An inventor has produced an apparatus for broiling 700 steaks in six minutes. It is, however, useless unless one can dynamite a bank safe.

A bird in New York robbed a woman of her feather torn from her hat by the wind. If ever there was a case of retributive justice, this was one.

The reason why a ship is called "she" appears to be because the ship is always alleged to be "the last word in naval construction" and never turns out to be.

A New York couple waited eight years before they were joined in the holy and everlasting bonds of wedlock. Plenty of time to think about the fatal step.

A Chicago citizen has been arrested for dancing on the street in a costume consisting of nothing but a hat. Chicago policemen never did care for classic dancing.

There are too many idle men in the world, announces a Boston suffragist. Here's a challenge to the average splinter who has been thinking that there aren't enough.

And now the peanut crop is threatened by a parasite. The country may have to drop politics for a while and turn its attention to the succor of this necessity of life.

An Ohio farmer is said to have recovered from an attack of blindness when two of his teeth were extracted, but it probably was the dentist's bill that opened his eyes.

An aviator claims that he was forced to descend by an attack of seasickness, but if he had been a real dyed in the wool nature faker he would have made it flying fish.

It is contended by an eminent German investigator that American schools have a tendency toward femininity. He may have seen some of our boys crocheting tides.

It would be some improvement if a number of the New York summer resort hotels would use the leftover fourteen-foot primary ballots for bed sheets during the coming season.

**Acknowledge It.**  
 Washington Has to Bow to the Inevitable—Scores of Endorsements Prove It.

After reading the public statement of this fellow-sufferer given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:  
 R. A. Henderson, 156 George St., New Bern, N. C., says: "I suffered from a dull pain across my loins, accompanied by an extreme lameness in my back. I also had inflammation of the bladder and the passages of the kidney secretions pained me. The use of Doan's Kidney Pills removed the lameness and pain and improved my condition in every way." (Statement given January 25, 1908.)

**CONFIRMED PROOF.**  
 Mr. Henderson was interviewed on November 28, 1910, and he said: "I willingly verify my former endorsement of Doan's Kidney Pills, for I have been free from backache and kidney complaint since I took this remedy. You are welcome to continue the publication of my statement."  
 For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.  
 Remember the name—Doan's—and take no other.

**SOCIETY**  
**PERSONALS.**  
 Miss Madge Kernett, of Chapel Hill N. C., who has been the guest of Miss Rena Harding left for her home this morning. She was accompanied by Miss Harding.

Mr. J. K. Doughton, cashier of the Bank of Washington, returned from a business trip to Raleigh last night.

Mr. H. S. Williams, of Norfolk, is registered at Hotel Louise.

Mr. R. E. Hyatt, of Tarboro, N. C., is here today on business.

Mr. S. Mitchell, of Oxford, N. C., arrived in the city last night.

Mr. O. M. Hooker, a prominent citizen of Aurora, N. C., was a guest at Hotel Louise last evening.

**GREAT IMPROVEMENT**  
 The razing of the old store building at the corner of Main and Bridge Streets is a considerable improvement.

**STORE BUILDING REPAIRED**  
 Mr. Edward Long is having the store building on Main Street occupied by Miss Hattie Henby as millinery store, repaired and improved.

Certain dreamers talk about the millennium, but it will only come when baseball fans take the word of the umpire without a murmur.

**Farmers' Educational and Co-Operative Union of America**  
**Number 1 Special Moment to the Progressive Agriculturist**

There is nothing so very comfortable as a blanket mortgage.

Co-operation is the application of common sense to the doing of things.

The cure for our social ills is more good common sense, applied right at home.

Nobody mistakes the stubbornness of a balky horse for strength of character.

Everybody works on the farm; even the harrow is obliged to scratch for a living.

Some folks seem to think that a display of backbones demands a show of bristles.

It takes a big man to leave any noticeable gap in the ranks when he drops out.

The aviator cannot follow his vocation any time at all without being up in the air.

You cannot bring fortune your way by kicking nor win the smiles of the fair, either.

The sheriff may not be a popular man, but there are times when he is irresistible.

The unhappy individual who was rooted to the spot soon had his feelings harrowed.

The man who sticks to the work, despite the dark days, is the man who comes out ahead.

Too many young people depend upon their parents' earnings taking them through the world.

