ANTI AMERICAN MEETINGS IN JAPAN

YOUNGER ELEMENT DEMONSTRATES ACTION OF CABINET.

APPEAR TO WANT WAR

SAY THAT TIME HAS ARRIVED FOR PEOPLE TO ASSUME DETERMINED ATTITUDE.

Tokio, July 9.—The government is having difficulty breaking up anti-American meetings. The younger element is busy denouncing the Japanese Cabinet which they declare has failed in settling the California question. They say the time has arrived for the people to assume a more determined attitude and extend the national prestige.

It has been decided to continue the attempts to arouse public opinion by further anti-American meetings and the distribution of manifestoes. The speakers who advocate the most radical measures toward the United States were the same men who have daily tried to stir up the Japanese public during the last month.

WASHINGTON DEFEATED BY SCORE OF 17-2

LOCALS GET 4 HITS

BLAND AND FOWLE HIT HARD IN SEVEN-INNING CONTEST

ONLY 12 MEN FACE BARNES IN FOUR INNINGS. VISITORS HIT HARD.

Washington proved to be an easy victim to Farmville yesterday afternoon. The locals were unaccountable in hitting the Farmville twirlers and were defeated in a seven inning game, by the score of 17-2. About one hundred people were present to view the game.

Bland started in the box for Washington and lasted for two innings. He was in bad form, lacking both speed and control. While he worked, he hit two of the opposing batters, walked four and allowed three hits. He was taken from the box in the third, J. Fowle taking up the burden of the contest. Fowle fared little better than Bland and was hit freely. Taylor pitched the last inning and put out his men in one, two, three order. Too bad Manager Weston didn't try Dave sooner.

Barnes pitched great ball for the visitors. In the first four innings only twelve men faced him. He allowed but two hits in the five innings he pitched. Fowle took his place in the sixth and Horton pitched the final inning.

The summary was as follows:

MEETING HELD LAST NIGHT IMPORTANT MATTERS DISCUSSED

CHAMBER OF COMMERCE HELD REGULAR MONTHLY MEETING LAST NIGHT.

Inquiries Made Regarding Establishing of Cotton Mill Here. Proposed Change of Inland Waterway Route Discussed.

COMMITTEE REPRESENTING FARMERS' UNION APPEARS BEFORE MEETING.

TOBACCO WAREHOUSES OPEN AUGUST 20.

A regular meeting of the Chamber of Commerce was held last night. Correspondence from an experienced and successful business man of another town, was read at the meeting. The letter stated that the writer was considering the establishing of a cotton mill here and asked the Chamber to send him information regarding details.

The matter of a proposed change in the route of the Inland Waterway was discussed. This has heretofore been endorsed by the Chamber, and it is believed that the proposed route will mean still greater things for this section.

A committee from and representing the Farmers' Union, came before the meeting to ask co-operation in regulating specific charges and taxes of those who buy farm products on the local market.

Effort is being made by the Chamber to increase the number of times for collection of the mails and to secure additions to the postoffice force, that the midnight mails may be promptly distributed.

The secretary reported several inquiries for the booklet recently issued by the Chamber. It was announced that August 20th be the date for opening the local tobacco warehouses.

Specifications

A great deal is said in a disparaging way about the modern tendency toward specialization.

The time was when barbers were also doctors, when you could get a man who would pull your tooth or shoe your horse with equal willingness; when a woman, wanting the ruffles of her underskirt "pinked," would take them to the undertaker to be done.

There may have been a certain unique charm about such combinations of occupations, but the quality of the service rendered must have been somewhat uncertain.

Nowadays practically every man and woman in the productive business world, works along some certain well-defined line. The result of this specialization is shown in the disappearance of the jack-of-all-trades.

The medium through which the public is informed of the best of these articles and their of articles put into the market.

Local dealers should co-operate with and "hustle" for the manufacturers who use local newspaper advertising to exploit the products they handle.

The Bureau of Advertising, American Newspaper Publishers Association, World Building, New York, solicits correspondence with dealers and manufacturers interested in newspaper advertising for nationally sold merchandise.

TAYLOE RECEIVES APPOINTMENTS

Left Yesterday for Washington, D. C., to Act as Clerk to Senate Finance Committee.

Also Receives Important Position From State B. P. O. E.

Blinders for Men or Veils for Women.

Boston, July 9.—The modern tendency of women to dress immodestly has brought forth a prediction of woes for them from the Rev. Frederick E. Heath, pastor of the Warren Avenue Baptist Church, who says it is only a question of time before men will insist that women be shut up at home. He says it is going to be a choice between blinders for the men or veils for the women.

