Big Discovery AT BLOUNT

Epoch Making Remedy Made by Dr. John B. Bear

His Emulsion Was Tested Four Years Before It Was Put on the Market. Testimonials

A wonderful remedy has been discovered by Dr. John B. Bear of Virginia. There are testimonials of other testimonials given by people who have used this remedy and all say it has proven to be a grand success. It was experimented with for four years before being put on the market, during that time it effected some great cures. We believe it has come to stay and be used as a remedy. Everyone can rely on it to help stamp out the ravages of the consumption germ. If this remedy continues to meet with such success it will be a great thing for our country, as the State of Virginia alone lost 5,000 people last year from consumption, and 20,000 are reported to have it now. It was found out yesterday that Worthy & Bhdigere have ordered a shipment of this great remedy. We congratulate our druggists on being so prompt.

Temperance Drink. An amusing story is being told of a clergyman who was being entertained over a week-end by one of the well-to-do but plain men of a Larchshire town not far from Manchester.

As soon as the guest was settled by the fireside on the Sunday evening his host asked him: "Are you a teetotaler?" "Well, no," not exactly, the clergyman admitted. The master of the house received the statement with obvious relief. "Ah! I'm right glad to hear it," he said; "we'n had that sort stay'n' with us afore. Now, if y'd been one of them teetotalers, y'd 'a' been want'n' soda water and lemonade and lime juice and ginger ale, and nobody knows what all. But as ye ain't a teetotaler, ye'll be like the rest 'o' us, an' satisfied w' plain water!"

Investigating Lightning Bug. Two investigators and writers in the Lightning Journal have given the result of their efforts to measure the candle power of the lightning bug. The glow worm, which is the larvae of the firefly, was found to give off an illumination equal to .0048 candle power to the square centimeter. The flash of the firefly is probably many fold, perhaps 50 or 100-fold, as bright as the steady glow of the larva. It appears, then, that the luminous material of the glow worm, could it be reproduced, would not only be of high intrinsic efficiency, but would also be a happy means in artificial light sources with which we now try our eyes, yet high enough to permit its use without pre-empting more wall space than we now give to window.

Major James B. we conducted important experiments in the notoriously malarial town of Kurunegalle, have been published by the government. It was found that mosquitoes breed extensively in paddy fields, and that rice cultivation is practically inseparable from malaria. The only remedy that can hope to be effective is the abandonment of cultivation altogether. In lakes and pools it has been found feasible to stop the breeding of the malarial mosquito entirely by the introduction of larvivorous fish, but this is ineffective in paddy fields.

UP TO DATE. "What are you giving your cows now in the way of galactagogues?" asked the Irvington professor of the milkman. "Oh," said the milkman, who has just been graduated from Purdue and is not to be stumped by any Butler college pedagogue, "their sustenance is wholly of vegetable origin; rich in chlorophyll and opulent in butyricous qualities." "A pint, if you please," said the professor. "Git up," said the milkman. - Indianapolis News.

CONGESTION IN BERLIN. Three thousand in one house represent the degree of congestion of population in the poor quarters of Berlin. Statistics recently published show the appalling scarcity of lodgings. One house in the Ackeralasse, in North Berlin, shelters over 3,000 people. The newspapers are warning people in the provinces against coming to look for work in Berlin.

Simple Remedies. For sick headaches apply a hot-water bottle to head and one on stomach. This gives relief in a short time. For tired and aching feet put two tablespoonfuls of salt in two quarts of hot water; when cool add two tablespoonfuls of alcohol or camphor. Let feet soak in this for 15 minutes. This is also good for sore throat. Dip compress in the warm mixture and bind on throat. For burns, use butter; it takes the fire out quickly. For cuts peroxide will stop bleeding. For colds take a cup of milk and add a level teaspoonful of red pepper, stir well and drink very cool.

Pearls From East Africa. Cooked jewels have recently been offered for sale by East African natives. It appears that pearls as at present traded in that country are from oysters gathered by natives at low water for food; the pearls, being in consequence from immature oysters, are usually very small and discolored by cooking; but occasionally, however, a very good pearl is offered for sale by natives, one such being stated to have fetched \$5,000 in Zanzibar. At least, it is certain that pearl-bearing oysters exist on the coast, and that valuable pearls have been occasionally found, while practically no effort has been made to prove whether or not a profitable industry is possible.

KELLINGER'S INSOMNIA. By DOROTHY DUNN. Kellinger couldn't sleep. All his life he had been bothered that way. For no reason whatever sleep would suddenly desert him and when it abandoned Kellinger he abandoned the rest of the family, meaning Mrs. Kellinger and the bulldog.

Charles F. Page, sixty-nine, a native of Deansboro, Oneida county, is dead, 21 years after his coffin was bought. Page was a soldier in the Civil war and was encamped with his regiment, the One hundred and seventy-ninth New York volunteers, at Fort Alexander in the fall of 1862, when he was taken seriously ill.

