proves of greatest value. He seeks to create an interest in the constitutional differences of children in order that these differences may be corrected or encouraged. His long experience in the educational field gives Dr. Chase the right to speak with authority on this subject, which is becoming more and more a necessary consideration in the training of the child.

"Faust" Thursday Night

Gifted Singer Comes to The New Theatre Thursday Night Next

Miss Marguerite Hobert, who essays the leading prima donna role in "Faust" that of Marguerite, is quite naturally regarded as the featured soprano, with the New York Grand Opera Company, who will render Gounod's everlasting masterpiece, at the New Theatre next Thursday night, and from all accounts this singer has been well chosen for that distinction.

much of her music love as does the sweet, sentimental girlish innocence as pictured in her estimation of Gounod's beautiful creation.

Swiss by birth, Miss Hobert was educated in France, where in Paris, in the Grand Opera House, she made her first appearance on the stage, and strange to say, she sang the role of Marguerite, on which, must have been a very memorable occasion, or rather might it be said, most important event in her ambitious life to become a great operatic artist.

It was her good fortune to be engaged by the Boston Grand Opera Company last season, and from that source glowing opinions came concerning her rare qualifications, as a lyric soprano, who it is predicted will occupy a position of unusual prominence in Grand Opera in the near future.

REV. R. V. HOPE TO STUDENTS OF E. C. T. S.

The Greenville Reflector of yesterday in giving an account of Rev. R. V. Hope's address before the Young Women's Christian Association of East Carolina Training School, Greenville, Sunday evening last, has the following to say:

Reverend Mr. Hope, minister of the Christian church at Washington, made a strong and practical talk to the Young Women's Christian Association on last evening. His theme was drawn from the words of Paul, "I am ready," and was brought to bear directly on the life of this particular school where girls are at work preparing for life's duties. He stressed the need of preparing the heart as well as the mind, and showed that, without the heart's being prepared, the work of the mind might be directed wrongly. He also included the elements of willingness and persistence in getting in readiness for work and added the fact that obligation enters into the work that is attempted.

The music of the evening was particularly good. Special music consisted of a beautiful solo, "Consider and hear me," by Miss Mavis Evans, and two choruses, "The Lord is My Shepherd," and "Abide With Me," sung by the choir.

BARACA CLASS OF M. E. CHURCH

To the Editor of the Washington Daily News:—I note with pleasure the new plan of the Baraca Class of M. E. Church for securing new members and securing a new and greater interest on the part of all of the present members of the class. Nothing higher or nobler can be thought of than a man trying to lift his fellowman to a higher plane of living to a life of usefulness and power to a realization that he has a divine spark, a never dying soul within him given to him by God, that lifts him above the cattle of the field, the fish of the sea or the birds of the air, which were made for man's use, while man was made for the glory of God.

In my travels from Maine to California, and from Canada to the Gulf of Mexico, during the past few years, I have found that the best business men of all the large and small cities, are putting more religion into their business, and more business into their religion.

In other words men are finding out that religion or the services of God, is the greatest business in the world, for it is the only thing we can take with us to eternity. A man cannot take his money, his business, his lands, his money, nor even his beloved wife and children with him when he leaves this world. All he can take is his soul; therefore, what shall a man give in exchange for his soul? His whole business in life

MRS. G. T. LEACH AT HOME TO HER FRIENDS

Charmingly Entertains in Honor of Her House Guest, Mrs. S. S. Spruks of Scranton, Pa. Delightful Function.

One of the most beautiful social events of the season was a large party given by Mrs. George T. Leach at her hospitable home on West Main street Friday night last, in honor of her house guest, Mrs. S. S. Spruks of Scranton, Pa. It was a function in celebration of George Washington's birthday. The large and spacious home was artistically decorated in appropriate colors, the decorations most attractive and inviting. Progressive six-hand euchre was played by a great many, while others amused themselves in other ways. The score cards were George and Martha Washington, being uniquely designed and decorated with admiration and praise from the guests. Each guest received a favor, being a red hatched bill with red cherries. The guest list was presented to Mrs. Spruks, Mrs. Angus D. MacLean was awarded the first prize and the twenty hand prize was won by Mrs. John G. Blount. Miss Sallie Pender of Tarboro, N. C., had the honor of receiving the booty.

