

WEATHER: Showers tonight and Saturday.

DR. REAVES TO LECTURE HERE

LECTURES ARE EXTREMELY INTERESTING AND ARE ILLUSTRATED WITH SLIDES.
Mrs. H. W. Carter, who has returned home from attending "Home-Makers' Week" at Greensboro, states that Dr. Wm. Perry Reaves, the noted lecturer, has consented to come to Washington and deliver an address here. Dr. Reaves is known throughout this section of the country as a noted specialist on the care of the health, teeth, voice, hearing and sight. The exact date for his lecture here has not yet been decided upon. The lectures are extremely interesting and are illustrated by lantern slides. They will be given at the Auditorium.

BETHEL TO PLAY HERE THIS AFTERNOON

VISITORS HOPED TO HAVE STRONGEST TEAM IN YEARS.
Game Will Be Played at Fleming Park; Barnes Will Probably Do Twirling for Locals.
Word was received by the manager of the Washington baseball team this morning to the effect that Bethel would play here this afternoon. The players will make the trip via automobile. It is rumored that Bethel has the strongest team that they have had in years and that they confidently expect to take victory home with them.
The game will be called at 4:30. Barnes will probably do the twirling for the locals.
FREMONT, 7; GREENVILLE, 5.
Fremont, July 31.—In a slow and uninteresting game, devoid of features except for the home run by Aycock, B., for Fremont, with two men on bases, Fremont defeated Greenville here today, 7 to 5.
Score by innings: R. H. E.
Fremont . . . 400 201 003—7 6 2
Greenville . . . 000 000 100—5 5 5
Batteries: Braswell and Watkins; Ragsdale, Lanier and Joyner. Umpire, Spence.

R. H. BROOM RETURNED FROM BLADEN

CONDUCTED SERIES OF SUCCESSFUL REVIVAL MEETINGS.
Met With Marked Success. Five New Members Were Added to the Roll of the Church.
Rev. R. H. Broom returned last evening from Bladen County, where he preached during the past five days at a series of revival meetings held at Mr. Broom's home church at Bethel, near White Oak.
Much interested was displayed at the meetings and the spirit in the church and in the church work was greatly revived. Five new members were added to the roll.
WILL CLOSE AUGUST 8.
Summer Term at East Carolina Teachers' Training School.
Greenville, July 31.—The summer term at the East Carolina Teachers' Training School will come to a close next Friday, August 8. It was at first planned to bring the close of the term up to Saturday, August 9, but the young ladies yesterday voted to have school on next Monday, which is every week a holiday, and to close the term on Friday instead of on Saturday.

FLEMING AND TAYLOR LEAD LOCAL PLAYERS

FORMER HAS AVERAGE OF 429, WHILE TAYLOR HAS PERCENTAGE OF 333.
Below are the batting averages of the local players up to date.
Fleming, the new first baseman, is leading with the percentage of 429, although he has only been at bat 7 times. The real leader is Taylor, who is going at a 333 rate. Batting runs next to Dave with 267.
Names: A. B. H. E.
Fleming 7 3 429
Taylor 31 7 333
Davenport 15 3 267
Watkins 15 4 347
Barnes 24 8 250
Moore 9 2 323
Smith 8 2 200
Cowell 20 4 300
Carrow 19 5 157
Brown 10 1 100

HOT FIGHT IN GREENE COUNTY

FIGHT BEING WAGED IN THE INTEREST OF GOOD ROADS IN THAT COUNTY.
TO HOLD BOND ISSUE ELECTION.
Political circles stirred to the bottom over proposed bond issue election.
Kinston, July 31.—Political circles in Greene county are stirred now as they have not been in many years, by the hot fight being waged there for a bond issue for good roads. The matter will be settled by elections in each township on August 13, and if the issue carries in all of them the amount to be expended on highway improvement will be \$180,000, an extensive sum it is contended by many, for a pauper county, with only 11,000 people. The campaign has brought about a split in the administration, it is said, and a canvass of sentiment regarding the bond issue gives neither side any decided lead. The campaign is being conducted as a county issue, and in each township by subordinates to the county leaders, and the good roads enthusiasts claim that in every township they will be able to carry the election two weeks hence. The issue is certain to be the cause for the making and breaking of party leaders in State and county elections in Greene for several years to come.

