A good many of us have stood on the cliffs that border the ocean and have seen the mighty waves lash themselves into fury and dash against the cliffs with mighty force. It is an awe impiring spectacle but we must remember that all terrest-rial heights and depths are measured from the calm level of the sea and not from billows. Thus and from the calm level of the sea and low remembrance sake. The deceans not from billows. Thus, it means that the verdict of the people is being made by the calm firesides of Small and two brothers, Thomas P. Semsible citizens of this Nation and Wharton, of this city and D. They all have come to the conclusion, regardless of party, that neither one of these men can be elected to the Presidency if they are nominated at Chicago.

Whilst this conclusion is very didential primary less than 56 per section of the property of

Gordian knot in the Republican controversy.

With all these conflicting opinions from the leaders in both parties to whom I have talked, I hesitate before the Republican National Convention to predict anything. However, it seems to me as an old fashioned politician and politicial writer and a looker on in Vienna, so to speak, that it makes no difference who carries the State of Ohio and this letter's written before the Ohio primaries, as to the final outcome of the campaign. My opinion is that if the Taft leaders and the members of the National Republican Committee have a sufficiently stronghold on their own delegates, that Mr. Taft probably will have enough votes on the first ballot. If the former condition should prevail in the Convention and the Roosevelt leaders know that it is inevitable that Mr. Taft is going to be nominated, they will bolt the Convention, hold a Convention of their swand nominate Roosevelt on the plea that he has been swindled out of the nomination by the steam rolling to the process of the present administration and nominate Roosevelt on the plea that he has been swindled out of the nomination by the steam rolling the process of the present administra-

then Thomas Jefferson's opinion of the honesty of the people of this country who vote at the polls, will have been declared a fallacy that statesman is a successful politician the American electorate is not worwho is deed. That is the definition of a statesman that was given by understand Republican institutions, the late. Thomas B. Reed of Maine are unfit to govern themselves and the late. Thomas B. Reed of Maine who was one of the smartest men I ever knew in my life. Whilst that may be true in a general sense. I want to say that there are a few statesman in the National Capital at this day who are not dead. I have talked not only with those statesmen, both Republicans and Democrate but with politicians in Contrate but with politicians

nated at Chicago.

Whilst this conclusion is very gratifying to the Democrats, it is correspondingly distasteful and worrying to the Republicans. They are all boping, that is the Republicans, that a deadlock in the Chicago Convention will ensue and that neither of them will be nominated and that a dark horse, without regard to any particular individual, may be the Republican nominee and thus cut the Gordian knot in the Republican controversy.

State Roosevelt has carried in a Presidential primary less than 50 per cent? State has been polled for both him and Tatt. What became of the other 50 per cent?
