Several White House bachelor parties are planned by the President while he is "bachelorhood." He has invited some Princeton professors and old college chums to visit him at the White House during the summer.

RELAY RACE TO CHICAGO.

Washington, June 24.—Promptly at noon today, President Wilson handed to a boy clad in the uniform of a Boy Scout a message of encouragement for clean athletics. The boy darted out of the White House and broke into a trot, and the 775-mile relay to Chicago was on.

Exactly 775 boys will handle the President's message. At noon on June 28, unless plans miscarry, the 775th boy will carry the Presidential message into Chicago, deliver it to officials of the great pre-Olympic athletic festival and the games of the International Athletic Championships Association will start.

Boy messengers will be carrying the message continuously from today on. They will run by day-light and star-light, the night runs to be made by the older members of the courier band. Parents of some of the boys at first objected to the night relays but officers of the athletic associations along the route volunteered to pace the lads in automobiles and all objections were removed. The route leads from Washington to Frederick, Md.; thence to Pittsburgh, Cleveland, Toledo, South Bend and Chicago. Each boy will run a mile, but care will be exercised to see that no boy overtakes himself. The majority of the runners are Boy Scouts. Others are school boys picked by athletic associations along the route. Each runner will receive an emblem as a souvenir of the run.

It is estimated that thousands will throng into New Bern on the day of the races to view the different events at the fair grounds.

CURRENCY REFORM IS URGENT

PRESIDENT WILSON FAVORS BILL AS IT STANDS.

TO BE PRESENTED TODAY

BILL WILL PROBABLY BE INTRODUCED TODAY. GREAT INTEREST OVER OUTCOME.

Washington, June 24.—Stripped of all verbiage and technicalities there are possible only two alternatives in reforming the currency, in the opinion of President Wilson. They are whether the people themselves shall control or whether the bankers shall usurp the power. And because of this fact the whole strength of the administration has been thrown behind the Wilson-Glass measure to be introduced today or tomorrow. The President intends that every possible weapon at his disposal shall be utilized to make the bill, practically as it stands, a law.

At his regular weekly conference with the correspondents the President today explained that he considers the currency bill just as much of an administration measure as is the Wilson-Underwood tariff bill. The country needs currency reform just as urgently as it does the reductions in the cost of living. The proposed measure may not be perfect—the President admits that he does not so consider it—but he insists that it is a long step in the right direction.

"It is absolutely imperative," says President Wilson, "that we should give the business men of the country a banking and currency system by means of which they can make use of the freedom of enterprise and of individual initiative, which we are about to bestow upon them. We are about to set them free we must not leave them without the tools of action when they are free."

Fellowship in Advertisements.

Merchants and manufacturers have certain articles they wish to sell. In order to sell them they advertise. "That is their business," you say, "they are doing it to benefit themselves."

True, they are advertising primarily for their own profit. But there is more to present-day advertising than that. It has created a spirit of confidence and friendliness between the seller and the buyer that has become so much a part of our daily lives that we hardly realize it unless we stop to think.

Have you ever made a purchase in the Orient? If so, you remember how you have entered a shop and after poking through confused heaps of articles you have found something that struck your fancy. You asked the price and were told it was worth, perhaps, the equivalent of a dollar. Then ensued haggling, haranguing, threats, imprecations, until finally at the end of half an hour you triumphantly emerged from the shop, the article in your hand and 50 cents gone from your pocket. When you looked again at your purchase your good common sense told you it was worth about 10 cents.

Contrast such an experience with shopping here today. You will appreciate as never before the value of The Daily News' advertisements, which lead you to firms known for their honest goods and their fair dealings.

LADS MEET DEATH IN RAPIDS

SHAKE HANDS AND BID EACH OTHER FAREWELL AS RUN-AWAY BOAT HEADS FOR NIAGARA WHIRLPOOL.

Niagara Falls, June 24.—Donald Roscoe, ten, and Hubert Moore, nine, both of Buffalo, went to their death in a small boat late yesterday afternoon in the Whirlpool Rapids while hundreds of men watched, helpless, from the shore. The boys had been playing in a flat bottom scow, half a mile above the rapids. The rope holding the boat broke and they were carried out into the stream and down the river.

Until the boat reached midstream it made little progress. After it passed the bridges the current carried it rapidly toward the rapids. The bridgemen did not see the boat until it was close at hand. When they caught sight of it they called Fire Headquarters, and Associate Chief Miller sent out two companies of firemen.

Hundreds swarmed to the river banks in a vain effort to save the boys. The boys, realizing their fate, stood up as the boat neared the edge of the roaring whirlpool and shook hands goodby. A second later they were engulfed by the crest of a great wave in the rapids. The boat shot out of sight. One of the boys was seen a moment later struggling in the rushing waters. Neither body has been found.
