A Cardboard Planet.
One remarkable achievement of the
William Herschel was in connection
with the planet Saturn. He had ar-
ranged to erect his telescope at Wash-
ington castle to enable Queen Charlotte
and the ladies of the court to see the
wonders of the ringed planet, but on
the evening arranged for the observa-
tion great banks of clouds covered the
sky. However, he explained that that
would not matter, and after the instru-
ment had been carefully directed the
queen and her attendants looked
through it and saw the great planet
and its marvelous rings quite distinct-
ly. Herschel, it seems, had expected
bad weather and during the day had
made a cardboard model of the Sat-
urnian system and erected it in the
grounds, a lamp at the back providing
the necessary illumination.—Westmin-
ster Gazette.

THERE are a lot of men
who, when they buy shoes,
want a definite assurance that
they'll get what they're paying
for.

There are shoe stores that are afraid to be asked
questions about the materials that their shoes are made
of and the kind of workmanship that has put them together.

This store welcomes any sort of inquiry about the shoes we sell, whether about
the leather or the way they are made.

If you'd ask for a definite guarantee when you buy shoes, you'd be more apt to
get shoes that would fit you better, keep their shape better, wear better and last
longer.

When you buy **SELZ** shoes here---that's our kind, the kind we wear as well as
sell---you aren't compelled to ask for a guarantee; we give it to you without asking.

In fact you have to take it whether you wish to or not; in every box that holds
a pair of Selz shoes is a Selz guarantee --- definite, plain, complete; a real guarantee of
your satisfaction.

Read it, test it; it's as genuine as the shoes.

"Selz" on the sole, means good as a whole.

Young men's shoes --- snappy, vigorous styles. Fit well and
keep their shape. \$3.50 to \$6.00.

Correct shapes for mature business men who want
comfort as well as shapeliness. \$3.50 to \$6.00.
