### FIRST REAL HEAT

No Hope for Cooler Weather Within Next 48 Hours.

Washington, June 17.—Practically the entire country sweltered yesterday under the first real hot wave of the season, and last night the Weather Bureau experts held out no hope for cooler weather within the next 48 hours.

Omaha, Neb., and St. Joseph, Mo., were the hottest cities in the United States, with the mercury hovering around 95 degrees. Chicago ran a close second, with the thermometer registering 84.

Washington suffered its hottest day of the season and one heat stroke occurred. The maximum temperature at the Weather Bureau was 92, but the government's thermometer registered 100 degrees.

### THINKS TEACHERS OUGHT TO MARRY.

Head of University Says Community Gains When They Take Husbands.

St. Paul, Minn., June 17.—The possibility that the specially trained school teacher may desert the profession for the "somewhat profitable and speculative job of bringing up one man instead of forty children" is not deplored by Dr. Geo. P. Vincent, president of the University of Minnesota, who was the principal speaker at the Teachers' Training School commencement exercises here.

President Vincent recalled the fact that there was a time when it was looked upon as a shame by the community for a young "pedagogue" to reap the advantages of the taxpayer's money in equipping herself with a special education and then desert her profession to become a housewife. This view is no longer taken, however, he maintained, and he illustrated wherein it is a great gain to a community to have wives and mothers of this calibre.

## SURPRISE PARTY YESTERDAY EVENING

A delightful surprise party, in the form of a fruit shower, was given to Misses Blanche and Mabel Ricks yesterday evening. Neither of the young ladies knew anything about the party until the guests began to arrive at 8 o'clock. Mrs. Ricks, however, had been "put wise" and the dining-room was tastefully decorated with pink and blue candles and pot flowers. Games were played and an exceedingly good time was enjoyed. Refreshments were served. Among those present were Misses Mildred Smith, Clara Burgess, Josephine Burgess, Gladys Whitley, Kathleen Jackson, Mildred Waters (of New Bern), Viola Freeman, Helene Hudnell, Carrie Toler, Blanche Ricks, Helen Ricks and Helen Dailey; Messrs. Geo. Howard, Willie Frank Freeman, Calvin Toler, Leslie Mitchell, Edward Lee Archbell and Charlie Dailey.

### YOUNG WOMAN HAS FROLIC WITH DEATH.

Los Angeles, Cal., June 17.—Told by her physicians that she had but sixty more days to live, Bessie Clayton, twenty-three years of age, a refined young woman of Quincy, Ill., who came to California to find relief from the white plague, became desperate and launched forth on a wild dissipation in an effort to drive from her mind the thought that death was near.

That this wild life was entirely foreign to any she had known before was evident when the surgeons at the receiving hospital examined her. She was picked up in the street in a pitiable condition.

Staggering, with eyes bleared from an all night debauch, she seemed to welcome the arresting officer. At the receiving hospital she told Surgeon E. F. Wiley that she had lost interest in life; that she had prayed for strength to resist the intrusions of tuberculosis, but all to no purpose. In Quincy, she said, the doctors had told her she could not live more than two months and she immediately came to California in an effort to get relief. Finding this hope in vain, she said she decided to spend the rest of her days in a wild, riotous life.

Surgeon Wiley told her that her escapade would probably take three days from the lease already given her.

## IMPORTANT RAID MADE BY SHERIFF YESTERDAY 22 GALLONS CONFISCATED

### Was Hid in Pit and Covered With Boards. Johnson Arrested.

The sheriff made an important raid yesterday afternoon and found another violator of the State liquor law in the person of Dick Johnson, who lives about six or seven miles out in the country at Beaver Dam.

Complaints had been received lately by the Recorder from Johnson's neighbors. It was claimed that there was always a crowd of "drunks" around his place, especially on Sundays. A search warrant was issued and yesterday, Sheriff Ricks and Officer Roberts drove out to Johnson's place to investigate the conditions there. Johnson protested that he had no liquor about the premises, but the officers paid no heed to his denial and started to make a thorough search of the place. Evidently Johnson had a short memory, for when the sheriff and Mr.

Roberts had completed their search and proceeded to count the spoils, they found that they had obtained twenty gallons of "monkey" rum, two gallons of rye whiskey and a 65 gallon still. The twenty gallons of rum were hidden in a rather ingenious place: Johnson had dug a pit about six feet square, placed the liquor in it and covered it up with boards. He then rolled his buggy over it and the casual observer would never guess at the place of concealment. The officers confiscated the liquor and the still and arrested Johnson.

Owing to the still found on his place, Johnson is guilty of a federal offense and will have to be tried before a United States court. He is at present in the county jail awaiting a decision about his bond.

## FOUND GUILTY OF VIOLATING STATE LIQUOR ORDINANCE

R. J. DILLON BROUGHT BEFORE RECORDER WINDLEY THIS MORNING.

FOUND GUILTY; FINED \$25

GEO. J. STUDDERT ACTED AS HIS ATTORNEY, WHILE H. C. CARTER REPRESENTED THE STATE.