DANIELS IS THREATENED BY INDUSTRIAL WORKERS

SECRETARY OF NAVY RECEIVED MENACING LETTERS FROM MEMBERS OF THE ORGANIZATION AS RESULT OF A RECENT SPEECH.
Helms, Mont., July 31.—Secretary of the Navy Josephus Daniels, has received a number of threatening letters from members of the Industrial Workers of the World as a result of his utterances and the riots which occurred during his recent visit to Seattle, it was learned today.
Mr. Daniels told Governor Stewart, who accompanied the Secretary yesterday from Deer-Lodge to Butte, of the threatening letters, but said he had no fear of any harm coming to him.
The Secretary's aide, however, is apprehensive that some of their plans may be executed and is taking precautions to safeguard Mr. Daniels.
Gets New Thrill.
Butte, Mont., July 31.—Although he has cruised under the waters of the ocean in a submarine and soared above the clouds in an aeroplane, it remained for Butte to give Secretary of the Navy Daniels the thrill of his life when he dropped yesterday almost in the twinkling of an eye 1,800 feet into the depths of the Leonard copper mine.
The Secretary shook hands with all the miners and accepted all the specimens of ore they offered until his pockets were filled.

JOHN H. SMALL TO SPEAK AT MEETING

IS ONE OF THE PRINCIPAL SPEAKERS AT THE GOOD ROADS CONVENTION TODAY.
Hundreds of Delegates at Morehead. Fish Fry and Clam Bake to Be Given at the Beach this Afternoon.
Hundreds of delegates from all sections of the state arrived in Morehead City yesterday to attend the Good Roads Convention.
The session opened this morning. One of the principal speakers of the day will be Congressman John H. Small. It is believed that Mr. Small will do all in his power to aid Washington in securing the State Highway to pass through here. Other noted and well known men in the state will also deliver addresses at today's meeting. At three o'clock this afternoon, the members will be tendered a fish fry and clam bake at the beach by the local Chamber of Commerce. More than 500 are expected to attend.

OBITUARY

John Allen, died yesterday after a prolonged illness. He is well known throughout the State and in this County. He is survived by a daughter, Mrs. E. N. Spencer of Raleigh, who is also known to several of the residents of Washington.

Sen. Simmons Recommends J. W. Bailey

Will Be Revenue Collector For Eastern District.
Dortch Has Been Recommended for Marshall and Winston Will Be District Attorney.
Washington, July 31.—Probably reasoning with himself that "a bird in the hand is worth two in the bush" Josiah William Bailey, of Raleigh, has finally consented to accept the internal revenue collectorship for Eastern North Carolina instead of being made district attorney to succeed W. F. Seawell, whose commission does not expire until some time next year. Senator Simmons has recommended the Raleigh man to Secretary of the Treasury McAdoo, and it is expected that his nomination will be sent to the senate within a very short time and that he will assume the duties of office, relieving Wheeler Martin as soon thereafter as his bond is made.

HOUSE READY FOR CURRENCY BILL

Washington, Aug. 1.—The House is ready for the currency bill which is expected to reach that body now within a day or two. There will probably be several amendments offered when the bill reaches the House. Representative Henry of Texas, will be one of the main Democratic suggestors of amendments, but in the end will support the bill, as will Representative Eagle, according to those posted on the progress of the measure.
Representative Wingo of Arkansas has several amendments, one of them being for more liberal provisions in the bill in the interest of the agricultural industry. Easier and more direct methods of getting emergency money during the moving period is desired by Wingo and others. Their cry is that the South is being discriminated against in the bill.

