BARNES HERO OF GAME

The game yesterday, between the locals and Greenville, was, without any question, the most exciting played on Fleming Park this season.

NEW POST OFFICE AT WENONA

HAS BEEN ESTABLISHED THROUGH THE EFFORTS OF CONGRESSMAN SMALL.

Through the efforts of Congressman John H. Small, a new postoffice has been established at Wenona, the demonstration farm location on the Norfolk Southern railroad, ten miles north of Belhaven. This postoffice was opened for business on July 10, with George Rice as postmaster.

The locality served by the new office has been heretofore getting its mail service through the postoffice at Pango. The people at Wenona have been greatly inconvenienced in the way of mail service, in the past, owing to the long distance to the Pango office. All trains stop at Wenona and with the newly established postoffice located directly at this point patrons of the new territory will have quick and efficient service.

This new location will serve not only Wenona farm and the new state experiment station operations, but will also afford quick service to all parties who are interested in the large development work now being carried on by the John L. Roper Lumber Company in the Wenona district.

It is expected that several new families will soon settle in that locality and the new postoffice will be of inestimable value to all concerned. Readers of the News and all others interested in mail for the Wenona district, can hereafter use the new postoffice address of Wenona, N. C.

WOULD FLY BY MAN POWER

Paris, July 23.—The French government is devoting much attention to new inventions by native aviators, designed to permit man to fly entirely by his own exertion. No motor or other outside power enters into the making of these small machines, called "aviettes," the fundamental idea being to propel them by human force alone.

The results so far have not been strikingly successful, but high hopes are entertained of several new "aviettes" now under course of construction. The formula followed by these inventors was obtained by Magman, director of a French technical school, who, after years of study declares he has succeeded in translating the principle of a bird-flight into mechanics.

FORTY GIRLS BURNED TO DEATH

LOST LIVES IN FIRE IN OVERALL FACTORY YESTERDAY AFTERNOON.

MANY ARE SWEEP BY SHEETS OF FIRE INTO THE BURNING BUILDING AFTER THEY SOUGHT SAFETY IN FLIGHT.

Hampton, N. Y., July 23.—Forty girls are believed to have lost their lives in a fire which destroyed the Freeman Overall Factory here yesterday afternoon. The fire started at 2:30 o'clock and had completely destroyed the building in twenty minutes.

One hundred and twenty-five girls were in the factory when the fire was discovered. The police declared that at least 40 failed to escape. Twelve girls were taken to the hospital badly injured.

There were heartrending scenes when several girls, clinging to dry scraps were swept by sheets of flames or jumped from the factory windows. Exactly how many were wounded inside was hard to determine in the panic. The walls of the big building fell at 2:50 o'clock. At 3:45 two bodies are lying on Division street out completely in two. Others can be seen in the ruins.

E. J. Lawrence, bookkeeper of the company, said that he was working in the office when the first alarm sounded. The flames were under the front stairway. There also was a rear stairway and fire escapes at the south side of the building. Most of the women were employees in the machine operating room on the fourth floor. They made no attempt to hurry from the building at first, thinking that the fire alarm was for a fire drill.

Barbers Act As Coroners.

In Egypt a large proportion of the barbers are state functionaries. According to an edict issued by Ibrahim Pasha in 1848, every village barber was ordered, when death occurred in his district, to make a careful examination of the corpse, and report to the authorities any death occurring through epidemic, disease or foul play. Severe penalties were imposed for any neglect of this duty, and a fee of 5 cents was paid for each death registered. Five years ago the system of payment by fees was abolished and each village barber now draws from the government a fixed salary for his services.

COST OF LIVING CLIMBS

Washington, July 23.—Only it is a few days since it was announced that a corporation had begun business in this city to reduce the high cost of living, the remains that living expenses are climbing. This is shown by a

Sherman Allen, Assistant Secretary of the Treasury, by the government's general supply committee. This is that the cost of groceries and household supplies has increased 17 per cent, as compared with last year; lumber, 10 per cent; fuel and ice, 7 per cent, and dry goods, 5 per cent.

While these essentials are soaring, the report showed decreases in the prices of the following: Forage, flour and feed, 20 per cent; paints and oils, 12 per cent; hardware, 7 per cent, and furniture, stationery and electrical and engineering supplies, 5 per cent each. These last named articles were stationery, drugs and chemicals, laboratory apparatus, photographic supplies, engraving and printing supplies and incandescent gas lamp supplies.

David Evans took Miss Lizzie Lewis to the Hollins camp meeting at Piney Grove Sunday. They report a fine trip.

Miss Lillian Lewis was the guest of Miss Lily Warren Sunday evening.

Larry, the faithful old dog of J. G. Lewis, died last Saturday night.

Some few days past J. Q. Edwards' dog was taken with what was supposed to be rabies and he was killed. Dogs are getting scarce in this section.

A Word to the Wives

Is Sufficient.

After everything has been said that can be said on the subject of women's rights, all true women feel, no matter what their political ideas may be, that their first and most important duty is the thrifty and business-like management of their households.

The question of pure foods is very much before the public at the present time, and every housekeeper is desirous of having on her table food stuffs that are as nutritious and as little adulterated as it is possible to procure.

There has been a campaign of public education on this subject, and the woman who has kept up with the times knows what to avoid in buying her provisions.

A good housekeeper can not spend her time more wisely than by informing herself on these points by reading the advertisements in The Daily News and other newspapers of equal standing.

"SLASHES" MADE MEN BLUSH.

Hester, Pa., July 23.—The and respectable men who blushed when they saw the transparent costumes of the women," according to the chairman of the Rochester City Council, will very likely be spared further blushes, for the council is expected to meet within a few days and pass an ordinance prohibiting the wearing of slashed skirts, transparent hose, short sleeves and tight fitting dresses. It has developed that a previous attempt has been made to pass such a law, but there was a deadlock in the council. No one has been bold enough to say, however, who voted against the measure.

ROOSEVELT FOR MEXICO

Murray, of Oklahoma, well known as "Alfalfa Bill," introduced an elaborate set of resolutions yesterday in which he invites the Senate to concur, directing intervention in Mexico if order and peace are not restored within thirty days after President Wilson issues a proclamation to that effect.

Murray's resolutions characterize Provisional President Huerta as a "usurping marauder," a "blackhaired murderer" and his regime as "founded upon treachery, duplicity and murder."

Denison, Tex., July 22.—Fifty-four men who have just completed a trip by special train through parts of the Rio Grande Valley, investigating land investments along the Texas-Mexican border, sent a telegram from here last night to President Wilson, recommending the appointment of Theodore Roosevelt as ambassador to Mexico.

The petitioners, who signed themselves "citizens of Iowa, Illinois, Minnesota, Missouri and other States," urged protection of American citizens in Mexico and steps by the United States "to go to the assistance of our sister republic."
