Two Young Men Drowned at Belhaven Sunday. Are Recovered This Morning

Mr. Forrest Exhibiting The Skilled Work of Dr. D. T. Tayloe, Was Fine Piece of Surgery.

There were only two cases before more determined by weak compelled to keep processing. There were only two cases before more for week. Upon the solice of his physicians, he decided to go to the Johne Hopkins housital, Baltimore, to consult escalalists and began his forces via this sity. Upon reaching force, he was found guilty and centenced to the too, thought it best for him to miting force at the Baltimore, Mr. Forces, who told him he could be troe, thought it best for him to miting out to Baltimore. Mr. Forces, the waster, decided to remain here and went to the Washington Hospital where Dr. Tayloe sawed off the bonce and wired them together. He was on the operation table for five hours, After heing in the heading for time weeks he was able to return to his kome. Mr. Forcest, while here yenterday, was showing the result of this chilled operation to his friends, and a representative of this paper. Chanced to see his leg. It is surely a fine plees of surgical work as Mr. Forrest can ure his injured leg almost as well as over This goes to show that Washington surgeons are just as good as the best. This operation is curely a credit to Dr. Tayloe's nkill has a surgeon which is state wide.

There were only two cakes before Mayor Rugic at the City is confined to the house ship of the curry in the paper. The confined and surgeons are just as good as the best. This operation is curely a credit to Dr. Tayloe's skill has a surgeon which is state wide.

35,000 Miles of Sand Clay Roads Now Constructed In United States

Washington, D. C., Feb. 17— sand until it reaches the point of miles of sand cfay reads in the United States mainly in the Southern states, according to the office of Public Roads, U. B. Department of Agreement of Agreement of the proper proportion of sand and readed.

The proper proportion of sand and readed is in the spring when the soil of the proper proportion of sand and of the spring when the soil of the spring when the spri roads is deferred until late in summore when they are dry, they are not

PREPRESENTATIVE HERE.

Entertained Her riends and Joe Gilliam India Playmates, the Occasion Being belting Celebration of Seventh Natal

On Saturday afternoon last a crowd of little folks enjoyed a Val-nilne party given by Berbara Gray Iyers, the attractive young daugh-or of Mr. and Mrs. T. Harvey Myers their home on East Main street, a honor of her seventh birthday. Hearts and cupids were ever-ing. From each of the four cor-ics of the living room red crope per ribbons were festooned and om them hung a fringe of hearts nd cupids reaching to the red aded chandeller. After games ad been played and the little peo-

ad been played and the little peois photographed, keeping time to
y music, they were ushered into
the dining room. Two large tables,
tell of suitabet and delicious refreshments were waiting to receive them.
The Valentine fides was beautifully
carried out with festoons of red crepp
paper, hearts, cupids and quantities
of nowers, cut and in jars decorated
with red paper. The birthday cake
with Valentine decorations and sevmodern dramatic shoulders, whose nerve is superhumodern dramatic shoulders, whose nerve is outperhumodern dramatic shoulders are defined as a surrounded by a

> This morning between six and seven o'clock the fire alarm was sound-ed and it proved to be the house oc-cupied by Pierce Oden, colored, and family on West Fifth street. While the department answered the call promptly the building was practically burned to the ground before a stream of water could be played or and how the fire originated is not known. The fire department by hard work saved the adjacent building.

Stoddard Lectures

Rocky Mt., N. C., Jan. 15, '14. To those who may be interested, it gives me pleasere to say that I consider Stoddard's Lectures among the most attractive books I have ever read. They are entertaining in every detail, and to those fortunate enough to travel, they are delightful preparation, and to everyone. a fund of useful information, render-ed in a style thoroughly enjoyable.

(Signal) Bettle C. Whitehead. John L. Stoddard's Lectures are nteresting and instructive, and will be found a great help to both teach ers and pupils, who wish to extend their knowledge beyond the range of ordinary text books. The style is most pleasing, and anyone who

is most pleasing, and anyone who begins a lecture rarely puts the book away until it is finished.

(Signed.) Geo. McK. Bain.
Prin. High School, Norfolk, Va.
To Whom it May Concern:
For a number of years I have used "Stoddard's Lectures," both for private-reading and in the class room. I have always found them serviceable and beneficial in the highest degree. I do not know of a set of books that I confider more profitable for general surposes. The lectures for general purposes. The lectures are complete, accurate, entertaining and highly instructive. I have no besitancy in recommending them in the highest terms. (Sgned.) H. B. Smith.

Supt. Public Schools.

Greenville, N. C., May 27, 1907.
These valuable books will be sold in Washington for a short time only, at special prices and easy terms of payment. GEO. R. SHIPMAN,

. Mahager. FUNERAL OF LATE CAPT.

JOHN DUDLEY WAS LARGELY ATTENDED The last tribute of love and respect was paid to all that was mor-tal of the late Captain John Dudley this afternoon at two o'clock when the funeral was conducted at the res idence, corner of Second and Bridge streets. A large number of sorrow ing friends were present and the floral tributes were profuse. The interment was in Oakdale cemetery.

Fish Refuse Is Valuable For Agricultural Purposes

mine. His mersage expressed deep regret that he could not participate at the services, and added: "But my mind will be with you all, for I they to mourn with you for the brave officers and sailors of the Maine."

Washington, D. C., Feb. 17.—In from Maine to to Flordia. The business reached its high water mark tilisers to increase their output, the brave officers and sailors of the U.S. Department of Agriculture believes that the interests of the farmer are enhanced. The use of fermer are enhanced. The use of fermer are enhanced. lieves that the interests of the far-mer are enhanced. The use of ferimpotrant source of organic nitro gen for fertilizing purposes, and the necessity of preparing it in commercial form has led to the develop-ment of the fish-scrap industry in

since have have never been so great, owing to the reduced price of oil, and scrap resulting from the comitilizers to supply nitrogen to the petition of other products. This is soil is of continually increasing importance to our agricultural population. Pish refuse has proved an methods of industry. The annual output in oil and scrap has not va-ried greatly from 70,000 tons of acrap and 35,000 barrels of oil dur-ing the past 30 years. There has been no growth in the recent past which would warrant a belief in a

ain of the Amy and Navy union.

Secartary Daniels of the Navy Department, and the official heads of a number of patriotic organization, were present. John, McEiroy suggested that the memorial was typical of "all men who on kind or sus had given the full measure of dayotion the country's laws by dring and the country's laws by dring and the country's laws by dring and the full measure of dayotion the country's laws by dring and the full measure of dayotion the country's laws by dring and the full measure of dayotion to the country's laws by dring and the full measure of dayotion to the country's laws by dring and the full measure of dayotion to the country's laws by dring and the full measure of dayotion to the country's laws by dring and the development of this industry.

There are at present about 46 factories on the Atlantic coast, whose main outgut is fish-scrap and fish oil misunfactured from the menhods. There are found all the way product of coke ovens supplies at most 50 per sent of the nifrogram and an interest in this country.