When Page's death seemed imminent a requisition was made for his coffin. It was brought to camp and deposited near the tent in which the sick soldier lay. Then Page began to get better, and when he learned about the coffin he declared that he would not die. He did not until today, when the end took place at Columbia, N. C. - Utica (N. Y.) Only Action Has Weight. Every man instinctively feels that all the beautiful sentiments in the world weigh less than a single beef action. - Lowell.

Here's to You and Me and POSTUM. The pure food-drink that meets the desire of young and old for a palatable table beverage which is wholesome and satisfying. POSTUM is made only of clean, hard wheat and a small per cent of New Orleans molasses. It tastes much like the higher grades of Java, but is absolutely free from caffeine, the drug in coffee, which causes so much headache, sleeplessness, indigestion, nervousness and heart trouble. Coffee drinkers can learn something of value by a '9 days' change to Postum. Then, as the coffee poison is eliminated from the system, the brain works clearer, nerves become steady, and the gradual return of peace and comfort will show plainly. "There's a Reason" for POSTUM. Postum now comes in two forms. Regular Postum - must be boiled 15 to 20 minutes. Instant Postum - is a soluble powder. A scant teaspoonful stirred in a cup of hot water dissolves instantly. The convenience of Instant Postum is apparent. But, when prepared according to directions, both kinds are exactly the same. The cost per cup is about equal. - Grocers everywhere sell both kinds.

HE WAS HUNGRY, POOR BOY FOR ATTAINMENT OF OLD AGE. New, Mothers, Do You Think He Deserved Being Called Cousin to an Ancestor? "Now see here, Percy," said Mrs. Packer to her son of a dozen children, "when I left school at this time, I left several large obligations in the pantry, and now there are only three. What do you know about that?"

"Well, a fellow is always hungry when he comes home from school, and -" "I also left half of a good-sized chocolate cake and a dozen cookies in the cake box. Now there are only six cookies and about a third of the cake left. Do you know anything about that?"

"Well, a fellow wants something to eat when he has been pugging away in school all afternoon, doesn't he?" "I also left eight cranberry tarts and a large mince pie in the pantry. Now there are five of the tarts and a good quarter of the pie is gone. Have you anything to say about that?"

"Well, I was hungry when I got home from school, and I -" "I had Jane make a nice dessert of lady-fingers and whipped cream for dinner tonight, and about a fourth of it is gone, together with a lot of the white meat of a chicken I had saved for a salad. Of course, you don't know anything about that?"

"There's plenty of the stuff left for dessert, and there wasn't hardly any of the chicken anyhow." "But there was a lot of honey left when I went away this afternoon, and it isn't here now, and half of the coffee cake I was saving for breakfast is gone, and somehow has opened that jar of orange marmalade I was saving for company. Have you anything to say about that?"

"Well, I tell you I was hungry, and I wanted a little something to eat, and so I -" "And so you opened that glass of extra choice currant jam and ate up nearly a whole package of those little afternoon teas, and drank half a pint of cream, and most of the pound of raisins and all the nuts I left here at noon are gone. Hungry? My soul and body! Percy Packer, are you sure you ain't an ancestor? Hungry? I should say so! I honestly believe that you're hollow clear into the ground!" - Fisk.

SET EXAMPLE TO SUBJECTS. Modern Royal Personages, Unlike Their Predecessors, Live Lives of Bismarckianess. There are no more courts of any consequence like those where Jamahyd glared and drank deep. Mighty princes of India upon whom the gorgeous east still showers barbaric pearl and gold with a lavish hand, promote education, endow hospitals, practice abstemiousness, dispense with concubines, hire publicity agents to tell how well their lives and kingdoms are ordered. Because the khedive of Egypt has two wives - when the most orthodox Moslem may have a harem as costly as his purse can buy, and neat and gaudy in accordance with his taste - there is a scandal upon the banks of the Nile.

The German imperial palace is prolific of sons and daughters and not of gossip. The czar of all the Russias - the Russian once ruled by Catherine II, at once a harlot and a patron of letters, art, commerce and education - is a model family man. The royal houses of Italy, Spain and Great Britain are pointed to as examples for the bourgeois. There is no rottenness whatever in Denmark. The alleged "gallantries" of old Leopold of Belgium constituted the theme of abundant newspaper fiction, and he was greatly interested a few years before his death in meeting for the first time an actress whom the space writers bestowed upon him as a mistress years before. That so much was made of the pedantic, real and imagined, of Edward of England when he was prince illustrated the difference between the habits of ancient and modern princes.

Notwistards only those who have little or nothing at stake care to risk attracting attention to their defiance of public opinion. No throne would accommodate a Catherine or a Cleopatra. - Louisville Courier-Journal.

For Bad Burns. Burns and scalds should be treated with glycerine and flour, the lot so heaped well over the afflicted part. Then tie a linen bandage over it. The irritation is quickly driven away and a quicker cure assured. - German Newspaper Recorders. Pupils in a German school were recently tested as to their reading of newspapers. In the highest class of 44, 25 read a newspaper every day; 15 at least once a week, and four less frequently. - Mortgages. J. W. STEWART, Mortgagee. Newbern, N. C., November 23, 1913. 12-5-4tc
