THURSDAY, AUGUST 1, 1912

A machine has been perfected by which the three dollar investor draws out five dollars. It's a fine machine, but the inventor has been arrested.

"A man," says a Louisville physician, "can stand more suffering than a woman." Has a man ever tried to wear a No. 4 shoe on a No. 6 foot?

The Bostonian who fasted thirty days showed great fortitude but little civic pride. No true Bostonian would think of going thirty days without his beans.

Very likely some high-browed scientist or the future will proclaim the usefulness of the housefly, but that need not disturb the present swatting campaign.

Any American boy may become president. But considering that a pre-convention campaign is necessary nowadays, probably not so many of them want to be.

It is a wise man who urges his friends to move into the suburbs; for then he may visit them and enjoy all the pleasures and delights of suburban life without any expense other than car fare.

"Mustaches," says a well known barber, "are coming back into style. First call for soup strainers."

"Ragtime is dying out," says a musical journal. If so, it is dying a horrible and lingering death.

A Boston man stole his wife's clothes the day their divorce trial was to come up. She won her suit.

"Lifeboats occupy too much space," said a shipbuilder recently. Volumes may be written on that remark.

New York's latest delicacy is pen guin eggs, all the way from the south pole.

The modern youngster would rather have a baseball pass that be president.

The increase of warmth in the atmosphere has been quite convincingly accounted for.

All that China wants to borrow just now is \$300,000,000. Have you so much change about you?

Michigan telephone girls complain that the instruments they wear cause corns to form on their ears.

An Ohio farmer has recovered his eyesight by the extraction of two of his teeth. Eye teeth, probably.

By breaking his own leg a motorcyclist has reversed the usual order of breaking other people's bones.

A Chicago judge rules that while a husband is competent to pay for his wife's debts, he is not competent to select them.

A Yale professor tells us that it is impossible to live on less than \$1,000 a year, and yet several of our citizens manage to drag out their existence on less than that.

A Chicago theater owner has wedded his cashier. The only difference between her and other wives is that she had the job before marriage as well as after.

A Nebraska farmer lays claim to a hen that has laid 1,000 eggs in three years. Another argument in favor of substituting the hen for the eagle as our national bird.

Your Physician Will Tell You
"About three fourths of the nourishment of the body is furnished by the oxygen taken in with the air breathed."
And What Do You Think of That?
If three fourths of the nourishment of the body comes from the air we breathe shouldn't a greater premium be placed upon Fresh, Pure, Dust free air?
Your Physician Will Tell You
"Large bodies of running water are our greatest air purifiers."
THEN
As three fourths of the nourishment of the body is furnished by oxygen taken in with the air breathed and large bodies of water are the greatest air purifiers with other sanitary conditions being equal doesn't the prospectus of WASHINGTON PARK promise the greatest essentials to a very healthy vigorous and ideal life?
When parents attempt to raise children where the air is dusty and impure, no matter how nourishing the food, they are often disappointed.
When proper foods are given the child living amid pure, strengthening air they develop brains and constitution sufficient to support their brain to any degree of taxation, so developing their latent talents that they may some day command a position of great moment in the eyes of the nation.
DON'T YOU IGNORE the great and all important health advantages of WASHINGTON PARK just because it is not right at the business center of town, for, as sure as you do, your poorly nourished, sickly family will cause you much worry and trouble.

A. C. HATHAWAY.

Know Paint
There's a paint education in this advertisement.
Buy by the job, not gallon. Buy by the paint put-on; that's the job.
The price of paint is so much a gallon that can't be helped, but amounts to nothing.
The price of painting is so much a day that can't be helped, but amounts to nothing.
Put them together. How can you do it? You've got to or lose perhaps half of your money.
Devoe 10 gallons enough for the average job; an average paint, 15. Now reckon your costs. Count labor a day for a gallon. Devoe 10 days, the other 15.
Devoe about \$50; the average paint about \$70 or \$80; the dearer the labor the bigger the difference, always that way.
But that's for the job. How long is it going to last? One twice as long as the other.

FOR SHERIFF
I hereby announce myself a candidate before the Democratic Primaries for the Office of Sheriff of Beaufort County. I will appreciate any support that my friends may give me.
W. W. HOOKER.

FOR SHERIFF
To the Democratic voters of Beaufort County:
I wish to express to you my sincere thanks for your loyal support in the past, and, if I have made an efficient officer and a faithful servant of the people, to ask your continued support in the County Primaries which will be announced later; and if I am nominated and elected, (and I see no reason why I shall not be), I can only promise to do as I have in the past, all in my power to give you good service. Now I wish to thank you in advance and ask all good Democrats to attend the primaries and give me their hearty support for Sheriff of Beaufort County.
Faithfully, Your Servant,
GEO. E. RICKS.
