

GIANTS WIN FROM THE ATHLETICS

MATY VS PLANK THE OPPOSING SLAB ARTIST TODAY

McGraw sends his star Pitcher to the mound. Mack pins his faith to His South paw.

The greatest pitchers duel in the history of baseball took place this afternoon between Mathewson and Plank in the second game of the world's series.

New York made 7 hits and 2 errors. Philadelphia made 8 hits and 2 errors.

NOT DISCOURAGED Manager McGraw of the New York Giants, upon his arrival in Philadelphia last night with his team for today's game, declared that he was not discouraged by the defeat of yesterday.

The third game of the series comes in New York tomorrow Philadelphia has one game to her credit and New York one.

Philadelphia October 8.—The second game of the world series between the Athletics, the champions of the American association, and the Giants, of the National league, was pulled off this afternoon at Shibe Park, Philadelphia.

Before midnight the crowd began to gather at the park and when the word "play ball" was announced thousands of spectators were in their seats ready to witness the contest between two of the greatest base ball generals living—Mack and McGraw.

Notwithstanding that Connie Mack and his teamsters won out yesterday the series is not yet won and developments of surprise are anticipated by the knowing ones.

Heddlitt makes good as Pitcher.

Christ school takes great pride in its ball team, as the years pass, and has gotten the habit of winning games.

The present year is no exception. Though the strong club of last year was wrecked by the departure of all but three of its members, it seems certain that with new men coming in we shall be able to show a style of play worthy of the school's best traditions.

Among the players of last year who have returned is Alex Heddlitt. He was utility man last year and many of his friends believed then that he merited promotion to a place as regular. Now he goes up. He has become the premier pitcher the main cog in the machine. Up to the present writing he has a remarkable streak record.

The weather continues beautiful and picking cotton is the order of the day.

Mr. and Mrs. W. H. Coughton and Miss Stella Coughton visited at the home of Mr. Tom Everson awhile Sunday morning.

Don't forget the hour for Sunday school is 1:30 o'clock. Strangers are cordially invited.

CITIZENS APPREHENSIVE AS TO COMING STORM

The storm warning received today by the local weather bureau occasioned no little excitement among the citizens for they well remember the havoc wrought to this section by the one that visited Washington Wednesday morning, September 3.

R. F. D. 4

Rev. Mr. Durham of Bath, filled his appointment at Asberry Sunday morning and night.

Mr. and Mrs. C. A. Cutler were great of Mrs. Frances Cutler at Zion Sunday.

Mr. Leonard Cotton of Linwood, was a guest of Miss Lillie Alligood on River Road Sunday.

Misses Drex and Annie Coughton were in our city Saturday.

Mr. and Mrs. W. H. Coughton and Miss Stella Coughton visited at the home of Mr. Tom Everson awhile Sunday morning.

GREAT EPISCOPAL CONVENTION OPENED IN CITY OF NEW YORK THIS MORNING

On this, the 8th day of October the General Convention of the Protestant Episcopal church will meet at the Cathedral of St. John the Divine in the City of New York.

New York, Oct. 8.—The forty-third triennial general convention of the Protestant Episcopal church opened in this city today, the first time that the gathering has been held in New York for nearly twenty-five years.

The plan during the present convention is to make the session of the house of bishops as open to the newspapers and to the general public as are those of the house of deputies.

There was good sales of tobacco at both the Washington and Beaufort warehouses today.

Remainder of letters in this office for the week ending October 4th 1913.

Has Moved Mr. Lynn Lancaster and family have moved their residence from West Second street to East Main street.

senting 1,000,000 communicants. One of the proposed changes in church law will come up at the convention and which, it is expected, will be debated with great forcefulness.

Another matter which is expected to give rise to considerable discussion is the question of changing the name of the church.

Other important matters for discussion include the report of the commission on church unity; marriage and divorce, religious education, a more adequate provision for the support of disabled clergy and their families.

Included among the meetings to be held in the various departments of church work will be those of the domestic and foreign missionary society, the woman's auxiliary, girl's friendly society, daughters of the king, the Sunday school commission.

for colored persons. Arrangements are being made for extensive exhibits illustrating the scope of some of these societies.

The convention will be in session three weeks. The question of the change of name will probably come before the convention in half a dozen forms but it is bound to be presented in at least one instance.

A counter proposition which is pleasing to the High church party, has been made recently, that the word "Catholic" shall be defined and officially adopted, setting forth the Episcopal church's understanding of it.

This convention will elect half a dozen missionary bishops. One of the new bishops will be, it is said, for the canal zone, and a somewhat larger territory which is to be transferred from the Church of England.

STORM COMING The local weather bureau observatory was directed this morning to display the following storm signal: Hoist hurricane warning 9 a. m. Storm central coast of Charleston, probably moving north west.

SWEET LITTLE MISS GIVES BIRTHDAY PARTY Sweet little Miss Ruth Buttry, the 6-year-old daughter of Mr. and Mrs. N. H. Buttry, celebrated her natal day at the home of her parents, 510 East Main street last Monday afternoon from 4 to 6 o'clock.

Forest Notes There are about 37 pines native to the United States, of which 25 are western species, and 12 eastern.

Mr. J. K. Hoyt is making improvements and repairs to his residence, corner of Bridge and Second streets.

Engagement G.H.Crumpler Is announced

WILL WED MISS GARCE TAYLOR OF WINSTON, N. C., NOVEMBER 12, 1913.

The following social item taken from the Winston-Salem Journal will prove of interest to the many friends of the prospective groom who is a Washington boy making good in another town.

During the afternoon refreshments in two courses were served, and at the last course, when ices were served in tall-stemmed glasses, little blue birds perched upon the glasses and the secret in the following rhymes:

"This little blue bird has come to me, A song about a wedding ring." "This little birdie would like you to remember, The wedding month is next November."

Forest Notes There are about 37 pines native to the United States, of which 25 are western species, and 12 eastern. Paraguay has valuable forest resources the most important of which is quebracho, particularly rich in tannin.

Mr. J. K. Hoyt is making improvements and repairs to his residence, corner of Bridge and Second streets.

J. G. Mixon, a prominent merchant of Bunyan, was on our streets this morning.

A 1.250-MILLION SHORTAGE OF FIVE GRAIN STAPLES

The supply is nearly ten per cent less than last year. Amazing conclusions prepared by Orange Judd.

Atlanta, Ga., October 8, 1913. Serious shortage exists in the world's crop of grain for 1913. The supply is nearly 10 per cent less than last year.

Unless Russia and Argentina conclude the year with much greater yields than now seems possible, the world's wheat production will be only about 100 million bushels more than last year.

Of this increase, 50 million bushels is due to the extent of which the bonanza wheat crop of the United States and Canada exceeds last year's output.

Southern Farming preliminarily returns the Russian crop as 700 million bushels, which has since been confirmed by the Russian government's official pronouncement of 690 million.

Of grave importance also is the European shortage in rye. Because even more than wheat, is rye the breadstuff of the teeming millions of Europe, Southern Farming finds that Europe may have only 1,700 million bushels of rye of the 1913 crop, or 130 million bushels less than last year.

Heavy Reduction on Oats Crop The shortage in the world's supply of oats bids fair to be greater than was expected.

With a small crop in North America than last year by more than 300 million bushels, and with another 100 million deficit elsewhere, the world's crop of oats may be 10 per cent less than last year.

Barley is much less than usual in North America, but the world's total yield may come up to the normal amount.

These consuming countries are Great Britain and Europe east of Russia which is the very region that suffers the heaviest relative deficiency in 1913 grain crops.

In the case of corn only about 250 (Continued on page 3)