R. J. Dillon, who owns the boarding house directly opposite the City Hall, was brought before Recorder Windley this morning, charged with having ordered more liquor than the laws allow. Geo. J. Studdert represented Mr. Dillon in the case and H. C. Carter acted as counsel for the State. After a lengthy discussion and examination of witnesses, Judge Windley found the defendant guilty of the charge and fined him twenty-five dollars and costs. The fine was paid.

## The Spirit of Later-Day Advertising.

As we have said before, the purpose of the Daily News is first of all to serve its readers. To do this is not only the right moral attitude toward our constituency but it is good business standpoint.

And so it is that we point out from day to day the advertising features of this paper and the advantages to be gained from keeping posted in all of the news thus presented.

The spirit of advertising is different today from that of a few years ago. The idea no longer is to fool and to misrepresent, but to inform and to invite. And it is the constant aim of the good merchant to stick resolutely to facts.

It is in this spirit on the part of advertisers that makes for confidence and enables us to direct the attention of our readers to the profitable practice of "ad" reading, feeling that in so doing we render them a distinct service.

## HAS CONTRACT TO INSTALL VENTILATING SYSTEM

CAPTAIN HILL TO INSTALL VENTILATING SYSTEM IN NEW STAR THEATRE IN NEW BERN.

Captain David Hill has received the contract for installing the ventilating system in the New Star Theatre in New Bern, one of the best theatres of its kind in the State.

Mr. Hill has invented an almost perfect and ideal ventilating system and has had it installed in several of the theatres in this section. The Lyric of this city has it in use and it has proven highly satisfactory. The system in the New Star will be on a larger and more elaborate plan than any of the other systems that have been installed.

The air is pumped into the theatre by a motor, which operates large fans, located on the outside of the building. It is practically noiseless and furnishes a cool and refreshing breeze.

## Shell From Maine Is Brought Here

WASHINGTON PARK AN IDEAL SUBURB.

The following article is taken from a current issue of the "State Journal" and will, without doubt, be of interest to many of our readers and residents who are looking for a desirable location for building a home for themselves and families.

"Closely connected with the question of housing is the development of the residential suburb of a town or city. In this age of rapid transit it is unnecessary for the home sections to compete with the business and industrial sections for locations. Locate your residential sections as far from the hustle and bustle of business as possible in order to secure spaciousness, beautiful surroundings, fresh air and light at the minimum cost."

Washington is extremely fortunate in having Washington Park as a suburb. This tract of land is unrivaled in location or convenience. Many of the far sighted residents of Washington have purchased homes in the attractive suburb and others have secured lots and intend to build later.

Washington Park provides a suitable place for old and young alike. There is plenty of fresh air, cool breezes from the river and no dust or dirt. It is convenient for the business man and also for the lady who desires to take a short shopping trip into the city on an afternoon.

### MRS. PANKHURST AGAIN RELEASED.

### DEPUTY SHERIFF KILLED.

Stabbed to Death by Negro Whom He Attempted to Arrest. Atlanta, Ga., June 17.—David S. Yancey, a special deputy sheriff, was stabbed to death yesterday in a desperate encounter with Eugene Watson, a negro whom Yancey was trying to arrest for snatching a pocket book. Watson, pursued by Yancey, took refuge under a house in the rear of 303 Rawson street. Yancey fired two shots from his revolver at the negro, wounding him in the leg.

### CONSECRATED BISHOP.

### 10-INCH SHELL FROM WARSHIP BROUGHT HERE YESTERDAY AFTERNOON.

WEIGHS 400 POUNDS

TO BE POLISHED AND ERECTED IN SOME SUITABLE PLACE WITHIN THE CITY LIMITS.

A ten-inch shell, taken from the battleship Maine, arrived in the city yesterday afternoon. The shell was sent here by Congressman John H. Small. Application for the shell was made about a year ago.

The shell weighs over four hundred pounds and stands about two feet high. It is the purpose of the Board of Aldermen to have it polished up, a suitable plate put on it and have it put up in some prominent place in the city as a memento of the Maine disaster in 1898.

The shell is, at present, in front of the City Hall. It was sent here via freight.

Washington is to be congratulated upon having secured one of these shells, as they are very much in desire by other towns and cities as relics. Thanks is due to Mr. Small for his assistance in helping the city to secure the souvenir.

There will probably be some discussion as to the most suitable place in which to have the shell put up. It appears to us that the small grass plot in front of the government building would be an excellent location.

### KING GEORGE LOSES \$100,000 IN FLYER IN CANADIAN PACIFIC.

London, June 17.—King George is holding daily conferences with Sir George White, his private solicitor, as a consequence of heavy losses suffered in the recent big slump of the stock market. The consultations are to arrange for the realization of securities held in trust for the king.

The king's losses are understood to have resulted from operations in Canadian Pacific. Last week that stock declined 14 points and the king's loss is estimated to be \$100,000.

Lord Revelstoke is the king's private financial adviser, but the operations were undertaken contrary to that banker's advice.
