TEN THOUSAND MEN NOW AVAILABLE FOR LANDING AT CONSTANTINOPLE CITY

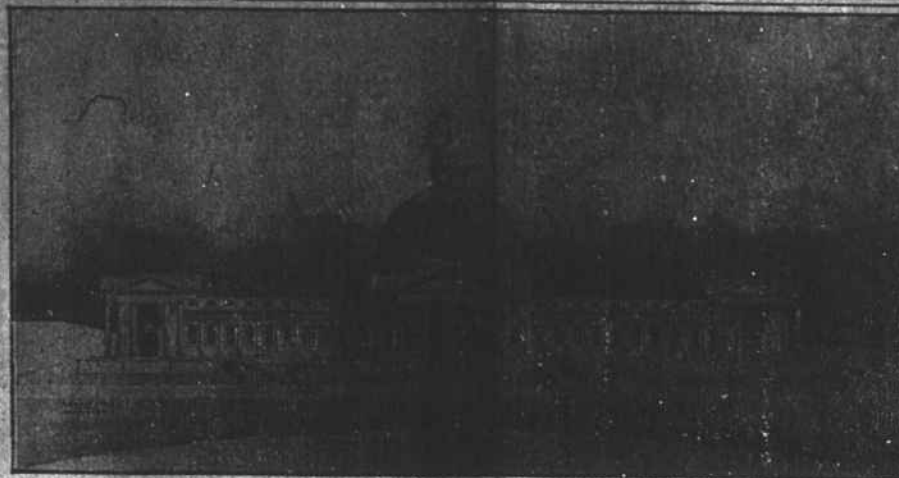

Eleven Warships Are in the Harbor. City is Now Quiet and Peaceful. News of Interest is Expected at Any Moment.

Washington, Nov. 14.—A landing force of at least 20,000 men is now available from the international fleet in the harbor of Constantinople and could be instantly sent ashore, should a Moslem outbreak endanger the lives of foreigners in the Turkish capital. This force is considered by the state department to be fully adequate to meet any emergency that might arise jeopardizing the safety of the nations represented by the score of vessels mobilized in the Ottoman harbor and any anxiety previously felt for Americans is entirely relieved by assurances made to the department today that Russia will assume responsibility for safety of all citizens of the United States.

There are at present in the harbor at Constantinople 11 warships: two British, two Russian, two French, two Italian, two Austrian, and one German, in addition to the representatives regularly maintained there by the different powers. Another German vessel, a Spanish, and a Dutch vessel as well as two Italian ships are expected to reach Constantinople tonight or tomorrow. Advice to the state department

indicate that Constantinople remains entirely quiet, and that precautionary measures already have been adopted by the Turkish government. The embassy at Constantinople has informed the department of the decision of the Ottoman government, to consider coal as contraband of war. Communication with the cruisers Tennessee and Montana, which left Philadelphia today for Turkish waters, will be maintained during their voyage across the Atlantic by the new wireless station at Arlington, near here. The vessels will be kept informed constantly as to the situation in Turkey. This will be the first real test the Arlington station has made with vessels at sea, although messages have been exchanged with the battleship Utah, off the Virginia capes.

Russia today informed the United States officials that it will look out for the interests of the United States in Turkish waters and for United States citizens in Turkey. The information was conveyed to the state department by the Russian Embassy here immediately upon receipt of instructions from the foreign office at St. Petersburg.

Foot Ball Team Leaves For Wilmington, N. C.

Tomorrow morning the football team leaves for Wilmington, where on Saturday afternoon they will line up against the strong eleven of the Wilmington High School. Those who saw the game here with Wilmington would certainly put the local High in a class with Wilmington, although Wilmington won the game—6 to 0. The team leaves with the determination to show that they are in a class a little above Wilmington and they are determined that the "pep" which was clearly in evidence during the last part of the New Bern

game, shall be in evidence during the whole of the Wilmington game. Those who will go on the trip are as follows: Sam "Brogan" Fowle (capt.), J. "Big Jim" Weston, David "Gamut" Smith, Elbert "Rabbit" Weston, Chas. "Reuben" Meekins, J. "Jaco" Harris, John "Grizzly" Taylor, John "Hawk" Sanford, James "Chief" Howard, Willie "Sleepy" Jones, Fred "Boots" Moore; substitutes—James "Songbird" Fowle, Joseph "Skeemster" Wilkinson, Bruce "Boby" Hodges. Accompanying the team will be Harry O. Kear, coach; M. A. Huggins, manager.