Beware of the man whose dog crawls under the house when its master enters the gate.

A western sheep pasture is like the knowledge of the all-round man, in that it covers a wide range.

The rooster may flatter himself that he makes all the noise, but it is the hen that produces the goods.

Some men think, as a harness farm in disgust because they never tried to study out some crop, grass or fruit that would suit the soil.

Some men have had so many lawsuits that they feel well versed in jurisprudence, however lacking they may be in ordinary prudence.

**WORKING OF COUNTRY CLUBS**  
 Numberless Co-Operative Associations Operating as Corporate Bodies Doing Much Good.

The importance of clubs for seed growing and other country effort does not always appeal to those few individuals that are able to do their best without any speeding up to carry on a life work in great research without the spur of competition. It is just such people, however, who can lend a great deal of aid in providing community effort if only their modesty will allow them to realize how very difficult it is to the average person to keep up the fight without some measure of their progression. The good boys and girls so often lost from the farms, where they are needed, find in the city every step in their advance pointed by those over them, and receive a somewhat better position or increased wages, whereas out of town the progress is gradual and not distinctly marked.

A large number of people succeed in town because they need only a few qualities to fit a particular job, their line of work is mapped out for them so closely that they can hardly ever fall except they are lazy, and this trait is much less apt to develop under continued oversight than where a man is his own boss from day to day.

I do not believe that it is the winning of a cup or even the appreciation of his efforts by his fellows that gives the great incentive to either boy or girl to solve country problems, but the feeling that he or she is part of a body whose collective force is found to count for much in their community and that every year will bring some improvement in conditions and surroundings which will make country life fuller and better worth living than town life under present conditions can be, except for the very few who can greatly excel the average. No amount of preaching will keep ambitious boys and girls in a stagnant community town or country. The way to hold them is to create a live organization of which they will become a part, to realize their needs as young growing people who are going to make history either in town or country, and not at all willing to accept an outworn condition that satisfied a prior generation.

The fact that combinations of money and brains have often been used for purposes of oppression, does not alter the fact that they are effective and that co-operation must come to the country, as to the town. If it is to have its share in progress, co-operative work does not necessarily mean running a store any more than corporate work means squeezing the life blood out of producer and consumer, though these words have come to have somewhat that meaning, such organizations usually being formed for offense and defense; on the other hand, there are numberless co-operative associations operating as corporate bodies which are of the greatest help and are far more easily developed in country than in town.

**CHARLES S. BARRETT,**  
 Union City, Ga.

A Chicago pastor refuses to marry couples who are not physically sound, but we presume he winks at leprosy cases.

King George's doctor says that Chicago is a pretty place. Anyway, most of the campaign portraits have come down.

Japanese children, it is said, are taught to write with both hands. It takes a halfhearted man to master that last word.

**FARMERS' UNION / HIGH TIDE**  
 Quitter Indicts Himself as Less Than Man and Works Injustice to Himself and Children.

To the Officers and Members of the Farmers' Union:

Peter, who denied Christ thrice, was one of the greatest "quitters" in all history. But he repented. And his noble statement is one of the finest chapters in the story of Christianity, standing forever as a sublime lesson to the great tribes of "quitters."

There are plenty in the Farmers' Union who belong to that tribe. I want to say a few words of brotherly admonition to them. For with the organization stronger than at any time since its founding, it grieves me to see a few short-sighted farmers out themselves off from its advantages.

It may be that you quit because the order didn't revolutionize the earth a month after you joined. You forget that tremendous results are accomplished slowly, that it took ages for the little coral polyps to build up the state of Florida, and big islands by piling their bodies one on top of the other.

It may be that you quit because, when you entered the organization, you were full of steam and ginger and spent it all in the first few local meetings without setting the brethren on fire. Steam and ginger are good things—indispensable things—but they ought to be nursed carefully and distributed gradually as you go along. If you gush out all your enthusiasm in one grand spasm you won't have any left to meet the big tasks and ordeals that are inseparable from an organization of this national scope and unprecedented nature.

It may be that you quit because you had a little streak of crookedness in you, and saw you could go back on the organization, or on some one of its enterprises, and get a trifling mess of pottage for your treachery. Benedict Arnold figured it out the same way. He got his pottage, all right. But he died the most execrated man in America, the man most held in contempt in England, which had bought him, and there were no loving, respectful hands to smooth his pillow as he passed away in that lonely London attic.

