Washington was thrown into intense excitement last night between seven and eight o'clock, when the news was current that Mr. Fred W. Wolfenden was found with his head crushed on the Blount's Creek road late yesterday afternoon. The news spread like wildfire and for some time the news was the subject of conversation.

Mr. Wolfenden was found lying on the side of the road with a slight bruise on his head and his horse hitched to the buggy straining on the side of the road. At first it was thought that there had been foul play but subsequently it was learned that his death was caused from heart failure and that the bruise on his head was the result of falling from his buggy.

Mr. Wolfenden was in Blount's Creek yesterday looking after some of his business interest and was on his way home when he was attacked.

When the news of his sudden death reached Washington it caused no little excitement. The remains were brought to this city this morning via the Washington and Vanderschuer train and carried to an undertaking establishment and prepared for burial which will occur at Trinity Episcopal church tomorrow at

Chocowinity. The deceased was about sixty years of age. He was born in Chocowinity near the Avont place and has resided on his native heath all his life.

At the time of his death he owned the Crawford farm, the Fred Grist farm, a large brick store at Chocowinity Cross Roads and also engaged in operating a large saw and grist mill.

Mr. Wolfenden was married twice. His first wife was Miss Cora Grist and his second wife was Miss Lina Cawthorne, of Warrenton, N. C., a niece of the late Mr. James McCluer. The deceased leaves no children from either marriage. Mr. Wolfenden's second wife survives and was spending her summer at Marion, N. C., when her husband passed suddenly away yesterday.

Mr. Wolfenden leaves besides his devoted wife, one sister to mourn their loss. Mrs. Hobart Barber, of Detroit, Mich.

Mr. Wolfenden for years has been one of Beaufort County's highly esteemed and popular citizens. He has occupied positions of trust and honor in the Democratic party. From December 1904 to December 1908 he honored his county by being a member of the Board of County Commissioners and at the time of his death was a candidate on the independent Progressive party for the same position. He was one of the county's first farmers. For years he has been an active member of the Episcopal church. He was a member of Trinity Episcopal church, its treasurer and for years custodian of the cemetery at Chocowinity. The church in Chocowinity loses one of its most active and energetic communicants.

Your Support Needed to Stop High Tariffs Responsible For High Prices

Woodrow Wilson and Progressive Democracy are against the iniquitous Tariff which we know to be a burden on fully 98 per cent of the American People.

The Democratic National Committee wants to tell the truth about the Tariff to the 15,000,000 voters who will go to the polls on November 5th.

Having no other source of honorable financial support we must look to the People for funds with which to carry on this gigantic campaign in the interest of all the people.

Will Voters Permit This to Go On?

Take, for example, the result of Republican High Tariffs between the years 1897 and 1910:
Do you realize that Food advanced 46.7%—
That Clothing advanced 53.8%—
That Metals and Implements advanced 43.3%—
That all Commodities advanced 45.7%—
Isn't it high time that the Progressive Voters get together and with their money spread the gospel of a new deal, a real square deal in the tariff to all those who don't know and ought to know?

Astounding Increases Last Two Years

Now take the same line of comparison as above—from 1897—only carry it farther—up to this year, 1912, and note how prices are piling up faster and faster as we go along making the public gasp—"What are we coming to?"
Ordinary cut Nails have increased 65.5%—
Building Bricks have increased 98.8%—
Olive Oil has increased 133.3%—
Textiles, Standard Sheetings, have increased 124%—(1)
You pay out in rent the burden imposed by the increases above noted in building materials, which the contractor takes out on the owner and the owner passes on to you. About ten per cent of the average family's rent goes for the extra tariff cost.

When "Protection" is NOT PROTECTION

We say it is not protection when conditions are as they are now with 98% of the People paying to protect only 1.5% engaged in the principal industries protected.
It is not protection when the great mass of people are paying exorbitant tariffs on goods they do not produce and the farmers have to advance the price of their products in order to keep their heads above water in paying for goods they have no part in manufacturing.
It is not protection when American manufactures are sold for less abroad than they are at home!
It is not protection when we say of America as Consul Charles Denby writes of "protected" Austria—"The protected Austrian producers take the entire benefit of the tariff, keeping their prices at as high a figure as possible without permitting importation."
You can understand what carrying information like this to millions of voters will do to help Wilson in his splendid battle.
Will you give \$1 or \$100 to help these voters understand, to win their support for your cause?

Every Wilson Voter to Contribute

The cause of Progressive Democracy, depending not on the few but wholly on the many, must have the support of every Wilson voter, man and woman.

URGES DEMOCRATIC VOTERS TO SUPPORT THE TICKET

Wilson Calls Attention to the Necessity to Gain Control of Senate.

Princeton, N. J., Oct. 29.—Governor Woodrow Wilson would like to see a Democratic majority in the United States senate as well as in the house. Further to that end he issued a statement last night calling upon voters in the several States where United States senators are to be chosen to vote for the Democratic legislative ticket. The statement says:

"I am particularly anxious that the Democrats of those states in which senators are to be chosen should remember that the control of the government depends as much upon the majority in the senate as upon the presidency itself. I hope that in those states particularly special attention will be concentrated upon the necessity of obtaining a majority in the state legislature."
The nominee said the States he had in mind were New Jersey, Colorado, Illinois, Idaho, Iowa, Montana, Delaware, West Virginia, Wyoming and Nevada.

The governor announced his plans for the remainder of the campaign as follows:

Swims Two Miles To Save Himself And Four Of His Friends

Norfolk, Va., Oct. 29.—Across two and a half miles of white-capped and chilling water of the Chesapeake Bay, Captain Mills, of Suffolk, swam yesterday afternoon in a heroic and successful attempt to save four companions. In a powerless motorboat adrift off Lynnhaven Bay, the men waited and watched while Captain Mills braved the long distance. For over two hours the gallant captain battled and eked his way shoreward against the cross currents of the incoming tide.
Now and then when his strength left him he would cling for a few minutes to barnacle-clad fish stakes. The whipping wind would soon drive him into the water again no another effort until another fish stake would be reached for a brief respite.
Finally the deserted but welcome beach of Lynnhaven Inlet came in sight of the almost spent swimmer. Barely able to make the last lap of his thrilling race against death, Captain Mills crawled ashore. He was too weak to stand upright. The lower part of his body was covered with bruises and cuts from the barnacle-clad refuge poles.
Hardly able to move, every muscle of his body at the end of its endurance, his face pinched and drawn, he moved on hands and knees into the beach sand, into whose warm embrace he burrowed until he was able to walk.
At the fish house of Henry Paccini he found the aid for which he had risked his life. Paccini gave the ailing captain a stimulant and then in a motor boat the two went after the four men for whom Captain Mills had risked his life. The outgoing tide would have soon swept the boat to sea.
Yesterday morning Captain Mills with four companions also of Suffolk, started for an all day cruise in a small gasoline motor boat. A better day for an outing could not have been imagined, the smooth water and pleasant weather overhead inviting them onward. Early in the afternoon the supply of fuel was found to nose of the launch homeward, but