SPORTS

Athletics.
Jim Ravell, the junior 100-yard champion will run in the senior metropolitan games next month.
Several of the best clubs in the Middle Atlantic Association are endeavoring to get actions to hold meets on Labor Day.
The South African Athletic Association has accepted the offer of the British Athletic Association to send out a representative team of athletes at the end of the 1913 season, to tour Africa. The guarantee is \$5,500.
Myles McHugh, the big Pastime captain should show a great half mile at the senior meets. With Sheppard, De Gruchy, Baker and McHugh in the running, this race should prove a real thriller.

Senators Say Will Stand Together

Democratic Senators Will Endeavor to Force Wilson to Make Appointments Desired by Them.
PATTERSON WILL FAIL.
Washington, July 31.—The Democratic senators will stand together in attempts to force the Wilson administration to make appointments to federal jobs as desired by them. The action late yesterday, when without a dissenting vote, the nomination of Paul A. Jones to be postmaster at Coffeyville, Kan., was rejected, was intended as a demonstration by the senators of their power over appointments.
The next show of senatorial strength in this respect will come upon the nomination of Adam E. Patterson to be register of the treasury. The senators from the southern states—even senators loyal to President Wilson in all other matters—have served notice that Patterson cannot be confirmed. Patterson called at the White House today but was not received either by the President or by Private Secretary Tumulty.

AUTO CHUGS AND SPURTS

Nearly \$3,000 in prizes will be distributed at the Brighton Beach meet. Automobile and allied interests are giving great support to the Lincoln highway movement.
The Governor of Colorado has promised to place 2,500 convicts at work along the route of the Lincoln highway immediately. Colorado convicts work without guards on the road.
The Western Automobile Company, distributor of the Pierce-Arrow, has received the 1914 model of that car. The most noticeable change is the location of the headlights in an opening in the fenders so that the lights mark the extreme width of the car. The car preserves the right drive, which is held best adapted to touring.
The fuel problem abroad is more acute even than in this country, and so every new thing that may relate to a solution of the puzzle is watched with interest by engineers and motorists there. An American idea, patented by a West Virginia maker of motor trucks, to compress natural gas and use the liquid as fuel, has attracted attention abroad and English publications devote much space to it.

FOR A CANAL BEAUTIFUL

Washington, Aug. 1.—The report of the Fine Arts Commission charged with the preparation of plans for the beautification of the Panama Canal has been completed and is expected to be transmitted to Congress today.
The plans consist of landscape effects to make artistic the approaches to the canal, as well as the locks, and the country through which the great waterway has been cut.
As far as possible the commission proposes to preserve existing beautiful landscapes and to supplement them by the planting of trees.
The preliminary report was drafted by Daniel O. French, chairman of the commission, and Frederick Law Olmstead, who went to the canal zone as a special committee.

Freight Train Goes off Bridge Into Jack's Creek

Accident Occurred 11.30 This A.M.
Two Cars Badly Damaged. One Entirely Submerged by Water. Contents Ruined. No One Injured.
Trains are entirely ruined. The side of the bridge is torn away and the rails are curved up. The exact cause of the accident is not known. No one was injured in the accident, the accident, the brakemen being at the other end of the train. The evening train for Raleigh will not be able to enter the station yard, on account of the wreck and it is believed that the passengers will have to go to the other side of the creek in order to get on board of the train.
A Norfolk Southern freight train went off the track while crossing Jack's Creek this morning at 11:30. The train was backing out of Washington, and had just gone on the bridge, when the two leading cars left the rails and went over the bridge. The first car is almost entirely submerged by water, while the second car fell squarely on top of it. The bottom car is badly damaged and torn and it is believed that its contents are ruined.

