

Washington High School Eleven Defeats Kinston By a Score of 47 to 0

Visitors Outplayed And Local Team Had Walkover

At no stage of the battle did the boys from Kinston show they were in the class of the locals. This was the first football game of the season and the home boys are today jubilant over their decided and well-earned victory. Game witnessed by a good crowd of rooters.

The local football team was the first game from Kinston by the large margin of 47-0. The game was an easy walk-over for our team. The visiting team was out-weighted by our team by probably two pounds to the man, but were completely outplayed in every stage of the game. Our team were in no danger of being scored on at any time. The visiting team only made their downs twice during the game and these were by forward passes which they were good in handling, but Washington kept their eyes open and succeeded in breaking up all the rest which they tried. They were very good at punting which undoubtedly kept the score from being larger than it was. After the first four minutes of play and after a concession of line plunges which carried the ball to Kinston's 20-yard line, Elbert Weston was sent around and for the first touchdown of the game; after this the scoring was not track it as we carried the ball over six more touchdowns during the game. Kinston played a very consistent game, never giving in but fighting gamely until the last. Captain Taylor at full back won a name for himself as the hardest line hitter the High School has ever had, never failing to make a gain when called upon to carry the ball. A. Weston, Chas. Meekins and Dave Smith also played a very hard game in the back field, making two and two fumbles and showing themselves very good at recovering the same, as Kinston fumbled several times.

The line deserves no mention to those who saw the game as they all played a very hard game. Taylor carried the ball over for three touchdowns, Weston for two and Meekins for two. Fred Moore, who kicked goal missed two out of seven trials, which was very good, considering it being the first game. Jim Weston was unable to be in the game on account of a bad knee sustained while at the skating rink Saturday night. During the last quarter three of the subs were placed in the game which showed that we have plenty of good men to fall back on in case they are needed as they all showed up very well.

Cochran Mideap was very well pleased with the outcome, considering the first we have played, and thinks the prospects are good for Wilmington which we play next Friday on these grounds. The following is the line-up for both sides:

K. H. S.	W. H. S.
Waters	Wilkinson
Outlaw	Hudnell
Hawkins	Warren
W. Lewis	Jones
Barwick	Howard
Taylor	Moore
Tynan	Meekins
Temple	Harris
M. Lewis	Taylor
Hines	E. Weston
Dunn	Smith
K. H. S. subs—Gray for W. Lewis; Brewer for Taylor; W. Lewis for Hines.	
W. H. S. subs—Charles for Moore; Bowen for Charles; E. Harris for Warren.

WASTE FROM DESKS

Waste wood in the manufacture of school desks is now being used for the backs of cheap brushes according to the statement of the forest service.

A large manufacturer of school desks in Michigan had a considerable amount of waste material in sizes which were too short to enter into the manufacture of the smallest desks, and could not be utilized further with his machinery or in his line of work. This material was all hard maple in pieces an inch thick, a foot or so long, and about three inches wide; for a long time it had been considered to the waste pile and sold as fire-wood. This waste amounted to from one thousand to fifteen hundred board feet each day. A nearby manufacturer was using practically this quantity of maple, which he was sawing up into small pieces for making the backs of cheap brushes.

Members of the forest service, investigating methods of eliminating factory waste, conceived the idea that the blocks used by the brush factory could be readily secured from the waste of the school desk manufacturer, and on this basis got the two together. Arrangements were made so that the brush manufacturer now places orders with the other firm for its raw material and what was formerly waste is now a source of profit.
