### PREIGHT RATE MEETING AT RA LEIGH.

On next Tuesday there will be hig freight rate meeting at Raleigh. Almost every county in the state will be represented at the meeting by delegates and will take a part in the adjustment of freight rates and the discussion of the present rates.

Pitt and the other neighboring

counties are going to be well represented at the meeting but as far as plied to a cut, bruise, strain, burn or we can learn Beaufort has made no plans to have delegates attend the scald or other injury of the skin will convention. Many of the counties in immediately remove all pain. E.E. the state have "Just Freight Rates Chamberlain of Clinton, Me., says:—Associations." An organizer was "It robs cuts and other injuries of in Washington some six weeks ago but was unsuccessful in forming an its equal don't organization here. Although we good for you. Only 25c at all drug-are handicapped in this, we believe gists. that it would be a good idea for the Chamber of Commerce to appoint a committee to attend the meeting Raleigh and represent the interests

## ATHLETICS

Howard P. Drew, the colored sprinter, of Springfield, Mass., has entered the Empire City meet.

Ernest Barry, the English sculler an dholder of world's title, may be asked to consider a challenge rom Frank Geer, of Boston, who claims the American championship.

One-armed are getting their share of the prizes these days. C. C. De should be not merely occasional and Sauliners of the North Dorchester sparmodic, but steady and continu-A. A., who has but one arm, is doing ous. wonderful sprinting in New

England. ten-miler is coming back to compe-smarts of lessure that start sta ning in a few days, and will point for the ten-mile championship. Were Joe to take his running seriously there would be few ten-milers that would show him the way. Jim Rosenberger will likely start

AMERICANS WARY OF FRENCH

Parls, Aug. 7.—Since the announce ment of the discovery of swarms of microbes on French coins, Americans have had difficulty in getting new money in the French capital, as they do not wish to handle any old coins. Marc Langais, the noted scientist, reports that he washed various pieces of money in a fixed quantity of werilized water. Taking an average a cubic centime piece was washed would disclose ho fewer than 760,000 bacteris. 2 per cent of which was mouldiness.
