Subscribers desiring the paper discontinued will please notify this office on date of expiration, otherwise it will be continued at regular subscription rates until notice to stop is received.

If you do not get the Daily News promptly telephone or write the manager, and the complaint will receive immediate attention. It is our desire to please you.

All articles sent to the Daily News for publication must be signed by the writer, otherwise they will not be published.

A MERRY CHRISTMAS.

Once again the Daily News extends the greetings of the season and wishes every reader and patron a merry Christmas and happy New Year.

As has been the usual custom of the paper there will be no issue on tomorrow as the entire force wishes to enjoy the pleasures of the day and no reader of the paper for a moment would deny them of this. As they celebrate the birth of the Christ-child they wish every reader all the joys and pleasures that the Yuletide season brings, and too, they wish that every one will live to see many happy and joyous returns.

Christmas comes but once a year and it should be celebrated in such a way as to bring admiration and not condemnation. The birth of Christ is an event that should command veneration from every nation. Let America take the lead and especially North Carolina and Washington in celebrating the natal day of one whose coming was proclaimed by Angels who sang "Peace on Earth, Good will to men."

Again the Daily News wishes everyone a merry and happy Christmas and may this be their brightest and best.

LIQUOR BULLETIN MAKES HIT.

The December Bulletin of the State Board of Health has made quite a hit. It was devoted very largely to the liquor question. This is the first issue of any State Board of Health bulletin that has ventured to take up this question. It discusses the liquor problem from the standpoint of individual and public health in a practical and scientific manner. The discussions are by able men both inside and outside the medical profession. It makes none of the exaggerated, startling statements in regard to liquor and its effects, without foundation of fact or truth, such as one sometimes hears from temperance enthusiasts, but it gives scientific authority for every fact and figure presented. In this subtle way it deals the liquor problem a blow in the short ribs that is bringing an echo of complaints from one end of the state to the other.

One of the writers of an article in this Bulletin reports having received a pledge signed by a whole class of high school boys as a result of having their teacher read them one of these articles. Many requests have come from outside the state for copies of the liquor Bulletin. In fact, in less than a week after issuing this Bulletin over a thousand requests were made for places on the mailing list. There are still several hundred copies of this Bulletin left, and any one interested in this great question from a health standpoint or otherwise should have one.

Send a postcard to the State Board of Health at Raleigh, asking for a copy of the liquor Bulletin.

HOW TO KEEP SICK.

Get very little sleep—your nervous system will soon collapse under the strain.
Drink any old water, the dirtier the better—you'll very often find typhoid in water.
Keep a dirty house—dirt and disease go hand in hand.
If you get diphtheria, don't use antitoxin—antitoxin will cure it.
If you want smallpox, don't get vaccinated.
Don't be particular about your milk supply—that's a good way to get sick and to keep the baby sick.
What's the use of being healthy, anyhow?

Bad teeth are certainly associated with a weak constitutional condition, and with fragile bones. Bad teeth cause poor nutrition, and poor nutrition in turn causes bad teeth. They work in a circle. People with perfect teeth are more apt to be in good health.

Close the windows and open the doors to pneumonia.

Be a fresh air crank.

HEADACHE A BAR TO SUCCESS HICKS' CAPUDINE

Headache is nature's signal of physical distress—a handicap in life's race.
Hicks' Capudine—removes the cause, whether heat, cold, nervousness or strain. Light, pleasant to take, quickly effective. For sale at drug stores.

Chilly Mornings Cool Nights

Rather difficult to keep the house at the proper temperature. Can't light the furnace yet as it is too warm during the middle of the day, but some heat is needed in the morning and after sundown.

Use a Vulcan Odorless Gas Heater

Makes a room comfortable in five minutes.
Positively Odorless
Absolutely Sanitary

Sensible Christmas Presents

The best time to begin to teach your child economy is now. Dolls and toy pistols and teddy bears are short-lived, while the pleasure they bring is also fleeting. One Dollar or Five Dollars in our SAVINGS DEPARTMENT is a helpful and lasting Christmas present. The boy with a bank account begins to feel like a man, and it inspires him to higher things. If you can teach him to save his own money and inculcate a lesson of thrift and economy, you have given him a Christmas present that is better than all the toys in town.

Take Advantage of the Facilities Offered by Our Savings Department

Deposits made now go on compound interest January first. The rate is four per cent, and you will be surprised how rapidly even a small amount grows.