MISTAKES HER MOTHER FOR A ROBBER

Philadelphia, Nov. 14.—Mistaking her mother for a robber, Miss Gladys Myers shot and fatally injured her early yesterday on a Pennsylvania railroad express train as it was speeding past Bristol, Pa., about 25 miles north of Philadelphia. The train did not stop but continued on to Trenton, where the injured woman was rushed to St. Francisco Hospital.

The dead woman was Mrs. Elizabeth Myers and her home is believed to have been in New York. She was traveling from Salem, Va., to that city and her ticket was purchased at Lynchburg. The daughter and a passenger on the train named M. R. Cuthbert, who says his home is in Lynchburg, were held by the Trenton authorities pending an investigation of the circumstances surrounding the shooting.

Miss Myers was so hysterical over the affair that she could scarcely tell a connected story. She told the police that she shot her mother in mistake for a robber, and they are inclined to believe her story, although the element of mystery has been injected into the tragedy because of contradictory statements by Cuthbert and Miss Myers. Cuthbert says he did not know the mother and daughter and only volunteered his services to them after the shooting. Miss Myers is said to have told the Trenton police that Cuthbert was a travelling companion of herself and mother. According to the Trenton police, Miss Myers said that while lying in her berth she had heard a noise as if some one was climbing into her berth. She believed she was in danger from an intruder and fired a shot. Her mother, who was returning from the women's retiring room, received the bullet.

The police would not say whether Mrs. Myers' home was in New York or Salem, but a railroad employe said that the conversation he had overheard on the train indicated that she was on her way to her home in New York.

Agricultural Fair Billed For Aurora on December 4 and 5

The next of the season is the Agricultural Fair which is scheduled to be pulled off at Aurora, N. C., this county, December 4 and 5, Wednesday and Thursday. The features promise to be the most attractive yet afforded the people of Eastern Carolina and the Daily News feels confident that all who attend will be richly repaid. There will be horse racing on the afternoon of the fifth and a Fiddler's Convention on the night of the fourth. Balloon ascensions are promised for both days and the people of that town always carry out their promises to the letter. The closing feature of the occasion will

Crowds are expected to attend from Washington and other sections of Beaufort county. One of the features will be the demonstration by Mr. J. F. Latham, of the state department, of the Corn Growing Club of Beaufort county. This within itself will be worthy of the attention of every farmer. A great time is anticipated for there is no better section for an exhibition of resources than Aurora. Remember the date—December 4 and 5.

WHAT IS HEALTH?

Health is more than the absence of sickness. It is being well and a little bit more. It is not sufficient to be in such a physical, mental and normal state that you can tell your neighbors and friends that you are "well this morning, thank you." It means more than simply feeling that we have no aches and pains. It means an exuberance of life and energy. It means that you have strength for your task and a little energy to spare.

Great numbers of people never feel that pleasant throbb of life, vitality and energy pulsing through their bodies, not even during these glorious autumn days. No, you will not feel that exuberance of health and energy if you are troubled with indigestion in some of its forms, if you have hookworms sucking your life blood or malaria organisms floating around in your blood. You will not feel every whit a man or woman if you have headaches, are constipated and your plumbing system is all out of order; if you are continually having colds; if you are worried, overworked and burning the candle of life at both ends with some form of dissipation.

Some people have not been perfectly healthy for so long that they have really forgotten how they used to feel as children, when aches and pains were utter strangers to them. They have grown used to feeling about 25 per cent. under par, and don't know what they are missing. As a result, they are plodding through life scarcely able to eke out a living, with no surplus of time, energy or means for improvement, luxuries or amusements. Such people need to get out of the rut. There are better things in store for them. The little difference between the man feeling "not sick" and the man feeling "just fine" is the very difference between success and failure. It is the little extra that helps one man to seize a good position or a business proposition while another lets it go by. In the race of life it is the little extra that makes a poor second or third into a good first.

