WOMAN'S OPPORTUNITY.
An incident was cited a day or two ago where two sisters, born in this state, were confronted with the proposition of furnishing legal proof of their ages in order to obtain an inheritance.

Now, the new state law for the registration of births and deaths in the entire state will go into effect October first next. It is needless to say that the success of this new system will depend upon whether or not the arm of the law is upheld for it is almost axiomatic that a law that has no public sentiment back of it, or at least the support of the majority of the citizens, is difficult of enforcement.

The other day, speaking to the delegates to the American Public Health Association in session at Colorado Springs, D. Cressley L. Wilber, Chief Statistician of the Division of Vital Statistics of the Bureau of the Census at Washington, D. C., said that some people thought that all that was needed was to pass laws requiring the reporting of deaths, births or marriages, and that the matter was then settled.

"If I should be asked," said he "what is the greatest, the underlying, the everywhere present, and so far as our present experience extends, the insuperable difficulty or hindrance to the effective registration of vital statistics in the United States, I might reply: 'Contempt of Law.' We may pass the best possible 'model laws,' but if the state registrar or the local registrar fails to enforce them, or if the social workers, the physicians, and the members of the American Public Health Association fail to respect them, our work is almost in vain."

And Dr. Wilbur might have included the citizens at large in his category. Let this not be the case in North Carolina. The fate of the law is in the hands of her citizens.
Dr. Wilbur went on to say that this contempt of law could be overcome only by a thorough process of education. For instance, in the registration of births there was needed most of all a better understanding and a greater co-operation on the part of the women. Once the women realize that the new bureau, established for their benefit is seriously handicapped because of inadequate registration of births and infant deaths, there would be an irresistible demand that every birth and death be properly recorded.

Women of North Carolina, your opportunity is at hand. You have failed before. It is not feared that you will do so now.

THE NINETY AND NINE
Every county in North Carolina is now in line for the eradication of hookworm disease except Ashe, whose county board of health recently failed to take favorable action on the proposition to make an appropriation for the establishment of hookworm dispensaries and a hookworm disease except Ashe. When Orange county's Board of Commissioners at its last session voted an appropriation of \$250 for the purpose of co-operating with the State Board of Health, the ninety-ninth county was in line, for recently Randolph and Davidson have made similar appropriations. It is earnestly hoped that Ashe will finally come into her own.

THE FIRST CORSET.
The first corset—not counting ancient modifications of the Grecian zone and girdle—was introduced into France by Catherine de' Medici. It was a strange affair and fashioned after the style of a knight's cuirass. The framework was entirely of iron, and the velvet, which decorated the exterior only, served to hide a frightful and cumbersome article of torture.

THE SCRIPTURES.
The present arrangement of the Scriptures into chapters originated in the thirteenth century with Cardinal Hugo, who devised it while making a Latin concordance. The division into verses was introduced by the celebrated printer, Robert Stephens, in his Greek Testament (1551) and in his Latin Bible (1556-7).

LAVERNER.
Lavender, the popularity of which was revived by the late Queen Victoria, grows at its best in England, where the stalks and flowers frequently bring \$9 or \$10 a pound and sometimes much more. A pound of flowers yields from one-half to one dram of oil and an acre from ten to twenty-five pounds of flowers.

MUMMIES MAKE PAINT.
Mummies are usually preserved in the finest bitumen, and this ancient bitumen has, in the course of centuries, turned the mummies a leathery brown tint. It has been found that when the bitumen and the mummies are ground down by machinery, a beautiful brown pigment is the result, exactly the tint required for painting certain shades of brown hair.

THE FOUR-YEAR-OLD TWINS, who had been playmates of their own age, were delighted when a little girl of three came to visit a neighbor.
After the three children had played together for a time the twins, hand in hand, went to their mother and said, "Mother, where's the other one of her?"—Youth's Companion.

ONE WORSE.
"The most disgusting person on earth," said the man on the car, "is, in my opinion, the woman who is constantly nagging her husband. I mean the kind of a woman who never leaves a man alone, who gets in the habit of finding fault with everything he does, of dictating what he shall eat and wear, when he shall come home, whom he shall know. Such a person is the most horrible specimen of humanity."
"No, she isn't," denied the other man quietly.
"What's any worse?"
"The man who will stand for it."—Cleveland Plain Dealer.

THE TRUTH.
Fear is not in the habit of speaking truth. When perfect sincerity is expected, perfect wisdom must be allowed. Nor has any one who is apt to be angry when he hears the truth any cause to wonder that he does not hear it.—Tacitus.

DESERT DANCE.
There is a popular idea that deserts like the Sahara are the bottoms of ancient seas which have been lifted above their original elevation by geological forces. This notion is an erroneous one. Authorities contend that the sands of all the great deserts have been formed on the spot by the distillation of the solid rocks on which they rest.

