ROOSEVELT'S WOUND IS PRONOUNCED AS SERIOUS

The Ex-President May Recover Within Two Weeks the Surgeons Say. His Wound in the Chest and a Severe One.

Chicago, Ill., Oct. 16.—The following official statement was issued by the surgeons attending Col. Roosevelt:

"Colonel Roosevelt's hurt is a deep bullet wound in the chest. The wound was not probed. The point of entrance was to the right of and an inch below the level of the right nipple. The range of the bullet was upward and inward, distance of four inches deeply in the chest wall. There was no evidence of the bullet penetrating the chest wall. Pulse 90; temperature 99.2; respiration 20; leucocytes count 32 at 11 a. m. No operation to remove bullet is indicated at present time. Condition hopeful but wound so important as to demand absolute rest for a number of days.

(Signed) DR. JOHN B. MURPHY, DR. SCURRY L. TERRELL, DR. ARTHUR B. BEVAN, DR. H. J. SAYLOR.

Medical men when shown the official statement issued by the surgeons attending Colonel Roosevelt seemed to think conditions most favorable.

Chicago, Oct. 16.—Col. Roosevelt's wound is not a mere flesh wound, but is a serious wound in the chest, said the bulletin issued this afternoon by physicians at Mercy Hospital.

Chicago, Ill., Oct. 16.—Col. Theodore Roosevelt, shot by John Schrank, an assassin, in Milwaukee, Wis. today in Mercy Hospital "resting easy."

Half a dozen of the most noted and skilled surgeons in Chicago, led by Dr. John B. Murphy, made X-ray examinations of the Colonel's wound,

and announced that the bullet did not pierce the lung, but had lodged in the chest. They have not planned to operate today.

Schrank was taken to the District Court in Milwaukee yesterday morning for preliminary examination.

The action was taken on recommendation of District Attorney Zabol, who issued a warrant charging Schrank with shooting Col. Roosevelt with intent to kill.

Judge Neelen announced that this action was taken to determine immediately if the bullet which entered Colonel Roosevelt's body had been poisoned. The Judge said that his action was prompted by memories of the bullet which killed President McKinley and also by a personal desire to give the surgeons at Chicago every personal aid in treating Colonel Roosevelt's wound.

Eager for news of the Colonel's condition a large crowd gathered in front of the hospital soon after the Presidential candidate entered. In spite of its size the throng was quiet.

Managers for Colonel Roosevelt announced early in the day that all plans for continuing his campaign had been cancelled. Even his private car, which he has used since the start of his trip has been released.

Medical men after reading the official statements issued by surgeons attending the former President were of the opinion that he would be able to leave the hospital within 48 or 72 days. With the bullet removed they said, the Colonel would require absolute rest for that period to insure speedy recovery.

We, the grand jury for October term, beg to submit the following report:

We have finished the duties assigned to us by the court so far as it has been possible to do so. All the bills have been passed upon and returned and we have examined the Court House and Jail in a body and appointed A. S. Boyd, Charles C. Harris, G. W. Jarvis, and B. F. Jones, to visit and examine the county home, the Court House, and Jail, and we find all kept in so good a condition as circumstances will permit and all prisoners claim to be well fed and properly cared for. The Sheriff, Register and Clerks officers are well kept. A committee consisting of E. H. Jefferson, W. J. Austin, and John T. Hill were appointed to see if the records of the county had made their proper returns and they find that Mr. Hooker, of Aurora; Mr. Leigh, of Belhaven; and Mr. Grimes, of Washington, have all reported up to date.

Wilson Stands For a Principle— Will You Stand By Him?

Woodrow Wilson is a vastly different order of man than you find among the ranks of many good men in practical political life. Woodrow Wilson is not among the great majority of politicians and business men, otherwise estimable characters, who believe that the end justifies the means, who are honest in a commercial or political sense. The candidate of the progressive voters of the country not only does not believe in the doctrine of "anything to win," but he insists on plain old fashioned honesty in every detail of his campaign.

No Tainted Money For Wilson

Not a dollar of questionable money will be spent to elect Woodrow Wilson. The Democratic National Committee is heart and soul in accord with the candidate's views. And the corrupting influences, with no political faith, coming about to win a foothold in the new government with bribes of ill-gotten gains, have despaired of reaching Wilson or his campaign.

What the American People Need to Know

The people have constantly made the mistake of believing that this is a money-ridden nation. Such is only the case insofar as the People fail to get together and so permit the few to control the dishonest representatives they, by mistake, elect to office.

The People to Fight With THEIR Dollars

This year a popular president is to be elected with the People's money. The Woodrow Wilson Campaign Fund is to be collected from the rank and file of the Progressive Voters of the country.

We Solicit Popular Subscriptions—Can You Give From \$1 to \$20?

Of course, you can—and you are glad to support the cause in this way. Practically every voter can afford to give \$1 to aid the Wilson Campaign. A great many can give \$2. A great many can give \$5. And there are less than 100,000 progressive voters who will be eager to donate from \$10 to \$20.

Get Club Subscriptions

If you know many Wilson men, if you work among many Wilson men, head a list with your name and money and get the others to join you with their subscriptions.

How to Contribute to the Wilson Campaign Fund

Send your money to the Wilson Campaign Fund, 600 Michigan Avenue, Chicago, Ill.

IN INTEREST OF FAKERS

Theodore Rex Promises to Shield Them Against Discrimination by Educated Physicians.