Punch was served in the dining room which was indeed a scene of beauty. Misses DeWitt of Scranton, Pa., and Miss Person of Fremont, N. C., doing the honors. Delicious and tempting refreshments were served by three dainty and attractive Misses, Frances Leach, Athalia Taylor and Leonora Blount.

Mrs. Leach, as she always does at her at home, again proved her graciousness as a hostess. No social function of the season was more enjoyed and all who were fortunate enough to be present are more than indebted to Mrs. Leach for an evening not soon to be forgotten.

CITIZENS ARE EXPERIENCING SNOW STORM

Weather Forecast: Fair tonight and Wednesday. Much colder. North winds.

For the second time this winter snow is falling in Washington and the indications are as we go to press that the blizzard born in Tennessee is the latest to whip this section with snow. Early this morning the mercury registered as low as 24 at Washington Park and by noon the mercury at Blount's Pharmacy registered 23.

The citizens of the city were greeted by a thick mist early in the day and by noon snow began to fall in earnest. Storm warnings were ordered raised all through the Southern states yesterday and it seems that the weather man has hit the nail on the head this time.

This section is now experiencing real wintry weather. The indications point to a heavy snow storm. It's Restful in Washington Park.

WASHINGTON WILL HEAR GREAT SPEAKERS

City is Placed on The Chautauqua Circuit—W. J. Bryan is Among The Distinguished Speakers

Arrangements have been made here with the Pennsylvania Chautauqua Company by which Washington has been put on its circuit and hereafter this city will be a chautauqua town. Prof. I. J. Downey, special representative of the company, has been here and within a very short while secured the promise of enough tickets to justify the company in putting this city on the circuit.

It will come here sometime in June with its big tent, which has a seating capacity of 1,500 people. Such men as William Jennings Bryan, Judge Benj. B. Lindsey and Frank Dixon will be among the speakers. The week will consist of fourteen lectures, two each day, and the concert features will be Victor's Venetian Band, the Alpine Singers, the Tuskegee Institute Singers, grand opera and the college players. Prof. Downey would not state positively that Mr. Bryan would come here this season as the duties of the Secretary of State prevents him from fully entering the Chautauqua work, but he will be sent here if the proper arrangements can be made.

SIX MONTHS ON ROADS OR LEAVE CITY

Samuel Swain, charged with an assault upon his wife and whose case was bound over yesterday morning from Mayor Kugler's court to that of the recorder must serve a term of six months on the roads of the county or leave town not to return during the administration of Recorder Windley. This was the decision of the recorder yesterday afternoon after hearing all the evidence introduced. Swain was ordered to leave the city by eight o'clock this morning. The presumption is that rather than serve a term of six months on the road shovelling dirt he chooses the latter course.

Scenes Visited In Old Country

Entertainment Given Under the Auspices of The Eta Kappa Club—Refreshments Served.

It was a rare treat to those who were patriotic enough to attend the entertainment given at the High School last night by the Eta Kappa Club. Nothing educates like travel. To see things, to witness for yourself the habits and manners of the various people in the world; to visit the shrines of nature, art and history; to see how people live, how they work, how they dress; how they eat, and how they worship; is interesting and instructive to every one, young and old. Last night we were able to enjoy some delicate refreshments under the American flag, and to see some of the beautiful American ladies, and were then escorted by one of these ladies across the Atlantic and through the Mediterranean to Egypt, the land of the Pharaohs and there saw the natives in all their gorgeous costumes, and after partaking of the delicious fruits and dates, served by the Egyptian maids, we were ushered into the presence of a most celebrated fortune-teller, and at the earnest solicitation of our guide had our fortunes read by her from the lines in the palm of the left hand. She told us many wonderful things. She said to one lady in our party, that she would be married twice, that she would be sick but would get well again, that she was artistic, domestic and liked to travel, all of which was quiet true, and really wonderful. We then visited Japan and enjoyed a cup of tea, served in one of the beautiful gardens which abound there, lighted with artistic lanterns, and festooned with bright colored decorations and served by sweet little Jap maids, with their jet-black hair and arched eyebrows, and their becoming costumes, so peculiar to Japan, and which our American ladies take to very easily and becomingly. Our trip would not have been complete without a trip to France, and to Holland, the land of wind-mills, canals and things good to eat, such as ice cream cones, etc. We enjoyed the landscape and also the curious little Dutch girls with their queer hats with hat's wings on the sides and the wooden shoes worn by those quaint people. We were landed safely in America without sea-sickness or loss of baggage, and all for the price of 25 cents for the round trip.
