CALOMEL FOR ME.

Three Cheers for Calomel's Liver-Aid. Add the New Liver and Bowel Remedy. That's the Best. No More Money Back If Dissatisfied. Flat.

If you are feeling blue, tired out, constipated, have sour stomach, indigestion, malaria, upset liver, coated tongue or bad breath there is a joyful surprise waiting for you after the first dose of CARSWELL'S LIVER-AID, a purely vegetable liquid remedy that is causing thousands to desert dangerous calomel and bringing health and strength back to them.

It's a wonderful remedy, so pleasant and harmless that children as well as grown up people take it without any bad after effects. It treats the liver and bowels gently but firmly and drives out the poisonous gases and accumulated waste thoroughly.

You can get a large bottle at Hardy's Drug Store for only 50 cents and if you aren't delighted, your money back. Ask for CARSWELL'S LIVER-AID.

THE RESULTS OF SANITATION IN PANAMA.

Since Uncle Sam started to dig the Panama Canal, every one has known that one of the most important problems to solve was how to keep the workers alive and well until the work was finished. Sanitary work in Panama has always been considered very important. From the first discovery of America, this point had been the place of crossing between the two oceans in the western hemisphere, and therefore there has always been at Panama a large number of unacclimated Europeans. These unacclimated Europeans were food for tropical infectious diseases, particularly yellow fever. For this reason, says Col. Gorgas, in a recent issue of the Journal of the American Medical Association, Panama has acquired the reputation of being the most unhealthy spot known. When the United States commenced the building of the canal in 1904, this fact had been sharply accentuated by the recent experience of our immediate predecessors, the French. The French company kept a large force on the Isthmus for eight years. Their losses from tropical diseases, particularly yellow fever, started the world. But between the time of the failure of the French company in 1889 and the undertaking of the work by the Americans, two great discoveries had been made in the field of tropical medicine which revolutionized sanitation in the tropics. The first was the discovery in 1898 by Ronald Ross and others that malaria is conveyed by the bite of the female of a particular genus of mosquito. The other was the proof by Walter Reed and his confederates that yellow fever is conveyed from man to man by the bite of the female of another species of mosquito. Walter Reed was a surgeon in the United States Army and announced the achievement of his board in the year 1901. The discovery that yellow fever was conveyed by a mosquito was of even more importance to tropical America than the discovery that malaria was conveyed in this way. At the time that Reed announced the discovery, the United States had control of Havana. Methods were worked out whereby Reed's and Ross's discoveries could be made of practical utility. Unexpected success was accomplished as to both yellow fever and malaria. Within a

ANNOUNCEMENT.

At the continued solicitation of a large number of citizens, I wish to announce that I am a candidate for the nomination of mayor in the coming primary, and ask my friends and all progressive citizens for their support, and if elected I shall serve the people and be with them in any fight that may come, doing all that may be in me, for the advancement of our town along progressive lines. As there are only a few days before the primary it will be impossible for me to see personally all the voters, therefore I urge all my friends to exert themselves in my behalf, promising I will not fail the people in their rights.

Yours respectfully,
C. H. STERLING.

J. F. BUCKMAN.

FOR MAYOR.

I hereby announce myself as a candidate for the office of Mayor of the City of Washington, subject to the action of the Democratic primary.

I believe the best interests of our town demand an enlarged water works system, furnishing an ample supply of pure water for drinking purposes, and for fire protection. I believe the town needs an adequate sewerage system. I believe the citizens of the town are entitled to have cleaner and better streets. I believe that the electric light plant should be enlarged, as it is not now sufficiently large to take care of its present business. I believe the preservation of property requires an enlargement and better equipment of our fire department, which will materially reduce the damage to property, as well as secure better insurance rates. If nominated and elected I propose to do all in my power to secure these things for the city, as well as to govern the town in all other respects to the best of my ability. I ask the support of a II Democrat in the primary.

Respectfully,
FRANK G. KOOLER.