"I have been most reluctant to speak about it," says the pastor, "but the time has come when the men of America must rise to their plain duty. The women have gone too far. Young girls are walking up and down our streets every day so appalled that the right-minded citizen feels nothing but disgust for them.

"And the end is not yet. Now they tell us we are about to see a Paris offering called the 'expose toilet.' I understand the hobble and sheath skirt will be tame beside it. "I blame society, which sets the modes for the rest of us. And I declare that if the thing continues man will have to assert his manhood."

DREADNOUGHT BEING BUILT

PREPARATIONS BEING MADE FOR LAYING OF KEEL.

New York, July 9.—Preparations have been begun at the Brooklyn navy yard for laying the keel of the latest United States battleship, designated for the present as No. 59 for which there is an appropriation of \$16,000,000.

The vessel will be one of the largest men-of-war afloat. She will have a displacement of 31,400 tons; will be 608 feet long, 97 feet beam and have a draught of 28 feet 10 inches. She will be laid down on the ways recently vacated by the dreadnought New York, which is now in the basin receiving finishing touches.

VACCINATION TO PREVENT TYPHOID

Will Be Manufactured by State Laboratory—N. C. First Southern State to Experiment.

Raleigh, N. C., July 9.—Vaccination for the avoidance of the disease of typhoid fever, is the experiment that will go into form in North Carolina within the coming few weeks and in accordance with the special appropriation of \$2,000 for the manufacture of the typhoid vaccine, the State Laboratory of Hygiene will distribute the vaccine over the State at actual cost.

The last General Assembly made provision for the manufacture of this vaccine which can be inserted into the arm as in instances of smallpox, but the severity of the after effects is not to be compared with the smallpox inoculation. The insertion causes only a slight soreness as after effects, and the danger is not so threatening as in the case of smallpox vaccine.

North Carolina is the first Southern State to make application of the vaccine for typhoid fever, which has proved of worth to a number of Northern States, where practical use has been made in the reduction of the death rate as victims of typhoid. North Carolina heads the list of States for its remarkably large death rate from the disease. The statistics show that in 1911 the rate of death in the State from typhoid was 66 per hundred thousand for whites, and 72 for colored; in 1912 the reduction was made to 37 for white and 51 for negroes. Yet this is abnormally large when comparative figures show that for the same year, that the average in the entire United States was only 21 for every hundred thousand of the population.

Figures relative to the application of this new discovery of vaccine as a preventive for the disease, show that of 32,699 United States soldiers vaccinated up to July 1, 1913, the death dropped from 3.03 per thousand in 1909 to 0.3 in 1912.

LABOR NEWS AND NOTES.

There are 30,000 unemployed building trade workers in Milan, Italy.

A committee of the Kansas City Consumers' League will inspect dairies.

For fifty years Norwegian women in the postal service have been paid the same salaries as men for the same work.

A home is to be established in California for the aged and infirm members of the International Marble Workers' Union.

Washington's "Lazy husband's law," provides for imprisonment, trial and punishment of husbands who neglect or refuse to work and support their families.

The chief industry in a little village on the cape of Shima, in Japan, is pearl fishing, and the women are the fishers. The men stay at home and do the housework.

CHRISTIAN ENDEAVOR AT LOS ANGELES.

Los Angeles, Cal., July 9.—The twenty-sixth International Christian Endeavor Convention which opened here today has brought together about 25,000 young people from all parts of the country.

The program bears the names of a number of prominent speakers among them Rev. "Billy" Sunday, William Jennings Bryan, secretary of state; Dr. John Willis Baer, president of Occidental College, and Dr. Amos R. Wells, of Boston.

More than 450 voices compose the chorus to lead in the convention singing.

Other famous speakers to address the sessions are Rev. Charles M. Shelton, famous author and pastor, and leader in each of the denominations admitting Christian Endeavor.

Canada will send Hon. James A. McDonald, LL. D., and Rev. W. H. Barracough; Rev. J. Corey will bring a message from the dark continent; Rev. and Mrs. E. E. Strother will represent China; Rev. F. E. Harry, D. D., Australia; Miss E. M. Graham and Rev. William Patterson, D. D., Great Britain and Ireland.

The Christian Endeavor Institute, which is one of the most practical and helpful features of the convention, will have the expert services of the following Endeavor leaders and pastors: Mr. Karl Lehmann, Mr. William Shaw, Mr. E. P. Gates, Rev. G. W. Benn, Rev. D. A. Poling, Mr. Elizabeth Hall and others.

Richard Gibs, of Henderson, N. C., is quite sick at Dr. J. T. Gibb's residence, corner VanNorden and Second streets. Mr. Gibb was formerly a resident of this city. We hope that he may speedily recover.
