some criticism has been made be

by those not fully informed. With his consent Mr. E. F. Aydlett has been marked as prosecutor in the omitted Mr Aydlett will be called ders be found guilty he will have to pay the cests so that Beaufort County does not stand to lose anything or ecount of the trial here. This ex-

TEXAS CITY HAS PLANS FOR CIVIC DEVELOPMENT.

Improvements to Consist of Street Sewer and Water Main Extensions

Autonia (Tex.) chamber of commerce is haying prepared at an expenditure of several thousand dollars a comprehensive and modern city plan, which will care for the future development and growth of the city for a period of fifty years after it has been completed and the first steps taken to put it into ef-fect. This plan is being made by a force of experts under the direction of Myron II. West, city pinner and

Myron II. West, city planner an builder, of Chicago. In order to put this plan in operation the voters of San Antonio will be call ed upon to vote a bond issue of \$5,000,-000, which will provide for street, sew er and water main extensions, along with other civic improvements. The passage of the bond issue is assured, and several contracting firms from the north and east have already opened offices there, with a view of bidding on and securing contracts for the improveand securing contracts for the improve

and securing contracts for the improvement work.

In the way of street improvements for the present the work will consist of repaying the principal streets in the business section of the city and the main arteries of traffic of thereof the city and the main arteries of traffic of the proughfares leading to the suburbian residence districts. It is expected that \$2,000,000 will be spent in this work.

A bond issue of \$300,000 with an additional \$00,000 appropriated by the city, has already been passed for widening Commerce street, one of the principal business afreets, for a distance of several blocks, from Alamo street to Main plaza. The abutting property owners have pledged themselves for another \$100,000, and the entire work will cost about \$500,000. The tire work will cost about \$500,000. The street at present varies in width, and the fronting buildings will be set back to make it a uniform width of sixtyfive feet. The setback will range from thirteen to twenty-three feet.

SCHOOL GARDENS INCREASE.

Growing Interest In Movement Largely
Due to Wemen's Clubs.

School gardens continue to receive a constantly increasing share of public attention. From very many parts of the country reports bear witness to this widespread interest. There can be no question that the movement should be encouraged by all who are in any way concerned in practical horticulture. If the younger generation has implanted in it an intelligent interest in garden routine work, together with an intelligent acquaintance with growing plants, there will not be the need of so much missionary work in garden art in the future as there has been in the past. It is to the women's clubs very largely that the present movement owes its vitality, says the Los Angeles Times In the interest which the members of constantly increasing share of pub

must carry its tenets and principles beyond the confines of the meeting beyond the confines of the meeting lev. Baleigh 9:05 a. m. . . 7.00 Lv. Raleigh 9:05 a. m. . . 7.00 Lv. Greensboro 12:45 p. m. . 5.00 Lv. Greensboro 12:45 p. m. . 5.00 Lv. Greensboro 12:45 p. m. . 5.00 but its most rapid development has been within the last decade. Work in this country is not by any means sufficiently widespread. With a round 100.000 school gardens in Europe, is it any woulder that garden art has it any woulder that garden art has reached a wider distribution across termediate points. Tickets limited distribution the ocean than it has with us?

Communities Should Pull Together.
A single snowfiable failing upon the broad landscape ultimately melts and leaves no visible trace of its abortive effort, but when joined to millions of others the earth is soon covered with a white mantle, says the Farm Journal. A single brook wending its way nal. A single brook wending its way through the valley is weak and impo-tent, but joined with others it forms a great stream whose flow speeds the wheels of industry. A single man in a community can do little by himself. but by joining men of kindred aims the union can do much for the moral. the union can do much for the moral. Thomas Epencer via.

mental and physical betterment of the community. Neighborhoods cease to grow when the people cease to labor in union and work at cross purposes. Therefore it is essential for the community's advancement that all pull to gether. There should be no room in any neighborhood for pullbacks.

Thomas Epencer via.

Charity Spencer.

The defendant, above-named, will take notice that an action entitled as above has been commenced in the Superior Court of Beaufort County for the dissolution of the bonds of

cess, rush and disagreeable effects of excess, setter, sain rheum, lich, piles and irritating skin oruptions can be readily cored and the skin made readily cored and the skin made clear and smooth with Dr. Hobsonis letters Olithwant Mr. L. C. Eveland, of Bath. III., says. "I had excess twenty-five years and has tried everything. All failed. When I found Dr. Hobson's Eccess Olithwant I found a cure." This olithwant I found a cure." This olithwant is the formula of a physician and has been in use for years—not an experiment. That is why we can an experiment. That is why we can aparamete it. All druggists, or by math. Price 50c. Prepter Chemica

An olry young doctor settled in a village where an old physician and long practiced. One day the two were brought together at a consultation, and on this occasion the young M. D. easaged to extinguish the old man with the preponderosity of knowledge. He accordingly began to rattle of Intin phrases and Freuch idioms in a manuer that startled the old gentleman. "Yee," mused the old man meditatatively as he rubbed his chin, "that's so, that's so. But what do you think so, that's so. But what do you think so, that's so. But what do you think of a cataplasm for this case?" "A-a what?" ejaculated the new

doctor, completely dumfounded.
"A cataplasm," was the reply.
"Well, I am not familiar with that advertised. It's something new, isn't mode of treatment, though I've se

"New? Great gracious, no!" ex-claimed the old physician, thoroughly enjoying the joke. "A cataphasm means simply a poultice. It always has meant a poultice and probably al-ways will."—London Mail.