The political tentacles of the third term candidate have been extended in every direction from which might be gathered voters irrespective of sex, race, color or previous condition of all vocations, factions and trades into the Progressive fold.

These legislative enactments require all persons who profess to become physicians not only to pursue a more or less thorough course of preparatory education, but also to be trained in all branches of medicine and besides, to be subject to a rigid examination by appointees of the state.

NEW YORK GIANTS MASTERS OF RED SOX BY A SCORE OF 4 TO 11 IN BOSTON

ACCIDENT AT CHOCOWINY NEAR COSTING A LIFE

At Chocowiny Junction yesterday there was an accident which came near costing the life of a negro man, C. M. A. Dawson, of Grifton, N. C.

There was a large crowd of negroes at the station waiting for the train from New Bern. They were standing all along the track when the train blew and the conductor of the train from Raleigh went in front of the crowd and forced them off the track and out of danger.

He had pushed Dawson out of the way and passed on down the line and the negro deliberately walked out on the track and stood there while the train was approaching, notwithstanding the fact that people were calling to him to get off the track, he stood there until the train was almost upon him.

Then he jumped, but, too late to clear the beam on the engine, which struck him, breaking his leg and possibly other injuries. He received treatment at the Washington Hospital and will probably recover.

MRS. BROOKS BETTER. The condition of Mrs. E. L. Brooks, who was recently operated on at the Washington Hospital, is reported to be better today. This will be hailed with pleasure by her many friends.

WHAT WILL CITY DO?

(EDITORIAL) Washington, N. C. is 138 years old. Old enough to have had many opportunities to be thrice the present size.

Can it be that Washington, hitherto had opportunities to gain enterprises which would have caused her to rapidly gain population and wealth, or.

Is it that the citizens, after learning of an enterprise that may be secured fall to put forward an effort to take advantage of the opportunity which passes on to some other growing town.

Each passing generation is only responsible for progress or lack of progress as their day affords. Today is our day. What will we leave as a monument to the coming generation?

The present generation heard of a school which by a liberal gift on the towns part, induced those in charge to locate at Washington. That's a fine start. But why he satisfied with a school, why not strive for something else, why not make an effort for the Domestic Science College which, in all probability, will help to quickly cause the school to grow into a great and prominent college, the greatest in Eastern North Carolina.

This will give Washington the lead and when once in the lead, it easier to keep ahead, provided the people are not too easily satisfied. A satisfied people are a backward people, they degenerate.

The folks who are ambitious that their town excels are wide awake and hustling. Greenville has her tobacco enterprises, those folks get the start on other towns and are leaving no stone unturned to keep their start. Tobacco helped them to dare for the Training School for which they paid one hundred thousand dollars.

New Bern has raised twenty-seven thousand dollars to put in a fair ground project, before the end they may have to put in many more thousands.

Kinston won the feeble minded school. Washington, right in the center of this great and fertile Eastern North Carolina, has the opportunity to gain an enterprise to equal, if not surpass any other Eastern Carolina town.

Shall we allow the opportunity to pass our door or shall we wake up to this valuable opportunity and make an effort to win. We can win if we try.

The person who says, it can't be done is fooling himself into believing it can't be done.

The earth was flat and Columbus was a fool until he had the opportunity and tried.

The fellow who said Wireless Telegraphy was an impossibility knew it was impossible and wouldn't try to perfect it. Another person said it was possible and proved to the world.

Twenty years ago the horseless carriage was an impossibility. Now we are lucky if we can keep one of the things from running over us.

Ten years ago only a crazy person would throw away time and money trying to make a machine that would sail through the air. It just couldn't be done, but it was done and with use and proper knowledge people will learn to operate them so that everyone will be able to fly and an accident will be very rare.

Ten years ago a bridge across the Albemarle Sound was impossible but it is there and there to stay.

What can't be done? All things are possible. Washington can easily be the seat of learning of Eastern North Carolina, and Washington is too proud to let the coming generation say, you lost us the Domestic Science College holding back our progress, putting us on the black list with progressive people. It just won't do for Washington to miss this college, neither will it do for us to get it into our minds the Domestic Science College will come without an effort on our part. The people who stand ready to build this Domestic Science College say "If the people of Washington want this college they will do something for it." And that's the proper way for business folks to look at a proposition.

Washington not only wants this college, but needs it and the section surrounding Washington needs it. We just can't afford to miss it, simply because no organization will attempt to meet the requirements. Let the people Wake Up to this passing opportunity and let them Wake Up before the rumble of the wheels in passing to some other place, wakes them, then 'twill be too late. What is to be done in this matter must be done at once. The way to start to get this college is to get a half dozen folks together and let them do as the great corporations, get ideas, then form plans and work for the accomplishment of their aim. It can be done. Try.

RECORDER'S COURT.

There was only one case before Recorder W. D. Grimes at the City Hall yesterday for trial. Thomas Carrow, of Chocowiny, was indicted for being drunk. He was found guilty and fined \$2.50 and cost.

Mrs. Samuel Laughinghouse, of Vandemere, N. C., registered at Hotel Louise yesterday.

CANDY DEMONSTRATION.

The demonstration of the celebrated Morris Candy at the drug store of Messrs. Worthy and Etheridge was a revelation to the citizens. Those who tried its merits pronounce it first class in every respect. Worthy and Etheridge have the agency and already they are receiving a generous patronage. It is packed in boxes so neat and beautiful that they offer a feast for the eyes not soon forgotten.
