Oh, How I Itched!

What long nerve-racking days of constant torture—what sleepless nights of restless agony—itch—itch—itch, constant that until it seemed that I must tear off my very skin—then—

Embalm relief—my skin cooled, soothed and healed.

The very first boxes of D.D.D. Prescription for Eczema stopped that awful itching instantly, yes, the very moment I had obtained the burning skin the torture ceased. A little bottle proves it.

D.D.D. has been known for years as the only absolutely reliable eczema remedy. For it washes away the disease germs and leaves the skin as clear and healthy as that of a child.

All other directions have D.D.D. Prescription—get it where it you can't come to us—but don't accept some big profit substitute.

See if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee—if you do not find that it takes away the itch AT ONCE, it costs you not a cent.

CARDUI WORKED LIKE A CHARM

After Operation Failed to Help, Cardui Worked Like a Charm.

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer.

I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die.

At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pain.

Cardui worked like a charm."

There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been successful use for more than 50 years, for the treatment of womanly weakness and disease.

Please try it, for your troubles.

Wonderful Curiosity.

On the banks of the Willamette river, a short distance above Portland, Ore., stands one of the most remarkable rocks in the world. It is known as the Balancing Rock. Rising from a broad base is a small column, roughly round in shape. Just above this is a huge mass of rock, bearing a tree on the summit, the total height of rock and column being about 100 feet. Although a great deal larger and heavier than the pillar on which it stands, the big rock is very accurately balanced. For how many centuries this odd freak has stood not even the wisest scientists are able to determine, but it has evidently been there for a very long period. The entire rock is of a volcanic nature, and the most singular thing about it is the fact that the knob and pillar are entirely disjointed from one another. Wind and weather, no doubt, are slowly wearing the Balancing rock away, but the process is so imperceptible that, failing some unforeseen catastrophe, the monument will probably endure for many centuries.

Store Enthusiasm.

My son, we should lay up a stock of absurd enthusiasms in our youth or else we shall reach the end of our journey with an empty heart, for we lose a great many of them by the way.—Victor Cherbuliez.

Marjorie's little battle threw the desperado off his balance a trifle; as he recovered, Mallory struck him, and swept him on over against the back of a seat. At the same instant, Mallory's right hand went like lightning to the trigger guard, and gripped the fingers in a vise of steel, while he drove the man's elbow back against his side. Mallory's left hand, meanwhile, struck the desperado's neck, and gave him a spinning fall that sent

CHAPTER XL

A Hero in Spite of Himself.

Passion sent Mallory into the unequal fight with two armed and desperate outlaws. But reason had planned the way. He had been studying the robber all the time, as if the villain were a war-movie, studying his gestures, his way of turning, and how he held the revolver. He had noted that the man, as he frisked the passengers, did not keep his finger on the trigger, but on the guard.

THE HOLD-UP.

THE HUB

The Home of Good Clothes.

Gradually resumed military law, recalled the artillery from the conductor's very midst, and remembering Manila, smiled:

"You may fire when ready, conductor."

The conductor's rage had cooled, and he slapped the bridge over the back with one hand, as he pulled the cord with the other. The train began to creep and tug and shift. The din of the bell floated murmuringly back as from a lofty steep, and the clickety-click, clickety-click quickened and softened into a pleasant gossip, as the speed grew, and the way was so smooth for the wheels that they seemed to be spinning on rails of velvet.

THE END.

"Reg-Time" a Mixture.

The origin of "reg-time" is traced directly to the American negroes, yet the rhythmic peculiarities of "reg-time" are also characteristic of Indian music.

Vanderbilt Gets a Tip.

There are a lot of stories told of that famous amateur, wily, Alfred Vanderbilt, who has gone again taken to himself a wife. On one occasion he had an amazing experience while driving his coach between London and Brighton. At one stopping place an American approached him and handed him a substantial "tip." "I touched my hat in customary style," said Mr. Vanderbilt afterwards, "took the money and put it in my pocket, and I think I had the better of him. I don't know whether this particular American intended it as a snub because I was a coachman or because he didn't know me; let us give him the benefit of the doubt—either way it's good enough." Mr. Vanderbilt, by the way, inherited \$50,000,000 from his father, the late Cornelius Vanderbilt. He owns over 100 British horses and considers coaching "the finest sport in the world."—London Tatler.
