- Unlightee Absorption. The capacity of the United States for the absorption of objects of virtu would seem to be unlimited. The val-ue of American imports of this charus of American imports of this char-acter increases yearly by longs and founds. The latest figures for 1917 show an increase of 60 per cent. upon those for 1911. In 1910 objects of art of the value of 422,000,000 were im-ported. The figures to 1911 are 336, 000,000. The distribution of the smount among the various European countries is instructive. First comes France, from which America takes \$17,000,000. There is a drop of over \$15,000,000. The efficace of the stringent Halian regulations is shown by the fact that only \$740,592 worth comes from Halp-or not suit is on much as comes from Canada. The imports of modorn works of at the two budgets. Try the Daily News comes from Canada. The imports of modern works of art into the United States in 1912 only reached the com-paratively insignificant total of \$1, 012.023; 23 per cent. less than the cor
