Would accept Proposal of Railroads

Will save State vast amount of money and benefit shippers says Gov. Craig to the Legislature.

Raleigh, N. C., Sept. 25.—After the message of Governor Craig had been read in both branches of the North Carolina legislature yesterday, the two houses cleared decks for a long siege of important business.

In his message the governor reiterates his views on the pending proposed settlement of rate differences with the state. He recommends that the rates offered be accepted for two years as to the rates in dispute, the state and shippers to have the right to proceed at will for relief from any other charges.

He declares that acceptance of the railroad proposals will save the state a vast amount of money and enable Carolina shippers to compete with those of other states.

Both houses adopted a rule fixing October 1 as the limit for the introduction of bills.

Senator Bryan of Durham, introduced a bill approving all amendments to the constitution prepared recently by a special commission.

As a preliminary step toward consideration of the governor's recommendation the house of representatives today adopted a resolution requesting the State Corporation Commission to furnish the names of all members of the legislature holding railroad passes or in the employ of railroads.