A "Mother Goose" Ball

Newport, R. I., Aug. 1.—Mrs. Stuyvesant Fish, whose entertainments to society are world-famed, gives a "Mother Goose" ball at the Crossways, her summer home here this evening. Mrs. Fish will dress as Mother Goose and the guests will impersonate various nursery characters. It is said that the entertainment has cost in the neighborhood of \$60,000. Mrs. Robert Goellet, one of the handsomest young matrons in society, will add to her many fancy costumes triumphs by appearing at the nursery rhyme costume ball Mrs. Stuyvesant Fish is giving at Crossways, August 1, as "Little Bo Peep." Her costume is the product of special artists and costumers. Mrs. Goellet has purchased a little lamb which she has trained to walk at her side in the ballroom.

THE PRESIDENT'S CANAL TRIP

Washington, Aug. 1.—Contrary to rumor, it is stated here that President Wilson has not abandoned the idea of making a mid-summer trip to the Panama Canal. As soon as he can get away from Congress Mr. Wilson plans to board a warship and leave for the Isthmus.
A mid-summer trip to Panama will be something new for a President of the United States. President Taft's trips were made in the fall or in the winter when the season is supposed to be comfortable on the Isthmus. Statesmen of experience agree, however, that if Mr. Wilson can stand a Washington summer he won't have much difficulty in enduring August weather in the tropics.
Mr. Wilson it is said feels under obligation to become acquainted with the details of this great work at first hand as soon as possible.

INSTALLS NEW X-RAY MACHINE

"Solace Interrupterless" Now in Service in Dr. Pollock's Office in New Bern.
Dr. Raymond Pollock has installed in his office on Middle street the very latest and most improved X-Ray machine. It is the "Solace Interrupterless," manufactured by the Waite & Bartlett Manufacturing Co. of New York. Dr. Harry E. Waite, a member of the firm which manufactures the Solace, was here to install the machine, leaving for home yesterday afternoon.
The purpose of such a machine is to take radiographs of various parts of the body. Its advantage over the ordinary machine is that whereas the ordinary machine would require thirty to sixty seconds or even longer to make a radiograph, this machine will do it in from one-hundredth of a second to one and one-half seconds. For instance, for the ordinary kidney plate an exposure of only three-fourths of a second is required. As a result of these very short exposures the greatest amount of detail is shown, so that the diagnosis is much more accurate.
The voltage is 150,000—to make instantaneous pictures of the stomach, making it possible to make early diagnosis of cancer and gastric ulcer, likewise of tubercular lesions before there are physical signs present. The machine also has a special device which makes it suitable for treating skin cancers and various other diseases of the skin.

THE CANAL CONGRESS

Brussels, Aug. 1.—Distinguished physicians from all parts of the world are here attending the third International Cancer Congress which opened today. Experts declare that cancer, next tuberculosis, is the greatest cause of death, and, unlike tuberculosis, it shows a constantly increasing death rate. Recent advances in the treatment of the disease will be discussed fully. Following the congress the delegates will go to London to attend the International Medical Congress, which opens there August 6.

AUGUST 1 IN HISTORY

1625—The first Parliament of Charles I. of England, on account of the plague, met at Oxford.
1772—A revolution was effected in Sweden by the army, and dissimulation of the crown.
1864—Union and Confederate armies, under a flag of truce, engaged in the burial of the dead who fell in a terrific engagement before Petersburg, Va.
1904—The United States government directed Minister Bowen to protest against the seizure of asphalt properties by the Venezuelan government.
1904—Sortie of Russian torpedo boats from Port Arthur.
1912—Japan mourns death of the Mikado.
Paul Simpson, J. W. Watts and J. D. Simpson spent today in Washington on business.
Misses Hannah V. Fowden, Mary Cowell, Luna Fulford, Eliza Branch, Mae Blount, Messrs. Herman Carrow, C. B. Bell, David Carter, William Eselworth enjoyed a trip to Vandemere yesterday, where they were the guests of Mrs. S. L. Laughinghouse. They returned to Washington this morning after spending several hours fishing before their departure.

Remember the Date for the Opening of the Washington Tobacco Market is Wednesday August 20th.

The Highest Prices will be Paid For All Grades. All Farmers Needing Aid In Housing Their Tobacco Crop Will Be Taken Care Of