How to get out of the rut? That is usually easy. Look about and see what rut or ruts you are in. Find out what put you in these ruts. Then cut out those things which put you in. If you are in the mire or a deep rut, go to your doctor and ask him to help pull you out. Give him full charge of the reins until you get on level ground. Then follow his instructions, and above all, learn how to drive this coach of state yourself. Keep in the middle of the road and you will be surprised that you should ever have driven off.

Mr. Ferd Waters and son, Mr. M. L. Waters, of Pinetown, N. C., are Washington visitors today.

PRESIDENT-ELECT WILSON'S CABINET IS BEING TALKED BY VARIOUS POLITICIANS

Josephus Daniels of the Raleigh News and Observer, Among Those Slated. Next President Silent as to His Official Family.

Washington, Nov. 12.—The return of Democratic Senators and Representatives is bringing out a renewal of Cabinet discussion although the talk still is wholly conjecture, nothing having come from President-elect Wilson to indicate his line of action. Incoming Democratic statesmen predict that in filling his Cabinet Mr. Wilson will give one place to New York, another to New England and a third to Ohio or one of the other States of the middle West.

It is the view of congressional circles that at least two of the seats at the Cabinet table will be assigned to the Pacific Coast and another to the States immediately west of the Mississippi, including Missouri, Iowa, Kansas and Nebraska. With this distribution there would be left two Cabinet offices that might be filled for reasons of peculiar fitness or expediency.

Senator O'Gorman's name figures prominently in the talk of Cabinet possibilities, and speculation would assign him to the Department of Justice. The availability of William J. Bryan is also much discussed, for the Department of State or Attorney General; and one Democratic Senator has coupled Mr. Bryan's name with the ambassadorship to London.

While the prevailing opinion among Democrats now in Washington is that the Nebraskan may be tendered a Cabinet position, opinion is divided as to his acceptance. Mr. Bryan himself has declined to discuss Cabinet possibilities since he has been in Washington and has laughingly put aside all efforts to draw him into an expression as to his own willingness to accept an appointment, should it be offered him.

Senator Gardner, of Maine, Congressman Barleson of Texas, and Willis L. Moore, chief of the weather service, are all advanced for the position of Secretary of Agriculture. Josephus Daniels of North Carolina and William F. McCombs of New York, who were active leaders in Mr. Wilson's campaign committee, are also considered in all gossip of possible Cabinet appointments.

Reports reaching Democratic Congressmen and Senators now in Washington are that Mr. Wilson is pursuing a policy of silence regarding his ministerial advisers; but it is claimed he has dropped some intimations as to the policy he will follow, namely, to recognize all sections, and all elements, in an effort to harmonize the party, where that can be done without sacrificing the position taken in the Baltimore platform.

Murderer Committed Suicide Soon After His Capture

Madrid, Spain, Nov. 14.—The Spanish premier, Canalejas, was assassinated Tuesday.

The assassin was captured by the police. He gave the name of Manuel Pardinaz Serrato Martin, and said he was a native of El Grado, in the Province of Huesca. Martin fired four shots at Premier Canalejas as he was entering the Ministry of the Interior to attend a Cabinet meeting. Two of the shots struck the statesman behind the right ear and he fell dead on the spot. The assailant is twenty-eight years old and is believed to be an anarchist.

After he had been placed under arrest the slayer of the Premier committed suicide. The assassination of Premier Canalejas took place at half past eleven this morning in the Puerta del Sol, in front of a book stall at the corner of Carretan street, near the entry to the ministry of the interior. Martin fired four shots from his

revolver at close range and three of the bullets struck the premier, who fell on the sidewalk and died immediately.

Some by-standers seized the assassin and handed him over to the police. He then turned his revolver on himself and it is believed he has since died from the self-inflicted wound.

Martin is said to have been closely connected with anarchists, but it is not known whether his crime was preconcerted or whether it was committed on his own initiative.

Political ferment always exists in Spain, but nothing has been reported within a recent period which could in any way be connected with the crime.

A strict censorship was instituted by the authorities on the telegrams and telephones immediately after the committal of the crime, and for several hours it was impossible to communicate with the outside world.