Great For Your
Liver and Bowels

Young and Old, Male and Female, all Sing the Praises of Hot Springs Liver Buttons—
"Make You Feel Fine in a Day."
Don't fool with Calomel or Salts or harsh purgatives that act violently many times injuring the lining of the bowels, and causing serious illness.
HOT SPRINGS LIVER BUTTONS are mild, gentle, yet absolutely certain. They always act peacefully on the bowels and never fail to unblock the stubborn liver, and compel it to do its work properly.
Physicians in Hot Springs, Arkansas, prescribe them because they know that there is nothing better they can prescribe. Take HOT SPRINGS LIVER BUTTONS as directed and get rid of constipation, dizziness, biliousness, sick headache, yellow, pimply skin. They are a fine tonic, for they drive impure matter from the blood, make the bowels and stomach antiseptic, and give one a hearty appetite. All drug stores sell them, and money back if they are not just what you have been looking for. Sample free and 100 of 17,000 testimonials from Hot Springs Chemical Co., Hot Springs, Ark.

NOTICE OF ALIAS SUMMONS, WARRANT OF ATTACHMENT AND WRIT OF GARNISHMENT.
North Carolina, Beaufort County, Superior Court.
W. S. D. Eborn and wife, Marcella Eborn, vs. Southern Railway Company, St. Louis and San Francisco Railroad Company, and the Houston and Texas Central Railroad Company.

The defendants, St. Louis and San Francisco Railroad Company, and Houston and Texas Central Railroad Company will take notice that a summons in the above entitled action was issued against them on the 27th day of February, 1913, by George A. Paul, Clerk of the Superior Court of Beaufort County, North Carolina, for the sum of \$1500.00 Fifteen Hundred Dollars, due said plaintiffs by reason of damage to plaintiffs by delay in transporting a ginning outfit or system preparatory to installing the same, in the fall of 1912, which summons was returnable before the Judge of the Superior Court of Beaufort County to be held for the said county of Beaufort, at the court house in Washington, on the second Monday before the 17th day of February, 1913. The said defendants will also take notice that an alias summons, warrant of attachment and writ of garnishment was ordered to be issued against them, in the said cause, by His Honor, Frank Carter, Judge Presiding at the August term of the Superior Court of Beaufort County, and pursuant to the said order Geo. A. Paul, Clerk of the said Court, did on the 25th day of August 1913, issue an alias summons against the said St. Louis and San Francisco Railroad Company and Houston and Texas Central Railroad Company to be and appear before the Judge of the Superior Court of Beaufort County, at a court to be held for the said county on the 4th Monday after the first Monday of September, 1913, and answer or demur to the complaint of the plaintiffs, and did issue a warrant of attachment and writ of garnishment commanding the Atlantic Coast Line Railroad Company and Norfolk Southern Railroad Company to be and appear at the said term of the said court on the 25th day of September, 1913, and answer what funds each of the said railroads has in its hands or what property each is or what debts each owes to the said St. Louis and San Francisco Railroad Company and Houston and Texas Central Railroad Company at the date of service of garnishment on the date of appearance and answer, and the Atlantic Coast Line Railroad Company is further commanded to answer what debts it owes or what property it has in its hands or what debts it owes to the said St. Louis and San Francisco Railroad Company and Houston and Texas Central Railroad Company at the date of service of garnishment warrant of attachment and appearance and answer at the February term 1913, of the said court.

Walking Sticks.
"Does the use of a walking stick really spoil the actor's stage balance?" questions a correspondent. "In a stick shop in the Western Road, Brighton, I have noticed a question from a medical writer saying that the use of a properly made walking stick improves the carriage and tended to upright-ness of body." The fault of most walking sticks is that they are too short and tend to make one stoop. Our ancestors used sticks several inches taller than we do. I have one formerly used by a famous London physician that is nearly as long as a pilgrim's staff, and a few years ago the female paragon had a stick some four feet high.—London Chronicle.

THE WATER BOTTLE'S SHAPE.
Three useful purposes—and probably many more than three—are served by making the familiar water bottle of such a distinctive pattern. In the first place the narrowness of the neck prevents the entry of such dirt that would inevitably settle on the water in the next place the same narrowness prevents excessive and rapid evaporation of the water, and in the third place the shape of the neck makes it a capital handle, thus doing away with the necessity for a separate handle fastened to the body of the bottle, a course that would render it much less convenient and more liable to be broken.—Pearson's.

BRUSHES IN FURNITURE.
Here is a method which has been of great use in removing bruises from furniture: Wet the part with warm water; double a piece of brown paper five or six times; then soak it in warm water and lay it on the spot. Apply a warm (not hot) bath towel until the moisture has evaporated. If the bruises are not gone, repeat the process. You will find this very good, and if the surface of the furniture is not broken the dent will disappear and leave no trace.—Exchange.

Decide For Yourself
The Opportunity Is Here, Backed by Washington Testimony.
Don't take our word for it. Don't depend on a stranger's statement. Read Washington endorsement. Read the statements of Washington citizens. And decide for yourself. Here is one case of it: Mrs. Charles F. Jackson, 250 Telfair St., Washington, N. C., says:—"The kidney secretions were unnatural and my back ached all the time. Some days I had such sharp, shooting pains across my loins that I could not get about to do my work. When I heard of Dean's Kidney Pills, I got a supply from the Hort Drug Co., and they improved my condition in every way. At that time I gave a public statement telling of my experience and now I can say that I have been entirely free from kidney complaint since."
