number of acres planted that year exceeded 1896 by 1,046, 375, and the number of bales produced exceeded 1896, by 2,400,000 with the result that prices were low during the fall of 1897. If we are to take 1897 as an example, it will not do to depend on bad weather doing the work.

We have a four million bale surplus hanging over our heads. Important to foreign spinners who bought at last fall's low prices this fall. Mill labor unrest and worldwide coal troubles further militate against. To play the game properly we should not make more than 12,000,000 bales this year. The courage of those who flinch with this condition is wonderful, but their judgment would not do to describe for publication.

Let the cry be, "cut the acreage and cut it deep." Corn can be planted as late as July 1st, and the farmer will be a great deal better off, if he raises less cotton and more corn, for in the end he will get as much for a small crop as he would if he ment would not do to describe for will have his corn clear.

Which is Better—Try an Experiment or Profit by a Washington Citizen's Experience.

Something new is an experiment. Must be proved to be as representative.

The statement of a manufacturer is not convincing proof of merit.

But the endorsement of friends is. Now supposing you had a bad back. A lame, weak, or aching one. Would you experiment on it? You will read of many so-called cures.

Endorsed by strangers from far-away places.

It's different when the endorsement comes from home.

Easy to prove local testimony.

Home endorsement is the proof that backs every box of Doan's Kidney Pills.

Read this case.

Mrs. I. E. Everett, 132 Brown St., Washington, N. C., says: "About a year ago I used Doan's Kidney Pills for a lame and aching back. My kidneys were weak, the kidney secretions bothered me and other symptoms of kidney complaint were in evidence. Doan's Kidney Pills improved my condition greatly."

FUNGO

The farmers seem to appreciate the very nice weather that we have been having for the last few weeks.

The Rev. Frank Linton filed his regular appointment at this place Saturday night, Sunday and Sunday night.

Mr. J. S. Respass has recently purchased a fine horse. Mr. L. A. Harris also purchased one a few days ago.

Quite a crowd of young folks took a walk up the railroad to where Mr. B. E. Rice of Norfolk is having some farming land cleared and fenced. All seemed to enjoy themselves very much.

Doubtless the many friends of the deaf and dumb man known as Bill Lee will be glad to hear that he has gone to his folks at Rose Hill, Va. He has been at this place for four or five years and was liked by every body. It is said that he was robbed of his money at one time about 6 years ago when he was away from home and not being able to read and write he couldn't get back to his people. So consequently he has wandered about from place to place until he came to this place about four or five years ago, he has been under the employ of Mr. W. D. Morrison ever since he came here and was boarding at Mr. W. T. Whites. When Mrs. White advertised him in the Toledo Blade and soon got up correspondence with his father who at once came for him and took him home. His real name is Bobie Lovings but, he went by the name of Bill Lee down here.

To Mrs. White is due many thanks and praises for her kind assistance to Mr. Lovings.

JAKEVILLE ATOMS

It is beginning to look like fairyland now "In the Shade of the Old Apple Tree."

Three or four readers say they sat up till mid-night for two nights looking on the map trying to find Jakeville and haven't found it yet. Brethren, we fear you are looking too far from home.

The Jakeville Atmoller attended a pound party at Lookout Cross Roads last Wednesday night. On his way there he unfortunately fell into one of Beaufort County's official mud-holes. When he got there the master of ceremonies sent him out to the back yard to scrape the mud off of his brogans.

Miss Patty Fennypacker has purchased a new, down-to-date hobble skirt. It has one more hobble-tuck than her old one. The other Jakeville girls are all crazy for one just like it.

Mr. Jake Longley called last Saturday night on his best girl, Miss Ethelbergia McFarrington. Jake and old man McFarrington sat and talked about seed corn, yam potatoes, beans, "Ketching" coons, and so forth, until half past eleven. Miss Ethelbergia sat up and listened until she got to nodding and fell out of her chair. At this juncture Jake decided it was time to go and immediately departed.

Thanks to recent geographical explorations a lake has been discovered in the immediate vicinity of Jakeville. It is located at Dogground Cross Roads. The lake has swallowed a big chunk of the public road at this point. The explorers named the place "Land's End." The waters of the lake are of a beautiful thick-cream color with now and then a tint of green. The banks are of a lovely, red clay color, but so unbroken and perpendicular that all the buffaloes have been obliged to limber up at a local gymnasium.

The Jakeville farmers are busy hauling guano. Jake Handy calls it "goanner." The Jakeville school teacher has been trying to set Jake right on the word, but Jake says he was educated in the old school and brought up in the way he should go, and now he is old and not going to depart from it.

The librarian of the Jakeville Battered Association has added some new books; viz., "Burning Corn-stalks for profit," "Growing Rich by Growing Ten Cent Cotton," "Theory and Practice of Hobble-skirt culture."
