ELECTRIC LIGHT PLANT - MUST BE IMPROVED

Mr. H. B. Charles, Manager of Municipal Electric Plant Gives Full Reasons For Extension.

Researchy the editor of the News its capacity, but not to the point requested Mr. H. B. Charley manager of the Munichard Blectric Plant, to another where we are unable to maintain normal service. Yet should the busines and an interess by mest fail we will not be electric light plant is necessary in able to carry the load satisfactorily, compliance wills the request at the present rate back of the following interesses:

Charles has submitted the following statement: Mr. Méltor: If we are to be pro-gressive like our neighbor towns, we must come together with our should are to the wheel of progress and grunt load enough to bring results 1 mean that we must equip our electric light plant with modern apparatus of sufficient capacity to serve tha town for the next (an or fifteen yars. By making these changes we can operate at more than 100 per cont greate at more than 100 per to the satisfactory manner the nat-ural greath so of the business (which has been about 30 per cent during the past two years) and have in ac-

the past two years) and have in ad-fine considered for Washington. dition therets a surplus of power to which if put in operation would re-offer as an inducement to manufac-turing enterprises that will probably produce, and therefore could not be locate here.

I prosume it is unnecessary to state that the electric light plant is a necessify and is one of the city's best assets as will be seen by refer-When Washington gets her wate ways despend the plant will doubt-less be called on to operate the ma-chinery for loading and unloading carrying treight, and cace to the city books Id the town take hold of the wa-I hope the above will give fully the information you desire.
