GOOD DEAL FOR CITY

The citizens of Washington should congratulate themselves upon the settlement of the water works proposition made by the Board of Aldermen. We have felt that a satisfactory agreement would be reached at the proper time. As one member of the Board said there was too little difference between the Water Company and the city to justify a law suit.

At the four hotels now in operation girls may obtain rooms at \$4 a month. Each hotel is fitted with all modern conveniences and contains a library, a large dressing room and a scientific washhouse for girls who wish to do their own washing.

REPORT OF GRAND JURY

By the grand jury and a new, modern, and beautiful building is recommended. We have also examined the County poor farm, and this name is very significant of the institution. The grand jury has submitted their report in writing, which is herewith attached, to which we respectfully invite attention.

Witnessing to the illicit selling of liquor, we beg to report as follows: We have had before us the agent of the Express Company and the two traveling companions at this city, with their records, and upon examination of the same, we find that various persons have procured and received the same from them what we consider sufficient evidence to convict. It is, however, so obvious to the grand jury that there is illicit selling of liquor that we would recommend to the proper authority, the county State, as the case may be, that they procure the services of a detective to search out and procure such evidence as is necessary to convict such persons; and have such reports submitted to the next sitting of the grand jury.

Respectfully submitted, C. F. BLAND, Foreman.

There's Comfort

In the Breeze Swept, Dustless Homes in WASHINGTON PARK.

Melbac's Failure. Melbac was one of the most sensitive of authors, and M. Felix Duquesnel relates his reception of the news of one of his rare failures at the Odéon. He had taken refuge from his nervousness in the manager's office, and friends came to him from time to time to tell him how things were going. They could only tell him first that things were going badly and then that they were going worse. At the end of the fourth act they no longer thought it worth while to tell him anything at all. He in the meantime had collapsed. He had tumbled out of the armchair, fallen on the floor and rolled under the desk, and it was there that he was found, with his head buried in his hands, when an attendant at last entered to turn out the gas and lock the door.—Paris Temps

FINE HOTEL FOR POOR GIRLS

Paris, Aug. 7.—Plans are being perfected here for the erection of a modern hotel for the exclusive use of poor girls. A society has been organized for the purpose headed by Prince d'Arburg. Four of these hotels are already open, and the formation of a new company backed by the prince, the Count de Montalivet, the Marquis d'Harcourt, the Duke de Mortemart, the Count de Vogue and the Duchess de Guiche lends it powerful interest to the movement. At the four hotels now in operation girls may obtain rooms at \$4 a month. Each hotel is fitted with all modern conveniences and contains a library, a large dressing room and a scientific washhouse for girls who wish to do their own washing.

Have a Purpose.

The first great rule is that we must do something—that life must have a purpose and an aim—that work should be not merely occasional and spasmodic, but steady and continuous. Purpose is a jewel which will only retain its lustre when it is in a setting of work; and a vacant life is one of the worst of pains, though the islands of leisure that stud a crowded, well-occupied life may be among the things to which we look back with the greatest delight.—Lecky.

MORTGAGE SALE.

By virtue of a power of sale contained in a certain mortgage deed, dated January 8th, 1906, executed by B. J. Ayers and wife, Louisa Ayers to Sullie Lockyer, which said mortgage deed is duly recorded in the office of the Register Deeds for Beaufort County in Book 143 at page 179 and is hereby referred to, and by virtue of a deed of assignment and the powers contained therein executed by C. C. Stewart and wife, Sullie Stewart, the latter having been formerly Sullie Lockyer, to Geo. A. Phillips, which said deed of assignment is dated January 6th, 1912, and is recorded in said Register's office in Book 170 at page 182 and is hereby referred to for particulars, I will on Monday the 11th day of August, 1913, at 12 o'clock, noon, offer for sale to the highest bidder for cash, the following described real estate: A certain piece or tract of land lying and being in Beaufort County, State of North Carolina, in Tranters Creek Township, and described and defined as follows, to-wit: One piece or parcel of land in said Township adjoining the lands of John Gray Leggett on the South and Marshall and Simon Leggett on the North and Eugene Perkins on East and the Bowen land on the West and being the same bought by Benjamin Ayers from David Ayers. See deed from David Ayers to Benjamin Ayers for better description and better known as the Jackie Dudley land and containing seventy acres more or less. This 9th day of July, 1913. GEORGE A. PHILLIPS, Assignee and Owner or Debtor. By Collin H. Harding, Attorney. 7-9-13-4w

DANIELS FAVORS SOUTHERN YARDS

POOR ECONOMY TO ALLOW NAVY SEATONS TO GO TO WASTE, HE SAYS.

Is Much Impressed by the Possibilities of the New Orleans Naval Station.

Washington, Aug. 6.—There are good days ahead for the Southern navy yards and stations, if Secretary Daniels can manage to get the necessary appropriation to carry out his ideas. The secretary let it be known today that he considered it poor economy to allow the vast sums of government money represented in the construction and equipment of the yards to go to waste without any adequate return.

Just returned today from his inspection of the yards of the South and the West coast, the secretary spoke enthusiastically of the possibilities of development in the South. He declined to commit himself at this time to any definite statement of what he is to recommend in the case of any particular navy yard, as he desired to consider the subject of the development of the yards on broad lines, and recognizing their independence. Also, he said, there must be considered the possibility of securing appropriations, the amount of which, of course, depends in some measure upon the general condition of the revenues, now in a somewhat unsettled condition.

The secretary was much impressed by the possibilities of the New Orleans naval station and spoke of the big dock and the fine buildings there. He said he had no doubt of the value of this station as a naval asset notwithstanding the fact that some naval officers argued that it was too far up the river to be convenient for docking purposes. He added that the only question in his mind was to what use the yard could best be put.

AMERICANS WARY OF FRENCH

Paris, Aug. 7.—Since the announcement of the discovery of swarms of microbes on French coins, Americans have had difficulty in getting new money in the French capital, as they do not wish to handle any old coins. M. Marc Langais, the noted scientist, reports that he washed various pieces of money in a fixed quantity of sterilized water. Taking an average a cubic centimeter of the water in which a bronze 10 centime piece was washed would disclose no fewer than 750,000 bacteria, 3 per cent of which was mouldiness. The nickel 25 centime piece yielded 140,000 bacteria, 2 per cent of which was mouldiness.

A Profitable Investment Houses not wired for electric service are not in the "all modern improvements" class. Tenants taboo them as being inconvenient, uneconomical and unfashionable. Landlords find them hard to rent, difficult to sell and expensive to insure. Your friends and neighbors who own, buy, sell or rent houses, will substantiate these facts. Eliminate these drawbacks by having your houses wired. We do the work at moderate cost and on easy terms. Washington Electric Plant