It may be that you quit because you found some devilry in the organization, many specks of rottenness, graft here and there, incompetence, selfishness on the part of leaders, a tendency to play the organization for their political advantage. All these things have happened in the Farmers' Union. Nobody with any sense or candor denies that. They have also happened in all the churches, in all the secret orders, in all business, in every feature of private life. You don't lay down and die when you find any one of these weaknesses in one or more of these places. But just because it crops up in a farmers' organization—which is made up of fallible human beings—you want to kick right out. I tell you right now that joining the Farmers' Union doesn't make a man automatically an angel. We have just as many devils as any body of similar size. You needn't be surprised when you find them in your immediate vicinity. If you desert because you do find them, instead of jumping into the ranks and helping either to cure them or eject them, you ought to be ashamed to look your wife in the face.

I look at the hundreds of thousands of faithful members who have plodded along with the long, hard, patient pull—enduring, fighting and seeing just the evils you see—and then regard you with a feeling blended of contempt and pity and a longing to reason you out of your folly. It isn't the Farmers' Union for some fancied or real grievance—and there are plenty of the latter—doesn't deserve any higher place in human estimation than the buzzards who proved crows on the Titanic.

The deserter is everywhere held in loathing. He is about the lowest creature under God's sun. The coward who flinches in the face of danger or inconvenience is no better. You all know how the world feels toward the few men who showed the white feather or when the big Titanic went down? Well, the fellow who deserts the craft of the Farmers' Union for some fancied or real grievance—and there are plenty of the latter—doesn't deserve any higher place in human estimation than the buzzards who proved crows on the Titanic.

Come back, you quitters. Study the story of Peter, of Benedict Arnold, of all the great quitters. In Peter's case the quitter who recovered his nerve and manhood did more valiant service than many of those who had never dreamed of deserting. You can do the same. There is a nobler work on the Almighty's footstool than sacrifice and labor for one's fellows—work and sacrifice when it seems that neither is to count for much, when ingratitude looks like your main reward and when you are tempted to take the easy instead of the hard road. But bear in mind we are engaged in the holiest work in civilization's history—the effort to bring into his rights and his full man's stature the farmer, that member of the race who has suffered most from neglect and from misunderstanding, frequently from the aversion of his own fellows, not to mention outsiders. Are you going to stop sulking and help us in a movement that promises to be one of the greatest achievements America will ever give the world?

**CHARLES S. BARRETT,**  
 Union City, Ga.

The price of gasoline has gone up as well as the price of hay. This is where the auto has nothing on the horse.

Amateur gardeners should be informed that it is not necessary to plant string beans to the music of mandolins.

According to a fashion authority, styles in women's hats this year are to be "more sensible." Going to raise garden truck to them?

**The Size of An Account**  
 does not affect the courteous attention which it receives at this bank. We have a large number of customers who deposit small amounts, and their business is carefully and confidentially handled. It is our desire to treat everybody with uniform courtesy and to render the very best service. Your account is invited.

Against Fire pronounced the BEST by 150 doctors and by every visiting Party. Average Gain of 12 pounds term of entrance accounts for our Children, Parents and our People. Military, to help in making Men of Boys. Box 75

**ROASTING**  
 There is a difference between meat roasted in a GAS oven and that by any other method.  
 "The lower oven is used for all roasting purposes and broiling, the upper oven for baking purposes; both ovens being heated at the same time, and with the same flame."  
 The oven must be heated previous to roasting, the same as for broiling—ten minutes full heat. Turn meat frequently (leaving door open) until each side is seared. Then place roast lower down in the oven, add seasonings and begin basting with the fat which drips into the pan. The oven flame may also be reduced, and as a rule the meat burner will do all the work after the preliminary basting of the surface. Red meats so roasted taste more like the old-fashioned roast before an open fire, than when cooked in any other manner. Not a drop of water is required for basting if there be a proper amount of fat, and the heat be moderate after basting is begun.  
 Just try a roast on your GAS Range and following all the in struction and you will have the finest piece of roast beef you ever tasted.  
**Washington Light & Water Co.**  
 W. Main Street Washington, N. C.
